THE NSLC ON MEDICINE AND HEALTH CARE IS LOOKING FOR TEAM ADVISORS FOR SUMMER 2015.

National Student Leadership Conference on Medicine and Health Care
Since 1989, thousands of outstanding high school students have attended the NSLC to explore today’s most exciting careers, develop essential leadership skills, and experience life on a college campus. The NSLC on Medicine & Health Care is a 10-day conference providing talented high school students from around the world with hands on medical experience, opportunities to meet working professionals, and visits to Medical and research facilities. Under the guidance of their Team Advisors, these students will explore the ethical dilemmas that often face medical professionals, explore global public health concerns, take part in an Clinical Diagnostic simulation, and practice clinical medicine skills.

The Role of the Team Advisor
Team Advisors (TAs) act as facilitators, presenters, simulation monitors, and resident advisors. The job of a TA encompasses the role of a chaperone, teacher, mentor, and policy enforcer. As a TA, you will facilitate and supervise a group of 12-16 students. Many TAs will also lead activities, simulations, and lectures attended by all students. Working with your TA group is an amazing experience as you watch your students make friends for life and experience the world of medicine in a personal way. This is a unique opportunity to serve as a mentor and role model for talented young students and share your passion for and knowledge of the sciences, medicine, and health care. Team Advisors arrive on-site 3-4 days before students arrive in order to participate in orientation and training and stay for at least two 10-day sessions in Washington, D.C., Chicago, Atlanta, Boston, Seattle or San Francisco.

Requirements for Employment
Team Advisors must be current college students or recent college graduates with a background and interest in some discipline of the sciences or medicine. The most qualified candidates will have participated in leadership programs, workshops, or classes and will have experience working at summer camps or with high school students in a position of leadership. The NSLC is looking for TAs who are interested in and have experience in a variety of areas including scientific research, physical and occupational therapy, nursing, emergency medicine, psychology, social work, public health, and epidemiology. EMT or First Response training is a plus.

Dates & Compensation
Team Advisors will be paid $850 at the end of each session. The NSLC pays for room & board, as well as transportation to and from the conference. For more information, visit www.nslcleaders.org/jobs. Applications are now being accepted. In 2015, the NSLC on Medicine and Health Care will be held on the campuses of the following universities:
