Northwestern Career Advancement

Open to undergraduate students, graduate students & alumni
Leadership Development Internship Program

- **Position Description:** The A&F Leadership Development Internship Programs are highly competitive leadership initiatives that are unique for their entrepreneurial structure, exposure to senior level management, and high level of day-to-day responsibility. The internships provide a select group of college students the opportunity to experience working at Abercrombie & Fitch for 10 weeks over the summer before entering their senior year. After a period of intensive training, interns have the opportunity to work on meaningful projects that have a direct impact on the business. The programs are structured to allow interns to take on a great deal of responsibility quickly.

Located at our world headquarters in Columbus, OH, these programs feature an initial comprehensive training program up to two weeks long. Upon completion of the training program, interns are placed in business critical areas at the Home Office for their remainder of the internship.

- **Responsibilities:**
  - **MERCHANDISING:** Lead all business and production aspects of specific clothing categories. From picking out the coolest styles and trends for our stores to working with international partners to reading sales and identifying the next big trend, our merchants are involved with every aspect of the product from conception to the sales floor. Interns will have opportunities to analyze the business, oversee vendor communication, attend fittings and participate in design reviews.
  - **BUSINESS ANALYTICS:** Strategically drive A&F’s product teams. As key partners to the design and merchandising teams, Business Analysts impact the business by planning future product and assortment buys, establishing promotional cadences and strategically distributing product by channel across the world. Interns are given the opportunity to analyze key item sales performance, forecast sales plans, report financial results and develop pricing and promotional strategies to maximize margin.
  - **FINANCE:** Impact the financial profitability of the company. Interns will be placed in one of the many finance departments and are given the opportunity to assist in forecasting sales, manage department expenses, participate in the month end close process and develop their financial modeling skills.
  - **IT:** Implement new strategic and systematic approaches to generate dynamic technology solutions for our rapidly growing business. Interns will be placed in one of the many IT departments where they will assist corporate partners in applying technology to tackle
business problems and continuously improve IT platforms based on retail technology trends to support business strategies.

Accelerated Growth Advisors
30 E. Adams St.
Chicago, IL 60035
Consulting
Hires Graduate & International Students

Accounting Associate

• **Position Description:** We are currently seeking an Accounting Associate who shares our passion for helping our clients build exceptional companies. They will work with Analysts and Senior Analysts, middle- and upper-management within our client companies, and internally within AGA to deliver data reports to AGA clients. This role will help drive results within the business by providing accurate and timely data through ownership of the full revenue cycle and payables. They will assist in executing monthly close activities, financial reporting, and providing other decision support to leadership. This is an Analyst development position which will have a two-year rotation. At the end of the rotation, you will have enough experience and skills to be an Analyst at AGA.

• **Requirements and Qualifications:** While Accounting Associates must have business analytic and accounting skills to be successful in this position, they must also have the interpersonal skills required to present their data to the clients’ management teams. They must be able to effectively manage multiple priorities and provide a high level of quality support to team members, management, and our clients. Qualifications include:
  - Bachelor’s degree in a business-related or Accounting. Degrees focusing on accounting strongly preferred
  - Analytical skills to research and resolve inquiries/data
  - Organizational skills to provide client reports within scheduled timeframes
  - Self-starter, creative, and thrives under limited supervision
  - Pro-active approach to accuracy and attention to detail
  - Strong problem-solving and project management skills
  - Demonstrated communication, presentation, and interpersonal skills
  - Intermediate Microsoft Excel skills required; experience with other Microsoft Office products and accounting software (e.g. QuickBooks)

• **Responsibilities:** Projects might include:
  - Financial statement preparation, account reconciliation, accounts receivable follow-ups, AP processing, and payroll processing
  - Preparing reports, budgets, cash-flow models, and supplemental reporting to verify that data is correctly posted and transactions properly classified
  - Verifying report schedules, ensuring that reports sent to clients are accurate and sent within scheduled timeframes
Performing monthly close activities

ACCENTURE
161 N. Clark St.
Chicago, IL 60601
Consulting
Hires Graduate Students

Accenture Consulting Analyst Internship:

- **Position Description:** At Accenture, our portfolio of business includes Accenture Strategy, Accenture Consulting, Accenture Digital, Accenture Technology and Accenture Operations. We operate in more than 120 countries, and the skills we offer our clients are vast—just as the cultures, ethnicities, beliefs and languages we represent. While we are global, through your local leaders and client supervisor, you’ll enjoy an experience that is designed for you. As an Accenture Consulting Analyst Intern, you will explore your professional passions and develop market leading skills that will enable you to thrive no matter what your future career path holds. Accenture analysts combine technology, digital and business expertise to design and deliver end-to-end solutions that our clients need to become high-performance businesses and governments. It’s a very exciting place to be!

As a fellow in the Accenture Student Empowerment Program (ASEP), you’ll benefit from a mentorship program that is built to help you learn more about consulting and better define your interests, goals and career path. Learn from experienced professionals who’ve traveled the road you may want to take and get a true glimpse into the day in the life of a consulting analyst. If you are energized by what you see, take the next step to see if you’re eligible for a paid summer internship.

If you want to learn first-hand how our consultants help transform some of the top brands in the world and why clients consider them trusted advisors, you need to be part of the Accenture Student Empowerment Program. As an ASEP fellow, you’ll develop a relationship with your mentor, gain exposure to the business world, understand the relevance of your academic studies, develop a professional network and the opportunity to practice your networking skills, and potentially have the opportunity for paid summer internships(s)!

- **Responsibilities:** Consulting Analyst Intern Highlights: There is never a typical day at Accenture, but that’s why people love it here! As a Consulting Analyst Intern, you’ll work alongside clients as you help them make a real difference to their customers; your friends, family and neighbors. You’ll work with them to identify their challenges and collaborate with your Accenture colleagues to develop and craft solutions. You might spend your day helping your team to translate business objectives, diagnose business processes, leverage analytics, develop innovative answers to complex IT challenges, modernize IT infrastructure, recommend and implement changes. Paid summer internships last 10-12 weeks and typically begin in late May/early June and end in mid-August/early September. Rising Senior Interns attend a three-day leadership conference in
the Chicago area with all Accenture interns from across North America. Hiring locations are based on a combination of business need, skillset alignment and personal preference.

Accenture Strategy Analyst Internship

- **Position Description:** In the world of strategy today, it is about the future, and in the future, technology is the disruptor. Digital technology is changing competitive landscapes and creating new opportunities for almost every organization. This situation plays directly to Accenture's strengths. With Accenture Strategy, we have created what we believe is the strategy firm of the future. It's a very exciting place to be!

  Our 8,000+ strong team of strategists combine deep business insight and tremendous technology understanding within the context of our client's industry. There is no one player who can bring all of that together at the scale and with the degree of integration that we can. This is what our clients' current challenges and opportunities demand of us and it is what makes us different from any other strategy firm in the market.

- **Requirements and Qualifications:** There is no one 'right' major; we look for people from all majors who have a strong demonstrated academic record, intellectual curiosity and leadership ability with a graduation date no later than December 31, 2018
  
  o Overall GPA minimum of 3.3
  
  o Applicants for employment in the US must have work authorization that does not now or in the future require sponsorship of a visa for employment authorization in the United States and with Accenture (i.e., H1-B visa, F-1 visa (OPT), TN visa or any other non-immigrant status.
  
  o Strong performance in business, communications, liberal arts and/or technology relevant courses.
  
  o Strong quantitative acumen with the demonstrated ability to think analytically and conceptually.
  
  o Passionate about technology's impact on business and society with interest in new technology and digital. Disruption.
  
  o Self-starter with a real drive for impact and an entrepreneurial mindset who is eager to work collaboratively.
  
  o Demonstrated leadership skills in professional setting or through extra-curricular activities.

Allstate Insurance Company

2775 Sanders Rd.
Northbrook, IL 60062

Banking, Finance, Insurance & Real Estate

Leadership Development Program

- **Position Description:** Allstate's Leadership Development Program (LDP) is designed to build versatile leaders by providing cross-functional experience through three rotations in different
areas of the organization. Each rotation lasts one full year and aligns to a specific business area (Investments, Marketing, Product, Human Resources, Technology, etc). This approach builds business acumen and a holistic understanding of the organization - knowledge that is imperative for successful leadership at Allstate.

Participants will have the opportunity to jump-start their career through the following opportunities:

- Three 1-year structured rotations in different areas of the business including one rotation in a regional office
- Assignments that involve people, project, and change management along with client-facing work, operations, and strategy
- Two formal learning conferences each year with experiential learning opportunities and exposure to key leaders
- Formal mentoring relationships with experienced Allstate Leaders as well as a peer mentor during the first year of the program
- Opportunities to get to know our nonprofit partners and to volunteer within and outside of Allstate

**Requirements and Qualifications**

- Completed degree by June 2016
- Diverse backgrounds and experiences (we consider all majors)
- Prior internship or co-op experience, or relevant work experience (0-3 years)
- Cumulative GPA of 3.5+
- Extensive leadership experience through extra-curricular activities and community involvement
- Applicants must be currently authorized to work in the United States on a full-time basis
- A willingness to relocate for one of the three rotational assignments
- Strong interpersonal, organizational, and multi-tasking skills

**Analysis Group, Inc.**

Capital One
8000 Towers Crescent Drive, 4th Floor
Vienna, VA 22182

Banking, Finance, Insurance & Real Estate

Associate-Product Management & Analytics

• Position Description: We’re seeking diverse Product Management and Analytics associates who want to be change agents on our journey to change how consumers experience money and finances.
  You will analyze customer insights, help create our company’s newest products and contribute to our mission of changing banking for good.
  To grow your foundation, you’ll hold at least two exhilarating roles in your first 2 years with us. Growth and development are celebrated at Capital One, and we’ll invest in training opportunities, executive networking and personal development for you from the start. That investment is designed to accelerate your development and launch a high-potential trajectory for your career.
  You will have a chance to make a significant impact immediately. Capital One Analysts today are
driving the big data revolution at one of the nation’s top digital marketing companies and are helping transform the financial industry through an agenda focused on consumer needs, cutting edge technology and refreshing transparency. We believe in teamwork and collaboration and you’ll be working closely with both your peers and leaders, solving problems that impact our millions of customers every day.

You will also drive business strategy to develop insights and then work closely with your team and senior leaders to bring them to life.

- **Requirements and Qualifications:**
  - Current student or alumni of Northwestern University
  - Will obtain or have obtained a Bachelor’s degree or higher between December 2014 and August 2016
  - Strong interpersonal, leadership and communication skills
  - Ability to work in a fast-paced, collaborative environment
  - High level of intellectual curiosity
  - Passion for innovation, digital experience and technology
  - Strong quantitative, analytical, problem solving and conceptual skills
  - Solutions-oriented problem solver who loves to think differently about problems of all types and challenges assumptions
  - Join one of FORTUNE’s 2015 100 Best Companies to Work For, a World’s Most Admired Company and a Top Company for Leaders on a journey to disrupt an industry ripe for change.

- **Responsibilities:** This may include:
  - Using Big Data valuation approaches to optimize product terms
  - Driving Digital Innovation to enhance customer experience in an industry ripe for change
  - Testing different product options to analyze customer selection
  - Investigating the impact of historical economic cycles on our business and proposing new strategies and modeling methods to adapt to the current environment
  - Building strategies for marketing optimization to find the overall net value for Capital One
  - Performing analysis on a variety of different industries including Banking, Credit Cards, Auto Finance, Commercial Banking, Investing, Technology and more

**Intern-Product Management & Analytics**

- **Position Description:** We're seeking diverse Product Management and Analytics interns who want to be change agents on our journey to change how consumers experience money and finances. You will analyze customer insights, help create our company's newest products and contribute to our mission of changing banking for good. To grow your foundation, you'll have an exhilarating role in your 10 weeks with us. Growth and development are celebrated at Capital One, and we'll invest in training opportunities, one-on-one development, and networking with executives, recent alums, and interns from top programs nation-wide from the start. Together, we'll accelerate your development and launch a high-potential trajectory for your career. You will have a chance to make a significant impact immediately. Capital One Analyst interns
today are helping to drive the big data revolution at one of the nation’s top digital marketing companies and are helping transform the financial industry through an agenda focused on consumer needs, cutting edge technology and refreshing transparency. - **Program Description:** Datassential, a boutique food & beverage research company, is looking for career-driven and enthusiastic entry-level candidates to join the Custom Research team. If you are looking for an exciting, fast paced, entrepreneurial business environment, this is the company for you.

  The Datassential Custom Research team provides a unique work and learning environment that will continually hone your critical-thinking skills. Each project and client goal is different, offering countless opportunities to develop valuable job skills in market research, strategic analysis, and business communication. We are looking for personable, analytical, and detail-oriented individuals who are interested in gaining valuable experience working closely with our numerous Fortune 500 clients.
As a market research intern you will support the custom research team on projects designed to influence business decisions. You will have the unique opportunity to work closely with the dynamic foodservice industry, to gain an understanding of major food & beverage trends, and to acquire valuable exposure to fundamental market research principles. We will provide you with hands-on training and valuable experience working with our data and productivity tools and developing publication-quality professional deliverables. Interns will be responsible for a wide range of project-related tasks ranging from assisting in custom survey development to data analysis and report writing (see detail below).

- **Requirements and Qualifications:**
  - Meticulous attention to detail
  - Strong professional writing and communication skills
  - Excellent grammar in both written and spoken English
  - Strong analytical capabilities and an aptitude for statistics or numbers
  - Proficiency in MS Office applications: Excel, PowerPoint, and Word
  - Currently enrolled in college as a junior or senior majoring in Marketing, Business, Psychology, Statistics, English/Communications/Writing/Journalism or other related studies

- **Responsibilities:**
  - Review surveys to verify skip patterns, rotations, answer options, etc.
  - Review formatting and data accuracy in client deliverables
  - Pull data and create charts, graphs and tables to be used in reports
  - Produce bullet points to summarize charts & graphs, overall summaries of findings, etc.
  - Other duties as assigned

**Green Corps**

1543 Wazee St., 3rd Floor

Denver, CO 80202

*Energy, Sustainable (Green) Technologies & Utilities, Other*

**Field Organizer**

- **Position Description:** Green Corps' one-year, full-time, paid Environmental Leadership Training Program gives you the best instruction and experience available to launch an organizing and advocacy career. Our program includes intensive classroom training, hands-on field experience
running urgent environmental and public health campaigns, and career placement in permanent leadership positions with leading environmental groups.

HealthScape Advisors
55 W. Monroe, Suite 2100
Chicago, IL 60603
Consulting

Solutions Consultant

- **Position Description:** Pareto IntelligenceTM is a radical, new business proposition that is quietly pushing the envelope and redefining Healthcare Analytics by bringing fresh new thoughts and perspectives to the space. We are a group of eminent free thinkers who show our passion for building great products in everything we do. Our motivation is to change the Healthcare Analytics space - in ways the naysayers claim are not possible. As much as we are thrilled that the Healthcare Analytics space has realized what we have to offer and is beating a path to our door, be forewarned...we're just getting started. But we need your help.

- **Requirements and Qualifications:** Our Solutions Consultants are interested in immersing themselves in the areas of advanced data analytics and modeling, with an eye towards solving client problems. A successful Solutions Consultant will possess
  - A deep desire to serve clients by helping them interpret the outcomes of advanced analytics
  - A genuine interest in using our proprietary analytical and visualization tools (Pareto IntelligenceTM) to solve client problems. While needing to be adept at technology use, they need not hold a technology specific degree nor desire to become a computer programmer
  - A need to innovate and translate client ideas and feedback into enhancements to our suite of tools
  - Education - A Bachelor's Degree in Data Analytics, Economics, Management Information Systems, Finance, Accounting, or other related degrees
  - Complex Problem Solving - Ability to identify and solve problems by reviewing related information, evaluating options and implementing solutions
  - Critical Thinking - Ability to use logic and reason to identify strengths and weaknesses of alternative solutions, conclusions, or approaches to problems
  - Deductive Reasoning - Ability to apply general rules to specific problems to produce answers that make sense
  - Inductive Reasoning - Ability to combine pieces of information to form general rules or conclusions (includes finding a relationship among seemingly unrelated information or events)
Quantitative and Analytical Skills - Ability to apply quantitative and statistical analysis techniques to unstructured problems

Strong Communication Skills - Ability to clearly and concisely communicate information and ideas orally and in writing

Quality Assurance - Ability to perform systematic self-review to ensure work product is accurate and satisfies its intended purpose

Environment - Ability to thrive in an entrepreneurial environment, where continuous learning and new challenges go hand in hand

- **Responsibilities:** Pareto IntelligenceTM was designed to help our health plan clients solve critical financial and business challenges in a post PPACA (Patient Protection and Affordable Care Act) world. Our Solutions Consultants play a key role in the delivery of that guidance and advice. Specific elements of the role include:
  - Being our clients trustworthy partner to interpret outcomes from our suite of data analytic tools
  - Managing multiple client engagements and relationships concurrently
  - Using critical thinking skills to create customized analytic interpretations as requested by our clients
  - Providing live demonstrations and instructing new users on our suite of data analytic tools to current and prospective clients
  - Significant collaboration and communication with other technical and non-technical members of the team

Management Consulting Internship

- **Position Description:** Interns are responsible for using advanced analytical techniques to interpret data and present the findings to both Firm professionals and client constituents. Interns play a key role in the design and development of our work product on projects.

- **Requirements and Qualifications:**
  - Effective team player who is comfortable working with clients and building new relationships
  - Ability to apply quantitative techniques to unstructured problems
  - Logical and structured thinker
  - Experience in Excel, Access, and/or SQL
  - Genuine interest in and commitment to healthcare
  - Comfortable adapting in an entrepreneurial environment
  - Enthusiasm to continue learning, challenge and enhance existing strategic solutions is required
  - Strong written and verbal communication skills
  - Bachelor Degree in Finance, Accounting, or Economics
  - Pursuit of CPA or CFE certification a plus

- **Responsibilities:** Specific elements of the role include:
  - Innovative data analysis
Primary/Secondary market research
Manipulating data in Excel, Access and SQL
Extracting/assimilating both quantitative and qualitative data
Being a valued member of a team
Developing draft work product and all work documentation
Supporting Consultants, Senior Consultants and Managers in engagement administrative activities including arrangement letter drafting, status report preparation, billing preparation and work paper finalization.

Typical projects for our health plan, third party administrator and managed care organization clients include:
Business Intelligence Solutions
Business Performance Improvement
Compliance and Investigation
Growth and New Business Development
Mergers and Acquisitions
Provider / Payer Collaboration and Alignment
Revenue Management

Herman Miller, Inc.
855 E. Main Avenue
Zeeland, MI 49464
Engineering, Manufacturing & Transportation

IT Business Intelligence and Data Warehousing

- **Position Description:** Herman Miller’s Summer Internship Program is a paid, 12-week opportunity that provides a 100% real-world experience for students early in their career. Throughout the summer you will apply academic learning to real-world situations and cultivate leadership, problem solving, and communication skills. As an IT Business Intelligence and Data Warehousing Intern you will have the chance to take data from around the business and transform it into meaningful information to help business partners make decisions.

- **Responsibilities:**
  - Develop and program in the areas of data warehousing and business intelligence
  - Gain familiarity with relational databases
  - Interact with visualbasic.net and other online web application processes
  - Use tools and gain experience using SSIS to perform ETL development and programming
  - Use Business Objects tools to access data for ad hoc reporting as it relates to business objectives
  - Participate in cross-functional teamwork to complete an Intern Project
  - Attain on-the-job work experience aligned with your career objectives
  - Perform additional responsibilities as needed to achieve business objectives

- **Requirements**
  - Someone who works well in teams and enjoys solving problems
  - Enrolled and pursuing a four-year Bachelor's degree related to Computer Science or Information Technology from an accredited college or university, and able to provide college transcripts upon request
  - Experienced with Microsoft Visual, basic .Net skills, and online web application skills (preferred)
  - Satisfactorily finished with the basic coursework in your chosen degree program
  - In favorable academic standing within your current academic program
  - Authorized to work in the United States
  - Able to perform all essential functions of the position with or without accommodations

Home Partners of America
180 North Stetson Avenue, Suite 3650
Chicago, IL 60601
Analytics Intern

- **Position Description:** The Analytics Intern will work with the data and production systems used to create the Company's most critical business metrics. Projects will center on working with large sets of historical mortgage and real estate data to create forecasts and models to better support the Analytics Team. Other projects will include further development of algorithms for determining rent pricing and home values, portfolio analysis of the Company's homes, and other data analytics exercises as required.

Insight Strategy Advisors

450 7th Ave., Suite 2505
New York, NY 10123

Consulting, Healthcare, Hospitals, Medical & Pharmaceuticals

Analyst/Senior Analyst

- **Position Description:** Insight Strategy Advisors is a boutique life sciences consulting firm based in New York City. For over 10 years, ISA has provided innovative solutions to a wide range of clients including 15 of the world’s top 25 pharmaceutical and biotech companies. Our depth of knowledge in both business strategy and scientific content and emphasis on data-driven recommendations help differentiate ISA from our competitors.

Working at ISA provides significant exposure to key aspects of the pharmaceutical industry including the drug approval process, product launch strategies, product lifecycle planning, and payer reimbursement policies. ISA projects span many therapeutic areas including immunology/rheumatology, oncology, vaccines, cardiovascular disease, and infectious disease.

- **Responsibilities:**
  - Managing the data collection process for internal and external data sources relevant to key strategic questions posed by our clients
  - Synthesizing, analyzing, and presenting primary and secondary market research to support client deliverables.
  - Taking the initiative to become a “knowledge expert” by thoroughly evaluating the challenges and opportunities associated with the interpretation of primary and secondary data.

- **Requirements and Qualifications:**
  - Have a passion for working in healthcare.
  - Have superior qualitative and quantitative analytical skills.
  - Be resourceful and able to identify new ways of obtaining and analyzing market data.
  - Possess strong organizational skills and an ability to multi-task across several project work-streams.
Be proficient in Excel and PowerPoint. Statistical software or advanced analytics knowledge is a plus.
Convert analysis into illustrative or quantitative formats that demonstrate key market dynamics.
Have a strong record of extracurricular activities and relatable work experience.
Be authorized to work in the United States.

Kargo
826 Broadway
New York, NY 10022
Advertising, Marketing & Public Relations
Hires International Students

Campaign Coordinator

- **Position Description**: Kargo is looking for a motivated individual to join the Operations team. In this role, Campaign Coordinators will take a hands-on role in assisting Campaign Managers with the launches of mobile advertising campaigns.

- **Responsibilities**:
  - Scheduling and QA of campaigns and creative in DFP
  - Updating Daily Campaign Tracker to monitor pacing and delivery
  - Schedule automated reporting for each Campaign Manager (CM)
  - Assist CM team with campaign optimizations as needed
  - Identify and troubleshoot tracking discrepancies in 3rd party reporting

- **Requirements and Qualifications**:
  - Demonstrated problem solving and troubleshooting skills. Critical thinking and common sense are essential to success in this role.
  - Self-starter with a love for data, an acute attention to detail and a relentless curiosity
  - Team player who can juggle multiple responsibilities and excels under pressure
  - Ability to meet multiple deadlines in a deadline driven, changing environment
  - Exposure to ad-serving and Rich Media technologies: DFP, Atlas, Pointroll, AdMarvel, Celtra, Medialets, etc.
  - Passion for the exploding mobile industry, trends in technology and the entrepreneurial field
L.E.K. Consulting LLC
One North Wacker Dr., 39th Floor
Chicago, IL 60606
Consulting

Summer Consulting Associate

- **Position Description:** The Summer Associate Program is a paid internship that is 8-10 weeks in duration beginning in June. Internships are available only to students between their junior and senior year. Full-time offers are extended to top-performing Summer Associates.

- **Responsibilities:** The role of the Summer Associate is essentially the same as the role of a fulltime Associate. The Summer Associate is responsible for the basic research and analysis upon which each client engagement is based. Specific responsibilities include:
  - Gathering primary data on markets, competitors and customers through database and Internet searches, market research and other commercial reports, internal client data, and telephone and in-person interviews.
  - Developing detailed strategic and financial analysis, which will be utilized to determine the recommendation. Examples include: developing a spreadsheet model of market growth and competitor share, developing a valuation model for a company or product using discounted cash flow analysis, or determining probability distributions of an acquisition value.
  - Working with the case team to derive insights, conclusions and recommendations based on the analyses. A Summer Associate must transform what he or she has learned into a valuable and integral element of the client's strategic direction.

- **Requirements and Qualifications:** A complete application consists of a resume, cover letter stating geographic preference, and a copy of your unofficial college transcript. L.E.K. does not have a rigid checklist of qualities a potential Summer Associate must possess. Rather, our recruiting experience has shown that outstanding academic achievement, comfort with quantitative analysis, notable extracurricular interests, and demonstrated leadership and initiative are excellent preparation for a position within the Summer Associate Program at L.E.K. Consulting.
Macy’s Inc.  
11 Penn Plaza, 11th Floor  
New York, NY 10001  
*Advertising, Marketing & Public Relations, Consumer Products & Retail*

**Macy’s Magnates Program**

- **Position Description:** Macy’s Magnates is a competitive business conference designed to provide underrepresented college sophomores (rising Juniors) exposure to the dynamic careers offered in corporate retail. The comprehensive 3-day agenda will incorporate lecture-style as well as hands-on experiences with a major emphasis on collaboration, leadership, entrepreneurial thinking, and business acumen. Participants will also have the opportunity to network with some of Macy’s top executives. Strong-performing Magnates will be given the opportunity to participate in Macy’s 8-week paid summer internship as a rising senior the following summer.

- **Requirements and Qualifications:** How to become a Magnate:
  - You are excited about the idea of running a business
  - You are energized by competition and thrive in fast-paced settings
  - You are collaborative in nature and easily build relationships with others
  - You enjoy quantitative projects and have an analytical mind
  - You are entrepreneurial and creative
  - Current college Sophomore (rising Junior)
  - Minimum cumulative 3.25 GPA preferred
  - Proven leadership potential
  - Demonstrated commitment to personal development
  - All majors considered

---

Marsh  
400 West Market St.  
Louisville, KY 40202  
*Banking, Finance, Insurance & Real Estate*

**Summer TRAC Program**

- **Position Description:** The Summer TRAC Program provides exceptional college juniors with an opportunity to gain hands-on experience in our risk management and insurance brokerage practices.

  The Summer TRAC Program is designed to give students an insight into Marsh’s business and culture, and to allow us to assess students’ potential to make a long term contribution to the firm. As a Summer TRAC Associate, students will be placed in one of our hub cities for a minimum
of ten consecutive weeks - time enough for challenging assignments that contribute directly to our business.

- Key components of the Summer TRAC Program include:
  - Weekly Speaker Series
  - Formal Goal Setting
  - Business Case Team Project
  - Buddy Program
  - Performance Management
  - Community Service Project
  - Networking Opportunities

Upon completion of the summer internship, exceptional juniors may be extended an offer to join our full-time TRAC Program.

Morningstar, Inc.  
22 West Washington St.  
Chicago, IL 60602  

Banking, Finance, Insurance & Real Estate  
Hires International Students

Morningstar Development Program

- **Position Description:** We created the Morningstar Development Program for recent college graduates as a first step toward successful, long-term careers in any professional field. Participants will contribute to different aspects of Morningstar’s business, learning about financial services and securities industries and gaining critical business development skills. The Program also provides substantial mentorship and training opportunities to help you succeed at Morningstar.

The Morningstar Development Program is accepting applicants with 0-3 years of full-time work experience. We are looking for students in all fields of study with a demonstrated interest in investing and the financial services industry. Successful applicants will work with a program advisor to identify professional goals and determine a role suitable for their background. First placements in the program include positions in client service, data analysis, and sales. Ongoing development opportunities include placements in investment analysis, research, client relationship management, and project management. All positions are based in our Chicago office. If you are interested in a technology role, please apply to the Morningstar Development Program Technical Track.

- **Requirements and Qualifications:**
  - A bachelor’s degree
  - An outstanding academic record
  - Excellent communication and leadership skills
- Demonstrated critical thinking and creative problem-solving skills.
- Ability to adapt well to different situations and thrive in a challenging, fast-paced environment.

**Responsibilities:**
- Participate in ongoing training sessions and stretch projects across different segments of Morningstar’s business, building a strong foundation of knowledge to develop throughout your Morningstar career.
- Develop critical skills and competencies that will help prepare you for advancement into positions across the organization.

---

**Mu Sigma, Inc.**
3400 Dundee Rd., Suite 160
Northbrook, IL 60062

*Banking, Finance, Insurance & Real Estate, Computer Science, Information & Internet Technologies*

**Junior Associate**

- **Position Description:** Mu Sigma is a category-defining decision sciences and big data analytics company, helping enterprises systematize better data-driven decision making. The company’s interdisciplinary approach and integrated ecosystem of platform, processes and people are redefining how companies approach problem solving in areas of marketing, risk and supply chain. With more than 3,500 decision scientists working across 10 industries, Mu Sigma is consistently validated as the preferred decision sciences and analytics partner for 140 of the Fortune 500.

- **Responsibilities:** Our client work will throw a variety of challenges at you, ranging from analyzing the chemical backings of pharmaceutical drugs, to optimizing the global supply chains of consumer product companies, to helping banks turn fraud detection into improved consumer experiences.

  You will be assigned to a client location and work as a member of a globally distributed Mu Sigma team, one that bridges the client location and our India center. You will be asked to:
  - Engage clients to understand their business challenges and brainstorm how to solve them.
  - Solve data-intensive problems using Mu Sigma analytical frameworks and tools.
  - Present the results of your work to senior client management, offering actionable insights and recommendations that lead to measurable business impact.
  - Build relationships with clients, helping them improve their consumption of analytics to drive their business operations and decision-making forward.

  Other analytics firms will operate on a project-to-project basis. We’re different. We operate problem-to-problem, helping our clients make better decisions in a world of muddy, inter-connected business issues. But in parallel, we help those same clients adopt a fundamentally new approach to decision making - a new art of problem solving.
• **Requirements and Qualifications:** At Mu Sigma you'll hear the phrase "Learning over Knowing." It's one of our guiding principles, and we expect every Mu Sigma associate to demonstrate a passion for learning. Here are some other characteristics that we look for:
  - A quantitative mindset. You don't have to be a Statistics major, but you should be comfortable in working with numbers.
  - A critical eye. We want someone who asks questions, always probing for "Why?" or "So what?" We value contrarian thinking.
  - Interpersonal skills. The work involves consulting and client interaction. Clients have to like and respect you, even when you tell them they're wrong.

Another of our guiding principles is to place a premium on interdisciplinary perspectives in how we approach our work and who we hire. To that end, we hire across all disciplines: Bachelors or Masters in Arts / Science / Business as long as you're graduating December 2015 - May 2016.

  - experience to senior management and other partners
  - Additional department-specific training and activities.

**Navint Partners, LLC**
1700 W. Irving Park Rd.
Chicago, IL 60613

**Consulting**

**Junior Management Consultant**

• **Position Description:** Come join our team! Navint Partners, LLC is recruiting for junior management consultants with a passion to work cross-functionally to design solutions that align with client business strategies and enabling technology to drive significant performance improvements at our clients. This is a unique and exciting opportunity to join a fast-paced, growing organization that is looking for future leaders. We're looking for ambitious consultants tired of bureaucracy with a desire to work in the financial services, media & entertainment, professional services, apparel and retail and/or healthcare industries. You will learn business analysis, technical & data analysis, testing, training and change management. Previous experience working on initiatives driven by mergers & acquisitions, spin-offs, turn-around, business expansion and/or regulatory drivers is a plus. We expect all of our consultants to be client facing with strong on-the-ground consulting skills working with teams, both internal and external, to bring program management, analytical, change management and project delivery discipline and methodologies to bear in driving execution for our clients.

• **Requirements and Qualifications:**
  - Successful candidates may have formative experience with Big-4 consulting firms like Accenture, Deloitte, PwC, KPMG or similar
One to five years of progressive work experience, possibly relevant consulting experience

- Strong client relationship skills and demonstrated networking ability with peer-level colleagues
- Clear and articulate understanding of consulting and project lifecycle, as well as experience managing the production of deliverables within consulting engagements
- Experience using multiple project management tools and methodologies, and strong process and data analysis skills is ideal
- Travel Requirement: 75%

Competencies & Intangibles:
- Strong conceptual, analytical, and critical thinking and execution skills
- Fresh-thinking, innovative style; creative insights and approaches to solving problems
- Effective leader and results-driven; able to deal with multiple constraints while achieving high-quality results, and
- Comfortable establishing measurable goals and milestones for self and others; including time frames and priorities; focused on getting things done
- Confidence to operate with credibility at all levels of client organizations, ability to assist or lead in client sales efforts and desire to achieve partner level within the consulting industry
- Desire to work in a growing and nimble consulting firm with less structure and more opportunities for professional achievement and rapid career development

- Responsibilities:
  - Gather business requirements through a variety of techniques (e.g. work sessions, interviews, etc...) and facilitate design workshops
  - Build case for action and help obtain buy-in from executive sponsors for the mission, vision and strategy for improvement
  - Establish credibility at all levels within the client and build problem-solving partnerships with clients and colleagues
  - Communicate effectively in formal presentation settings including creation of proposals, presentations, client workshops and deliverables covering area(s) of responsibility

Alumni Relations and Development Summer Internship Program

- **Position Description:** Northwestern University undergraduate students are invited to apply for a highly selective, paid internship within Alumni Relations and Development! If you wish to learn more about the ARD Internship Program, please email ardtalentmanagement@northwestern.edu for more information.

- **Responsibilities:** Interns will play an integral part in the NU Strategic plan and We Will. The Campaign for Northwestern. Our cohorts take an active role in achieving the following strategic priorities:
  - We Will. For Discovery and Creativity: We will shape innovative solutions to global issues and develop new forms of creative expression.
We Will. Integrate Student Experience: We will make a Northwestern education more accessible to the very best students, regardless of their financial resources. And we will provide the academic and real-world learning experiences that prepare students to become the leaders and problem-solvers the world needs.

We Will. Connect Campus and Community: We will build a vibrant, diverse, and inclusive community on our campuses.

We Will. Engage Locally and Globally: We will bring Northwestern to the world and the world to Northwestern.

Alumni Relations and Development (ARD) is dedicated to advancing the mission of the University as a premier research and teaching institution. Guided by the University's strategic priorities, ARD nurtures lifelong, mutually beneficial relationships with alumni, parents, friends, and organizations that result in volunteer engagement and philanthropic support. Student interns have the unique opportunity to participate in a multi-billion dollar fundraising campaign, during which the work that they do will have a direct impact on the institution.

Preferred Experience, Skills, & Competencies:

Understanding of leasing, consumer/commercial finance and/or credit reporting industries

Experience using MS SQL-Server

Experience with data warehousing and ETL tools

Multi-dimensional data modeling skills

Understanding OLAP principles and techniques

Data Mining methodologies and tools

Unix/Mainframe experience

**Responsibilities:**

Initiate, design, develop, test and implement extracts from client member into PayNet's database using a mixture of legacy programs and ETL tools

Consult with client members, enabling them to understand and create extract files used in PayNet's data integration process and thereafter on a regular, recurring basis

Cleanse, map and transform client member data to PayNet's schema and data standards

Provide feedback to client members and work with them to resolve any discrepancies found

Approve members' data for production and lead the production implementation process

Handle data related issues found after deployment to production, including getting clarification from members, working with them to fix data upstream and creating fixes or workarounds locally

Perform value analyses as required to support integrations initiatives

Develop tools and/or methods to facilitate the above functions.

Act as Subject Matter Expert (SME) and liaison with other areas within the company on data integration topics

Complete ad-hoc projects as assigned
Statistical Analyst

- **Position Description**: Reporting to the Statistical Modeler, the Statistical Analyst will be responsible for performing statistical analyses identified by PayNet's U.S. Commercial Finance Sales team as useful to support the sales of PayNet's predictive scores and models, including analyses such as:
  - Retrospective score predictive lift analyses of PayNet scores
  - Retrospective score predictive lift analyses of lender and/or competitor scores
  - Joint Odds Matrices and other score combination methodologies
  - Swap-Sets analyses of alternative credit decisioning strategies and the economic impact thereof
  - Score conversion/migration equivalency analyses
  - Specification and development of custom proxy datasets for model development

- **Requirements and Qualifications**:
  - A college degree with a quantitative major (a major in mathematics, statistics, computer science or related field is preferred, but not required)
  - A high level of mathematical ability and logical thinking
  - Fluent English and strong verbal and written communications skills are required
  - Willingness to do occasional travel within the U.S. (e.g. once per month, usually a day trip or one-night stay) is required
  - Knowledge of SQL, SAS, R or programming languages would be a plus, but is not required
  - Some work experience would be a plus, but is not required
  - Experience working in credit/risk or other financial services would be helpful, but is neither expected nor required
  - Authorization to work indefinitely in the United States, without any corporate sponsorship, is required.

- **Responsibilities**: The Statistical Analyst will work with PayNet's other members of PayNet's Analytics Group, with PayNet's U.S. Commercial Finance Sales Team, and with clients and prospects. This position provides extensive opportunity for the right individual to be creative, grow, learn new things, and advance professionally. Intelligence, dedication, and the ability to work in an unstructured environment are the keys to success in this position.

Senior Statistical Modeler

- **Position Description**: The Senior Statistical Modeler will be an important team member on many such projects, in some cases being primarily responsible for the analysis, and in other cases providing more technical data mining support to other team members. This position will also need to be able to interact directly with client lenders, generally large sophisticated financial institutions, to explain study methodologies and findings. The Senior Statistical Modeler may sometimes need to
serve as the Analytics group's liaison with the I.T. Department, which programs new models into PayNet's systems, and as such the Senior Statistical Modeler must have some systems expertise for this as well.

This position provides extensive opportunity for the right individual to be creative, grow, learn new things, and advance professionally. Intelligence, dedication, and the ability to work in an unstructured environment are the keys to success in this position.

- **Requirements and Qualifications:**
  - The candidate should have three to ten years of work experience building and analyzing statistical models in SAS, R, SPSS, Xeno or similar software, and writing SQL queries (in MS SQL, Oracle or MySQL). Expertise in at least one model building software and in SQL are absolutely required.
  - A college degree is required, with material coursework in statistics, mathematics, engineering, computer science, or related field. A master's degree is a preferred, but is not required.
  - A high level of mathematical ability is required.
  - Fluent English and strong verbal and written communications skills are required.
  - Authorization to work in the United States, without any corporate sponsorship, is required.
  - The following are pluses, but are not required:
    - Macroeconomic modeling experience
    - Excel pivot tables and macros
    - Experience working in credit/risk or other financial services (though experience in marketing modeling or pharmaceutical modeling would also be useful).

- **Responsibilities:** Reporting to PayNet's Senior Vice President of Analytics & Product Development, the Senior Statistical Modeler will be involved with a wide range of projects within PayNet’s Analytics group including:
  - Designing and developing cutting-edge predictive models and credit scores for the commercial lending industry
  - Analyzing and validating model performance on lender portfolios and providing client consultation
  - Performing score monitoring and model maintenance
  - Projects to analyze market trends and lender’s relative portfolio performance as part of an effort to improve their business both tactically and strategically
  - Supporting sales and marketing by providing analytical expertise
  - Performing other analytical and data research projects
Operations Rotation Program

- **Position Description:** Participate in a 3-year Operational Rotation program to learn Pentair Operations and execute on key Operations initiatives. Learn and implement improvements in Lean, Quality, Material Flow, Manufacturing Engineering, and/or Production Supervision. Drive Pentair facilities toward improved waste elimination in manufacturing processes. Convert strategy deployment goals into Kaizen team actions - lead and follow-up on the conversion of batch processing to lean practices. Work with Pentair leadership to identify opportunities, execute action plans, follow-up and assure achievement of enterprise goals.

**Internships**

- **Position Description:** Internships in our Marketing, Merchandising, Finance, Accounting, Agency, eCommerce and Analytics groups.
Leadership Development Program

- **Position Description**: The Restaurant Brands International Leadership Development Internship Program is a 10-week summer opportunity designed for top-performing current college juniors who strive for high levels of responsibility early in their careers. Interns will be given ownership of one or more high priority projects, which will be selected by leaders from a variety of departments within our organization. Each project will give you an opportunity to make a sizable impact upon our organization and will set you up for leadership opportunities with RBI in the future. The capstone of the summer includes presenting your project results to members of the RBI executive team.

Along the way, you will receive training, mentoring, and coaching from senior leadership and other members of the RBI community, through both formal and informal development sessions. Those who show that they have what it takes to succeed in this fast-paced environment have the potential for full-time employment after graduation. Project opportunities include: Marketing, Finance, Global Operations, Global Business Services, Franchise Sales & Development, Human Resources, IT, and more. Internships are available in Miami, Florida, USA and in Oakville, Ontario, Canada, depending on the candidate’s preferences and work authorization.

---

Junior Consultant Intern

- **Position Description**: For eight to twelve weeks during your summer break you will work as part of a team of Consultants to help support our clients.

Junior Consultant interns are exposed to various project types for maximum learning experience and professional development. During your internship you can expect to contribute to the content, design, and presentation of analyses in support of case work. You will have frequent interaction with experienced Consultants, Client Senior Executives, and industry experts. As an intern you will also provide support to teams through primary and secondary research, analysis of data, and the preparation of deliverables, such as reports and presentation documents. A personal mentor will advise you both professionally and personally. You will get a true sense of
out our corporate culture and can decide for yourself whether Roland Berger is right for you. Outstanding Junior Consultant interns will be offered a full-time position. We look forward to receiving your cover letter and CV.

- **Responsibilities:** The Affiliate Relations Manager is responsible for driving profitable business results and operational excellence by creating and developing relationships with SMS's affiliate subcontractor base. This individual will work with a team performing the SMS Affiliate Relations function. Key areas of focus include:
Performing objective analysis and score-carding of SMS’s affiliates against standard KPIs and metrics

Leveraging scorecard results to manage and negotiate with senior management of SMS affiliate base to ensure proper pricing and affiliate performance

Uncovering/understanding client objectives, challenges and needs by performing regular client needs assessments

Leveraging internal resources to enhance SMS’s relationship with its affiliate base

Establishing/growing senior relationships with assigned affiliates

Preventing and/or resolving escalated affiliate issues

Proactive and reactive relationship management

Consistent focus on delivering exceptional customer experiences

Ability to assess strengths, weaknesses, opportunities, and threats

Modeling and promoting exemplary affiliate engagement practices

Understanding business concepts and using strategic processes to make good business decisions

Meeting with Operations teams on a regular basis to ensure affiliate relations program is on track towards achieving customer goals

Operations Manager

- **Position Description:** SMS Assist Operations Managers manage a portfolio of customers and serve as a single point of contact for their sub-contractors (affiliates). Operations Managers enable SMS Assist to execute our customer growth and retention strategy by building personal relationships with our customers and affiliates. Responsibilities include consulting with customers about their service needs and wants, managing customer calls and requests for services, ensuring affiliates are executing the necessary services, and accurately entering all information into our database. The position contributes directly to the corporate goal of achieving a high level of customer satisfaction. The Operations Manager role has been designed to provide opportunities for skill and career growth and development. There are 3 levels of Operations Manager with increasing responsibility, scope, and level of skills required, as outlined below.

**CUSTOMER SERVICE CUSTOMERS**

- Develop and maintain positive customer relations required to ensure superior customer satisfaction
- Understand the SMS Assist competitive advantage and be able to educate customers on the benefits of the SMS Assist service offering
- Consult with customers about their service needs and wants
- Receive and manage customer calls and email requests for services
- Identify, research, and resolve customer issues using the company’s web-based systems and databases
- Ensure proper affiliate coverage—have primary and secondary affiliates in place to manage services
Follow-up on customer inquiries
Resolve or escalate all disputes or un-satisfied service confirmations
Expected to be on the queue during office hours and follow up on all services requested through the queue. Call responses and resolution times will measure the Operations Manager’s participation on the queue.

AFFILIATES
Ensure affiliates are fully educated in all processes of SMS Assist.
Affiliates are expected to adhere to all processes set forth in their contracts, including but not limited to, the IVR Process; the billing process; the scope of work for each client they are to service; adherence with compliance requirements; scheduling and performing required services; and payment terms.
Maintain open communication with affiliates throughout the duration of the relationship
Communicate with affiliates in a manner that adheres to all contracts and Scopes of Work agreed upon.
Source new affiliates to perform required services, as needed
Ensure that all warranted services are billed in a timely manner, and have the ability to answer any concerns that pertain to the billing process.
Review scopes of work and engage in negotiation, as needed

INNOVATION
Provide market intelligence feedback to maximize customer satisfaction and to ensure that strategies and policies are in place to attract and retain customers.
Seek ways to innovate or improve current processes and procedures

DATABASE MANAGEMENT
Manage all entries in our databases and ensure consistency and accuracy. Ensure there are no discrepancies between our SMS Assist systems (SIM, DSS or ServiceTrack)
Manage the scheduling and completion of all services assigned by customer
Other duties/ special projects as directed
In addition to the above responsibilities, Operations Manager 2 and 3 include the following additional responsibilities:
Maximize value to customers and enhance retention by providing creative solutions to meet customer needs and wants
Resolve most/all customer/affiliate issues without escalation
Train and/or advise entry level personnel on company policy and practices
Contribute to continuous improvement initiatives that drive revenue and customer satisfaction
Provide technical input to assist in development of project planning.
Provide manager with recommendations to changes in procedures, as needed
Develop and present business reviews on key businesses to Operations Management
• Provide market intelligence feedback to ensure that strategies and policies are in place to attract and retain customers
• Assist with recruiting and training of other operations personnel
• Serve as mentor/coach to lower level Operations personnel
• Use voice of the customer data from various sources to turn information into insights
• Perform additional responsibilities as requested or assigned

• Requirements and Qualifications
  o Bachelor’s degree (or equivalent experience Typically 3+ years of related, progressive work experience would be needed for candidates applying for this position who do not possess a bachelor's degree)
  o Previous customer service experience a plus
  o Experience in a trade is a plus
  o Experience in facilities industry is a plus
  o Professional, relevant examples of solving tough customer issues

Contracts Administrator

• Position Description: SMS Assist is seeking a key addition to our Legal team. As a newly created position within the Legal Department, this role will provide critical support for our growing organization. The Contract Administrator's duties will include, but not be limited to, drafting correspondence, verifying legal documents, proofreading, organizing and managing legal files, conducting law-related factual research, and carrying out special projects for the legal department. This position reports to In-House Counsel and is located in our Chicago headquarters.

• Requirements and Qualifications
  o Bachelor’s degree
  o Fluent in the Microsoft Office suite, specifically Word, Excel and Access
  o Previous professional experience is a plus
  o Previous legal experience is a plus, but not required
  o Demonstrated attention to detail
  o Outstanding oral and written communication skills
  o Proactively taking ownership of projects and taking initiative to achieve ideal outcomes
  o Managing and prioritizing multiple projects simultaneously
  o Strong interpersonal and communication skills

• Responsibilities: In order to provide the most efficient and streamlined process for our customers, SMS Assist is seeking a highly detailed and organized individual that can truly excel on a team as well as take initiative and get the job done when working alone. Specific duties include:
  Reviews, verifies, amends, tracks, and gains the necessary approvals for the accounts / contracts.
  o Coordinates with Sales, Operations, Legal and the Customer to ensure the contract is correct and as intended by the parties.
  o Works closely with internal and external stakeholders, including those in the Legal, Sales, and Operations departments, as well as our Customers.
o Ensures that the documents tie out with the Customer contract needs, requirements, and expectations, including contracting strategies, business objectives, and other contract conditions
o Conducts various analyses and modeling of contract data and keeps a database of all contracts, their statuses, and special provisions.
o Obtains all appropriate and required internal reviews and approvals for contract terms and provisions
o Responds to various partner/stakeholder questions, inquiries, requests for clarification, etc. regarding contracts and terms/conditions or other items
o Ensures execution of approved and finalized customer contracts; including timely and accurate hand-off to other internal partners/stakeholders
o Monitors existing customer contracts using approved performance methodologies, tools, etc.; includes identifying and recommending opportunities for improvement
o Ensures all contract data and information is appropriately entered into relevant systems/databases
o Record Keeper. Ensures all contract data and information is appropriately entered into relevant systems/databases
o Administrative Support: Conserves attorneys' time by reading, researching, reviewing, verifying, and routing correspondence, reports and legal and other documents. Collects and analyzes information. Additional responsibilities may be included to assist with business demands.

附属关系团队领导

- **职位描述**: 附属关系团队领导负责推动公司利润和运营卓越性，通过创建和建立与SMS附属分包商的关系来实现。该个人将帮助设计和执行SMS的供应商管理功能，并将管理一个团队，负责作为SMS的联络人与附属分包商的高级管理层建立联系。
• **Responsibilities:** Key areas of focus include:
  o Performing objective analysis and scorecarding of SMS's affiliates against standard KPIs and metrics
  o Leveraging scorecard results to manage and negotiate with senior management of SMS affiliate base to ensure proper pricing and affiliate performance
  o Uncovering/understanding client objectives, challenges and needs by performing regular client needs assessments
  o Leveraging internal resources to enhance SMS's relationship with its affiliate base
  o Establishing/growing senior relationships with assigned affiliates
  o Preventing and/or resolving escalated affiliate issues
  o Demonstrating thought leadership with affiliate by developing and presenting client industry/market research findings, trends, benchmarking and other pertinent information
  o Developing a quarterly plan to translate SMS's objectives into an overarching strategy which includes goals and performance of affiliates
  o Leading senior level affiliate meetings and attending regular affiliate status meetings as appropriate
  o Establishing and maintaining a management framework/process that allows for visibility into company performance on assigned affiliates
  o Proactive and reactive relationship management
  o Consistent focus on delivering exceptional customer experiences
  o Ability to assess strengths, weaknesses, opportunities, and threats
  o Modeling and promoting exemplary affiliate engagement practices
  o Understanding business concepts and using strategic processes to make good business decisions
  o Motivating, inspiring, and leading team to achieve results
  o Meeting with Operations team on a regular basis to ensure affiliate management program is on track towards achieving customer goals
  o Leading and mentoring junior staff

• **Requirements and Qualifications**
  o Bachelor’s degree
  o 7+ years business experience including 5+ years building and/or managing accounts/stores/regions, particularly within the retail industry
  o Professional, relevant examples of solving tough customer issues
  o Demonstrated experience managing and leading individuals and/or small teams
  o Multi-unit management experience is a plus
  o Experience in a trade is a plus
  o Experience in facilities industry is a plus

  **Preferred Skills**
  o Master at customer interaction and providing a high level of service
  o Strong negotiation skills
  o Strong verbal and written communication skills, particularly via phone and email
• Ability to analyze and see patterns in data and information in order to create proactive solutions
• Proficient in Microsoft Office Suite, especially proficiency with Excel
• Ability to present to and communicate with multiple levels within the company and with the customer
• Demonstrated ability to provide instruction, training and guidance to others
• Ability to motivate and lead others
• Comfortable organizing and leading individual and group meetings
• Driven by numbers/measures and comfortable in environment with heavy emphasis on customer service and satisfaction metrics
• Exceptional problem-solving skills
• High integrity
• Flexibility, adaptability and able to juggle multiple projects and priorities in a fast-paced environment
• Solutions oriented
• Travel expected: limited

Procurement Manager

• Position Description: SMS Assist L.L.C. is seeking candidates with experience in procurement. They will be collaborating with the Facilities Procurement Team on an on-going basis to provide sourcing support - lead list generation (Isell Database). This individual will be responsible for executing competitive RFI's/RFPs, leading affiliate negotiation, conducting spend analysis, and optimizing eSourcing technology when applicable. This role will develop and execute implementation plans to ensure sourcing benefits are fully optimized.

• Requirements and Qualifications
  • Bachelor’s degree in business administration, logistics, finance or related
  • MBA is a plus
  • CPM, CIRM or CPIM certification a plus
  • 2-5 years of professional experience in Strategic Sourcing or operations
  • Experience in a dynamic growth organization
  • Experience and exposure in advanced sourcing strategies

  Preferred Skills
  • Meeting facilitation and presentation skills
  • Knowledge of financial accounting, strategic sourcing, and supplier management concepts
  • Ability to develop relationships with key Business Partners
  • Multi-site Retail experience preferred
  • Knowledge of Supplier Management tools (SRM, conducting Quarterly Business Reviews, etc.)
  • Excellent skills with Microsoft Office
  • Ability to perform in a fast-paced, goal-oriented, and time-sensitive environment
  • Ability to lead and influence change in the face of complexity and ambiguity
Excellent analytical, problem solving, and project management skills

Experience sourcing the following:

- Maintenance Repair Services (HVAC, Electrical, Plumbing, and Handyman)
- Supplies and Equipment
- Energy
- Pest Control
- Fire Protection

**Responsibilities:** The responsibilities of this position include:

- Assisting with the establishment of procurement policies and procedures
- Responsible for metrics and reporting information involving 'cost by trade by state', time to completion, time from complete to invoice received, NTE effectiveness, and time to quote.
- Assisting with new affiliate onboarding, including helping the affiliate to use the portal correctly and educating them on the compliance process
- Conducting necessary affiliate training and group webinars
- Assisting with new client set-up by finding multiple trade vendors during client expansion
- Additional special projects, as needed. These include helping with the buying Co-Op, RFP responses, etc.
- Managing strategic sourcing initiatives
- Providing strategic analysis of spend and industry trends to drive sourcing initiatives
- Preparing business proposals
- Preparing and leading strategic sourcing initiatives through RFIs and RFPs
- Contributing to negotiation strategy development and negotiation execution
- Managing supplier selection process and providing data to ensure informed selection decisions
- Establishing contract business terms and coordinating with legal and compliance to execute affiliate contracts
- Assisting in managing supplier relationships, tracking affiliate performance, and providing performance feedback to affiliates
- Implementing and driving procurement strategy, policies and procedure
- Conducting analysis to manage vendor base, award business and provide in-depth vendor performance analysis

**Senior .NET Developer**

**Position Description:** SMS Assist is a national facilities maintenance management company that has been providing services to retail chains throughout the U.S. since 1999. Our certified affiliate network and extensive experience allows us to offer an array of services for our customers such as snow removal, landscaping, pressure washing, and parking lot sweeping. Additionally, we offer daily and periodic cleaning of floors, restrooms and windows. Finally, we manage the services of HVAC, plumbing, lighting, glass replacement, locksmith duties, roofing and electrical work. Headquartered in Chicago, IL, we have over 10,000 qualified affiliates in various trades as well as self-perform teams. SMS Assist seamlessly manages the performance of hundreds of thousands
of services per year for multiple national retailers in all 50 states, Canada, and Puerto Rico. Our proprietary state-of-the-art ServiceTrack™ and Market Place Support web-based systems guarantee the highest quality service while reducing cost by enabling customers to control spend. These systems are our primary operational tools used to manage services performed by affiliates for our customers.

We are looking for a highly capable C# developer with strong analytical and troubleshooting skills. The ideal candidate will be a self-starter, one with the capability to learn new rules and business procedures quickly and on the fly, and a strong sense of responsibility about his/her position. You must be able to work full time and on site at our offices in Chicago, IL.

- **Responsibilities:**
  - Development, testing and implementation of .NET based application
  - Provide a solid contribution to a small team of developers responsible for the design, development and implementation of critical business solutions using ASP.NET, C#, SQL Server, MVC, and general Windows Architecture.
  - Able to work quickly and efficiently with a strong focus on achieving tasks.
  - Candidate must have 5+ years of experience designing and developing in .NET and C#
  - Must have good hands on experience in any of the technologies like .NET, ASP.net (MVC), C#
  - Must be proficient in SQL.
  - Should be good in soft skills
  - Undergraduate degree in Information Technology / Information System / Computer Science
  - Excellent command of English language is a must
  - High integrity
  - Sense of urgency
  - Strong work ethic
  - Ability to multi-task
  - Self-starter
  - Flexible and adaptable
  - Enthusiastic and passionate
  - Resourceful
  - Detail orientated
  - Strong organizational and planning skills
  - Strong written and oral communication skills
  - Analytical
  - Open-minded and curious
  - Team player

**Compliance Manager**

- **Position Description:** SMS Assist Compliance Managers manage a portfolio of affiliates and serve as a single point of contact for their compliance needs. Compliance Managers are the revenue
protectors of SMS Assist, and as such must possess excellent written and verbal communication skills and be a great safeguard for the company. Compliance Managers enable SMS Assist to execute customer growth and retention strategies by building personal relationships with affiliates and ensuring their compliance with SMS Assist and customer requirements. Responsibilities include managing affiliate insurance policies, reporting on affiliates' compliance status, communicating effectively with internal Operations Managers, and accurately entering all information into SMS databases. The position contributes directly to the corporate goal of achieving a high level of customer satisfaction. The Compliance Manager role has been designed to provide opportunities for skill and career growth and development. There are 3 levels of Compliance Manager with increasing responsibility, scope, and level of skills required, as outlined below.

CUSTOMER SERVICE
- Develop and maintain positive affiliate relations required to ensure superior customer satisfaction
- Consult with affiliates about specific compliance requirements
- Ensure affiliates are fully educated in, and in compliance with, all contracted SMS Assist processes (i.e. IVR)
- Receive and manage calls and email requests regarding compliance issues from affiliates and Operations Managers
- Identify, research, and resolve affiliate compliance issues using SMS's web-based systems and databases
- Follow-up on all internal and external inquiries in a timely manner
- Expected to be in the phone queue during office hours and follow up on all compliance issues requested through the queue; call responses and resolution times will be used to measure queue participation
- Resolve all internal and external disputes, or escalate as directed
- Communicate with affiliates in a manner that adheres to all contracts and Scopes of Work agreed upon
- Compliance Manager 1 will manage a portfolio of 0-199 affiliates

INNOVATION
- Seek ways to innovate or improve current processes and procedures

DATABASE MANAGEMENT
- Manage all entries in SMS databases and ensure consistency and accuracy between the different systems (SIM, DSS and ServiceTrack)
- Process all contract requests and reports within assigned deadlines
- Other duties/ special projects as directed

In addition to the above responsibilities, Operations Manager 2 and 3 include the following additional responsibilities:
- Maximize value to affiliates and enhance retention by providing creative solutions for affiliates to meet customer requirements
- Resolve escalated affiliate issues
- Train and/or mentor/coach entry level personnel on company policies and practices
- Contribute to continuous improvement initiatives that drive revenue and customer satisfaction by recommending procedural changes
- Provide technical input to assist in development of project planning
- Perform additional responsibilities as requested or assigned
- Compliance Manager 2 will manage a portfolio of 200-299 affiliates
- Compliance Manager 3 will manage a portfolio of 300+ affiliates, and may have direct reports

**Requirements and Qualifications**
- Bachelor's degree (or equivalent experience - typically 3+ years of related, progressive work experience would be needed for candidates applying for this position who do not possess a bachelor's degree)
- Previous customer service experience
- Experience in a trade is a plus
- Experience in facilities industry is a plus
- Professional, relevant examples of solving tough customer issues
- Special reporting (level 1)
- Understand the SMS Assist competitive advantage and be able to educate affiliates on the benefits of the SMS Assist service offering

**Preferred Skills**
- Strong written and verbal communication skills via telephone and email with affiliates and internal departments
- Strong Microsoft product skills, intermediate or better Excel skills, and a facility for numbers
- Driven by numbers/measures and comfortable in environment with heavy emphasis on customer service, deadlines, and satisfaction metrics
- Effective problem-solving and time management skills
- Flexibility, adaptability and able to juggle multiple projects and priorities in a fast-paced environment
- Ability to negotiate
- Enjoys interacting with affiliates, is open-minded, and willing to pick up the phone to work through a problem or opportunity
- Experience interacting with outside customers
- High integrity and ability to maintain confidentiality
- In addition, Compliance Manager 2/3 needs to have:
  - Basic leadership skills to provide instruction, orientation, training and guidance
  - Influencing skills to persuade, sell, direct, lead opinion and negotiate
  - Creativity/innovation to apply new and evolving ideas, methods, designs and technologies
- Travel expected: none
Risk Analyst

- **Position Description:** As a risk analyst, you will enable safer payments for our users and help Stripe manage payments fraud intelligently. The stakes are high, and you will be up against ever-changing and always-improving opponents. You will face some of the most complex and dynamic problems at the company, and the nature of your work will evolve rapidly as Internet payments fraud continues to become more sophisticated.

- **Requirements and Qualifications:**
  - Naturally curious: if something seems off, you want to figure out what's going on.
  - Decisive, yet open to learning: you will make many critical decisions every day, and you will be wrong some of the time.
  - Understanding and empathetic to the challenges of setting up a new business.
  - A strong believer in knowing and understanding the numbers behind a problem.
  - An excellent communicator and able to convey complex ideas succinctly.
  - Fluent in one or more non-English languages (not required, but a big plus as Stripe expands internationally).

- **Responsibilities:**
  - Monitor accounts and transactions to identify and predict fraudulent behavior.
  - Scale risk processes to cover an increasingly large and complex landscape of fraud given our rapidly expanding user base
  - Work with our banking partners around the world to tailor compliance and credit risk management techniques to different geographies.
  - Work with Stripe users to help them eliminate fraud.
  - Challenge the payments industry status quo to help enable innovative businesses to flourish online.

Sales Development Representative

- **Position Description:** The sales team at Stripe combines deep product expertise with a commitment to helping new and existing businesses succeed across a range of industries. As a sales development rep, you'll work to uncover and define the best growth opportunities for Stripe, including new customers, new verticals and new sales strategies. You'll run outbound campaigns (to reach merchants who may not be familiar with Stripe) as well as manage inbound leads (as the first point of contact for many new and growing businesses interested in Stripe). Along the way, you'll work closely with business and product leaders across the company to help Stripe continue growing quickly.
**Responsibilities:**
- Identify the most promising users and verticals that will help Stripe grow.
- Build and maintain relationships with potential and existing customers, as well as internal colleagues across the company.
- Manage inbound leads and outbound campaigns, handling detailed questions about Stripe's product capabilities.

**Looking for someone with:**
- Experience working with external clients, especially complex organizations with unique business needs.
- An ability to understand the Stripe API and build great relationships with highly technical customers.
- A passion for technology, the start-up community, and supporting other businesses as they grow.
- The motivation and flexibility to work well in a high-growth environment where things change quickly.
- Superb verbal and written communication skills.

Financial Rotational Program
- **Position Description:** 2-3 Year Rotational Program through several roles throughout Finance.

**The University of Chicago Urban Labs**  
33 N. LaSalle Street, Suite 1600  
Chicago, IL 60602  
Government & Public Policy, Research Institutions

Project Associate
- **Position Description:** The UChicago Crime and Urban Education Lab are seeking three Project Associates to work on large-scale social policy experiments designed to test the effectiveness and cost-effectiveness of youth violence prevention and educational interventions. Each Project Associate will contribute to a portfolio of projects across the areas of gun violence prevention, education and youth development, mentoring, and street outreach. The position offers the opportunity to work directly with leading social policy researchers, at the
University of Chicago and NYC-area universities, as well as a team of administrative staff, research managers, research analysts, and student research assistants.

- **Requirements and Qualifications**
  - Bachelor's degree in Public Policy, Economics, Sociology, or closely related field required.
  - A minimum of one year of relevant research experience preferred (experience gained in school can be applied to the requirement).
  - Experience managing datasets preferred.
  - Experience working on field experiments preferred.
  - Experience working with Stata or other statistical software packages preferred.
  - Strong interest in social policy required.
  - Strong quantitative skills required.
  - Strong leadership, interpersonal, oral, and written communication skills required.
  - Ability to manage multiple projects simultaneously and meet tight deadlines required.
  - Excellent organizational skills and attention to detail required.
  - Excellent data visualization ability required.
  - Ability to work both independently and as a team member required.
  - Ability to work discretely with sensitive and confidential data required.
  - Knowledge and understanding of criminal justice and/or education policy literature strongly preferred.
  - Microsoft Word, Excel, and PowerPoint skills required.

- **Responsibilities:**
  - Conducts thorough and critical reviews of relevant literature.
  - Writes human subjects permission protocols and amendments for IRB permission, and obtains other research permits as needed.
  - Assists with data collection, management, and analysis including cleaning and assembling the files for data analysis, and conducts field research as needed.
  - Prepares sections of research results, including proofing, formatting and creating tables and graphs.
  - Assists with the coordination of research activities, communications with partner agencies, and managing project deliverables.
  - Assists in writing grant proposals and preparing presentations targeting both policymakers and academic audiences.
  - Other duties as assigned.

**Research Director**

- **Position Description:** The University of Chicago Crime Lab is seeking a full-time Research Director to contribute to the scientific and intellectual leadership for the Crime Lab. In this role the Research Director will help to manage and mentor research and project staff, providing scientific direction and ensuring the rigor and quality of all work. The Research Director would also be expected to direct a portfolio of applied research projects in association with faculty members and research teams focused on reducing crime and violence and improving life outcomes for
disadvantaged youth. The Research Director will report to scientific director Kelly Hallberg and work collaboratively with other researchers, staff, and partner agencies. The Research Director will contribute to the scientific content of research proposals, and will assist the ED and other faculty affiliates in supporting dissemination and policymaker outreach activities. The Research Director will also contribute to strategic conversations about which new projects and initiatives the Crime Lab should take on.

- **Requirements and Qualifications:**
  - Applicants must have a Ph.D. in public policy, economics, criminology, statistics, computer science, or other relevant field with substantial policy and research experience. The successful candidate will have expertise in all aspects of the research design, methods, and evaluation of research projects in the area of criminal justice or related area of social policy and an interest in finding and testing innovative solutions to urban problems. Preference will be given to those with proven experience working with interdisciplinary research teams and agency and community stakeholders.

**Research Analyst**

- **Position Description:** The UChicago Crime and Urban Education Lab are seeking three Research Analysts with strong technical skills to support social policy research projects. This position requires an individual who is able to work as a part of small research teams running multiple projects concurrently. Each Research Analyst will contribute to a portfolio of projects across the areas of gun violence prevention, education and youth development, mentoring, and street outreach.

The position offers the opportunity to work directly with leading social policy researchers, at the University of Chicago and NYC-area universities, local city agency staff, as well as a team of administrative staff, other analysts, research managers, and student research assistant.

- **Responsibilities:**
  - Data cleaning, merging, matching, sampling, modeling, and randomization.
  - Data analysis and dataset management across multiple projects.
  - Prepares results for memos, spreadsheets, and presentations targeting both policymakers and academic researchers.
  - Assists with literature reviews and drafting papers.
  - Other duties as assigned.

- **Requirements and Qualifications:**
  - Bachelor’s degree in economics, sociology, public policy, computer science, or a closely related field required; advanced degree preferred.
  - A minimum of one year of relevant research experience required. Experience gained in school counts towards requirement.
  - Experience working with Stata, SAS, R or other programming languages required.
  - Experience working with large and complex datasets strongly preferred.
  - Experience working on field experiments preferred.
Experience working with GIS and UNIX servers preferred.
Familiarity with randomized controlled trials preferred.
Strong interest in social policy required.
Strong quantitative skills required.
Strong written and verbal communication skills required.
Ability to manage multiple projects simultaneously and meet tight deadlines required.
Excellent organizational skills and attention to detail required.
Excellent data visualization ability required.
Ability to work both independently and as a team member required.
Ability to work discretely with sensitive and confidential data required.
Knowledge and understanding of crime policy, violence and/or education research literature preferred.

Research Manager

• **Position Description:** The UChicago Crime Lab and Urban Education Lab are seeking four Research Managers to work on large-scale social policy experiments designed to test the effectiveness and cost-effectiveness of youth violence prevention and educational interventions. Each Research Manager will oversee a portfolio of projects across the areas of gun violence prevention, education and youth development, mentoring, and street outreach.

The position offers the opportunity to work directly with leading social policy researchers, at the University of Chicago and NYC-area universities, as well as a team of administrative staff, other project staff, research analysts, and student research assistants.

• **Responsibilities:**
  o Contributes to study design and coordinates implementation options with program partners; manages subject selection and randomization process; travels to program sites to monitor and assess implementation
  o Conducts and manages the data analysis process to ensure proper data collection to evaluate program progress and feasibility
  o Oversees University of Chicago IRB procedures and maintains confidentiality of participant information; ensures compliance with institutional, state and federal regulatory policies, procedures, directives and mandates
  o Builds and maintains strong relationships with research partners and all participating partners organizations, government agencies, nonprofits, and other community groups
  o Works with PI and Grants Manager to develop budgets and coordinate all aspects of grant submission to federal and foundation funding agencies; manages progress reports, performance, or financial reporting as required by the granting agency; monitors anticipated and actual costs charged to project budgets, regularly communicates these to Grants Manager, to identify and prevent potential overruns
  o Develops and disseminates necessary project materials to research team and partner agencies
Generates tables and graphs for academic papers, reports and presentations; writes, proofreads and fact-checks academic papers, reports and presentations

Prepares project memos, summaries, presentations, and manuscripts targeting both policymakers, academic researchers and other stakeholders

May supervise other research staff

Other duties as assigned

**Requirements and Qualifications:**

- Bachelor’s degree economics, public policy, sociology, or a closely related field required; advanced degree preferred.
- A minimum two years related work experience required.
- Experience with quantitative data analysis to support the research design preferred.
- Previous experience working in a research organization or managing research projects preferred.
- Previous fieldwork experience preferred.
- Strong project management skills with exceptional attention to detail required.
- Ability to work independently in a fast-paced environment required.
- Outstanding interpersonal skills and ability to maintain positive relationships with various stakeholders required.
- Strong time management skills with a proven ability to multitask and to prioritize activities to successfully complete projects on tight deadlines with little supervision.
- Excellent written and verbal communication skills, with the ability to present data in a simple and straightforward way for non-technical audiences required.
- Demonstrated ability to exercise sound judgment required.
- Knowledge and understanding of crime policy and violence research literature strongly preferred.

Evanston, IL 60201
Consulting

Business Analyst Internship
• Position Description: ZS Associates' Business Consulting group delivers solutions to a broad spectrum of marketing and sales challenges. We also help our clients transform their marketing
and sales organizations to implement these solutions. Our solutions and recommendations are based on rigorous research and analysis underpinned by deep expertise and thought leadership. Business Analyst Interns create and deliver solutions for our clients and project teams. Interns leverage their analytic skills to derive insights and solve business problems. In particular, Interns work on one or more project teams and may employ advanced analytic techniques to help guide client decisions and/or develop customer insights to inform client decision making through qualitative and quantitative market research.

- **Requirements and Qualifications:**
  - Candidates should be about to enter the final year of a bachelor’s or master’s degree in any discipline, although strong academic performance with analytic and quantitative coursework is required (business, economics, marketing, physical or life sciences, engineering, operations research, management science, applied mathematics, statistics or econometrics);
  - High motivation, good work ethic, maturity and personal initiative;
  - Strong oral and written communication skills;
  - Empathy, adaptability and emotional intelligence;
  - Close attention to detail, with a quality-focused mindset;
  - Self-discipline for planning and organizing tasks;
  - Aptitude for, and enjoyment of, working in teams.
  - ZS is a global consulting firm; fluency in English is required, additional fluency in at least one European or Asian language is desirable.
  - Candidates must possess work authorization for their intended country of employment.
  - An online application, including a cover letter expressing interest and a full set of transcripts (official or unofficial), is required to be considered.

- **Responsibilities:**
  - Leverage problem solving skills and frameworks to analyze client business problems
  - Design custom analyses using standard software tools or ZS' proprietary software
  - Develop statistical models that relate marketing or sales activities to financial results
  - Integrate qualitative and quantitative information to create insight into client issues
  - Synthesize and communicate results to ZS teams
  - Collaborate with ZS teams to implement solutions
  - Gain immediate responsibility on client projects

  - All candidates must have the right to work in the United States for the summer.

---

**Center for Civic Engagement, Northwestern University**

1813 Hinman Ave.
Evanston, IL 60208

*Community Service Social Justice, Educational Institutions and Teaching*

**Public Interest Fellow**

- **Position Description:** Graduating seniors are invited to apply for the Public Interest Fellowship program, a full-time, paid, year-long Fellowship opportunity in Chicago’s public interest sector. Fellows are matched with an organization in their field of interest working in a high-level capacity-building role for the organization. Additional aspects of the program include a weekly professional development seminar program, support from NU alumni mentors, and participation in a community of like-minded peers.

**Engage Chicago Intern**

- **Position Description:** Engage Chicago is an eight-week residential summer program for outstanding undergraduate students who have completed at least one year of college. The program, anchored with a 3-day/week internship, combines immersive experiential learning with coursework and thoughtful reflection led by Northwestern faculty and staff. Special concentrations focused on health, law, or community organizing are available for participants. Engage Chicago is sponsored by the Center for Civic Engagement in partnership with the Chicago Field Studies program at Northwestern University.
Consulting Analyst

- **Position Description:** Consulting Analysts work directly with Clareo teams and clients to design business growth strategies. We are seeking a talented and detail-oriented analyst to support strategy consulting projects. This full-time position will be located in downtown Chicago, Illinois and offers the chance to deepen knowledge of growth strategy by working for a premiere boutique consulting firm serving Fortune 500 clients. Analysts may be engaged to gather and analyze market research, develop client-ready presentation materials and assist with meetings and workshops.

- **Responsibilities:** Analysts will be assigned to one or more project teams and will have specific responsibilities such as:
  - Client Engagement Support: Assist in developing client presentation materials, including creating PowerPoint slides, developing meeting materials, note-taking and creating summaries and output materials.
  - Session Planning: Assist in coordinating, planning and conducting major client events around the world that include very busy, high value external participants and close attention to logistics.
  - Management Support: Assist with preparing engagement proposals, project workplans, contracts, contractor statements of work and other documents using templates.
  - Practice Development: Assist with thought leadership, case studies, methodologies, software templates and other consulting firm work products.
  - Market / Industry Research: Analyze markets and industries using secondary research, including specific companies using templates or guides provided by project manager.
  - Participate in client and market research interviews to document and summarize the findings.

- **Requirements and Qualifications:** The following are key requirements for this position:
  - Excellent communication and interpersonal skills
  - Ability to work well in teams
  - Attention to detail in work product
  - Strong analytical and writing skills
  - Eagerness to learn
  - Entrepreneurial spirit & self-motivation
  - High personal expectations for client service level
  - Ability and willingness to travel for short periods, domestically and internationally
  - Willingness to "roll up sleeves"
  - Comfort using broad range of productivity and internet software
  - Undergraduate degree from a leading university
Position Description: The Northwestern College Preparation Program (CPP) offers academically advanced high school students from across the US and abroad the opportunity to enroll in one of three academic program options: undergraduate courses for credit, noncredit InFocus seminars, or an English language and cultural program designed for international students. Participants experience college life and academics in a safe and supportive environment, which prepares them for college success in their freshman year. As either residents or commuters, CPP students may take a variety of 100- and 200-level NU courses, earn college credit, which may be transferred to the university in which they ultimately enroll. InFocus seminars are small, discussion-based non-credit courses offered in special topic, such as Bioethics, Writing, Global Justice, Medicine, Law, Social Justice, Bioscience Research Art, Social Media, Critical Thinking, Global Health, and Cosmology. Seminars are taught by NU faculty with the assistance of a designated CPP Residential Teaching Assistant.

Along with the Resident Director, the central responsibility of the CPP Residential Teaching Assistant (RA/TA) is to provide mentorship and support for the academic, experiential, and co-curricular components of the College Preparation Program. You will have a unique opportunity to bridge and cultivate learning inside and outside the classroom. All CPP students are housed together and the primary responsibilities for the RAs are to: serve in residence as Resident Advisors in active, engaged support of the CPP community; facilitate extracurricular and experiential activities in conjunction with the residential and academic components of the program; as Teaching Assistant, provide instructional support to lead faculty member in the classroom; assist the Resident Director and CPP Program Staff as needed. RAs live on campus in the program's residence hall and are expected to be engaging, visible and accessible to students and the program on a daily basis throughout the summer. RAs will be responsible for regularly checking in with an assigned group of students and ensuring the safety of all participants. RA/TAs will also create, coordinate and implement extracurricular activities and supervise students at those and other program-related activities. Resident Advisors report directly to the Resident Director and receive further supervision from the Director of Summer Session. This is a full-time residential position.

Requirements and Qualifications

- Completed two years of college by June 2016
- A consistent record of academic achievement
- College-level coursework in one or more CPP/InFocus academic subject areas (biology, business, chemistry, creative writing, economics, engineering, environmental and earth sciences, expository writing, global health, humanities, international relations, legal studies, philosophy & literature, physics, political science)
- Experience working with students ages 11-17 also desirable
- Energy, enthusiasm, and ability to motivate others
- A strong sense of responsibility, professionalism, and level of maturity
- Excellent communication, coordination, and problem-solving skills
- Team player with an ability to work effectively with a diverse student body and staff
- Must be available for mandatory training before program begins. Training dates are June 13 - June 18, 2016.

Preferred qualifications:
- Knowledge of the Northwestern environment, preferably as a current matriculated student or CPP/NHSI/CTD alum
- Previous experience working with high school students as an RA, camp counselor, tutor, or other capacity
- Previous teaching, mentoring, and/or counseling experience is desirable
- Prior residential/student affairs experience is also desirable

**Responsibilities:**
- Participate in mandatory training before program begins (on campus, June 13 - 18, 2016). No outside commitments during this time.
- Assist with Arrival and Departure Days on Saturdays and Sundays, as well as Orientation for incoming students
- Live in residence halls throughout duration of the program
- Serve as mentor, resource and facilitator of summer program policies, procedures, and calendar
- Abide by and enforce program Standards of Conduct and University rules and procedures, and report unsafe and inappropriate behavior
- Participate in a 24 hour on-call duty rotation for emergencies and/or lock outs
- With residential team, facilitate nightly check-in of residential students
- When assigned as on-duty RA, be available in residence hall to immediately address student needs
- Chaperone social events and on off-campus excursions (day, evening, weekends as scheduled)
- Attend weekly staff meetings and one-on-one meetings with the Resident Director
- Maintain administrative paperwork including: health and safety inspections, incident reports, budget/expense, and programming forms; report unsafe or non-compliant activity as appropriate and necessary
- Plan and implement extracurricular activities for students (primarily scheduled for afternoons, evenings, and weekends)
- Represent and uphold the values of the Northwestern community and the College Preparation Program in all circumstances
- As TA for one InFocus seminar, provide classroom support to faculty
• **Position Description:** The Northwestern College Preparation Program (CPP) offers academically advanced high school students from across the US and abroad the opportunity to enroll in one of three academic program options: undergraduate courses for credit, noncredit InFocus seminars, or an English language and cultural program designed for international students. Participants experience college life and academics in a safe and supportive environment, which prepares them for college success in their freshman year. Seminars are taught by NU faculty with the assistance of a designated CPP Residential Teaching Assistant.

• **Requirements and Qualifications**
  Applicants must have:
  o Completed three years of college by June, 2016
  o A consistent record of academic achievement
  o Demonstrated leadership skills in a college setting
  o Excellent communication, coordination, and problem-solving skills
  o A positive, creative attitude and consistent follow through on assignments and agreements
  o Team player with an ability to work effectively in diverse groups
  o Experience working with students ages 11–17 also desirable
  o Energy, enthusiasm, and ability to motivate others
  o A mature sense of responsibility, professionalism, and work ethic
• Must be available for mandatory training before program begins. Training dates are June 13 – June 18, 2016.
  Preferred qualifications:
  o Knowledge of the Northwestern environment, preferably as a current matriculated student or CPP/NHSI/CTD alum
  o Previous experience working with high school students as an RA, camp counselor, tutor, or other capacity
  o Previous teaching, mentoring, and/or counseling experience is desirable
  o Prior residential/student affairs experience is also desirable

• Responsibilities:
The central responsibility of the CPP Lead Residential Advisor is to provide mentorship and support for the academic, experiential, and co-curricular components of the College Preparation Program. You will have a unique opportunity to bridge and cultivate learning inside and outside the classroom. All CPP students are housed together and the primary responsibilities of the RAs are to: serve in residence as Resident Advisors in active, engaged support of the CPP community; facilitate extracurricular and experiential activities in conjunction with the residential and academic components of the program; serve as teaching assistants in the classroom; assist the Resident Director and CPP Program Staff as needed. RAs live on campus in the program’s residence hall and are expected to be engaging, visible and accessible to students and the program throughout the summer. RAs will be responsible for regularly checking in with an assigned group of students. RA/TAs will also create, coordinate and implement extracurricular activities and supervise students at those and other program-related activities. The Lead RA reports directly to the Resident Director and receives further supervision from the Director of Summer Session as needed.

In addition to the duties for the program with which all CPP RAs are assigned, the Lead RA will directly support the Residence Director in the training and programming for overall program. The Lead RA assumes a higher level of responsibility in supervising participants with issues such as health, discipline, and all other aspects of participants’ residential life. The Lead RA also acts as the primary resource for residential staff and may not have more than 5 hours of outside commitment a week. The Lead RA will receive $125 additional compensation per week.
  o Participate in mandatory training before program begins (on campus, June 13 - 18, 2016). No outside commitments during this time.
  o Assist with Arrival and Departure Days on Saturdays and Sundays, as well as Orientation for incoming students
  o Live in residence halls throughout duration of the program
  o Serve as mentor, resource and facilitator of summer program policies, procedures, and calendar
  o Abide by and enforce program Standards of Conduct and University rules and procedures, and report unsafe and inappropriate behavior
  o Participate in a 24 hour on-call duty rotation for emergencies and/or lock outs
  o With residential team, facilitate nightly check-in of residential students
  o Chaperone social events and on-off campus excursions (day, evening, weekends as scheduled)
Maintains close contact with RAs individually and as a team, coordinating schedules, making sure assigned duties are completed, and facilitating overall team dynamic and effectiveness

- Attend weekly staff meetings and one-on-one meetings with the Resident Director
- Maintain administrative paperwork including: health and safety inspections, incident reports, budget/expense, and programming forms; report unsafe or non-compliant activity as appropriate and necessary
- Plan and implement extracurricular activities for students (primarily scheduled for afternoons, evenings, and weekends)
- Represent and uphold the values of the Northwestern community and the College Preparation Program in all circumstances
- Other duties as assigned by Resident Director and program staff.

Discover Financial Services
2500 Lake Cook Road
Riverwoods, IL 60015
Banking, Finance, Insurance & Real Estate

Marketing Internship Program
- **Position Description:** The Marketing Internship Program (MIP) is a 12-16 week paid internship for highly motivated individuals who are interested in gaining real marketing project and process management experience, with exposure to a wide variety of marketing disciplines, including:
  - Card Marketing
  - Payments Systems Marketing
  - Banking Products Marketing
  - Digital Design and Delivery
  - Brand Communications
  - Consumer Insights & Market Research
  - Campaign Management
  - Discover LEAN

Marketing Interns can expect to influence key business initiatives as a direct result of their contributions. They will be afforded opportunities to exercise people and thought leadership in high exposure roles by conducting analyses, supporting internal and external business partners, and implementing critical, revenue-driving projects. During their internship, participants will refine their abilities to lead, make decisions, problem solve and think creatively. They will have many opportunities to improve processes, manage real business projects, and present to management. Above all, Program participants will learn to strategically navigate through the organization, in a corporate setting.
To apply, please submit your resume and cover letter through CareerCat AND online at http://www.mydiscovercareer.com/JobDescriptionDiscover.aspx?Identifier=72969. You must do both in order for your application to be formally considered.

New York, NY 10006
*Banking, Finance, Insurance & Real Estate, Computer Science, Information & Internet Technologies*

Software Engineering
- **Position Description:** This option is for highly technical graduates with an interest in cutting-edge technology and the capital markets sector. Development is often in new areas of finance (e.g. exotic derivatives or in esoteric areas of curve building) and the developer will need an understanding of core financial concepts. The developer must be able to communicate effectively with other members of a small team and the end user, often a trader. The developer may in fact be responsible for all main post business analysis aspects of the software cycle including testing, documentation, integration, training and bug fixing.

Financial Engineering
- **Position Description:** This is a fast track Financial Engineering consultancy option for graduates with excellent mathematical and technical abilities. Those chosen for this stream will help us continue to provide tailor-made solutions, from consulting to support models to technology services. As part of this stream, your multiple asset class knowledge and capital markets technical skills will be key. You will fill Support and Business Analyst roles across front, middle and back-office operations. This stream represents an ideal longer term opportunity for those with a Capital Markets Project Management career plan.

Data Science
- **Position Description**: Our Data Scientist stream offers candidates a unique opportunity to enter the Big Data world where the emphasis is on problem solving using a combination of analytics, imagination and business understanding. Data Scientists explore vast amounts of information to detect patterns, trends and correlations that enable businesses to improve their products, services and revenue. The skills required and the techniques learned apply across various industries and we are heavily involved with financial markets, utilities and telecoms to name but a few. Those selected will embark on an exciting career that combines technical prowess with business insight and commercial acumen. Candidates will be exposed to the latest technologies for both structured and unstructured data including the market leading kdb+ database and q analytics language, Hadoop, SAP HANA, IOS and Android all of which are hosted across best-in-class hardware, mobile and cloud based platforms.

**Trading Technology**

- **Position Description**: Our specialized Trading Technology stream will fast track your career and allow you to work on the leading edge of R&D in electronic trading and high performance computing, in addition to third party trading systems such as WallStreet, Murex, Calypso, OpenLink and Summit. This stream is NOT exclusively for those with a computing science background - it is also suitable for graduates with exceptional mathematical or engineering and/or technical abilities. As part of this stream, your key activities will focus on financial institutions that work cross-asset, often with multi-system and/or high volume trading activities. You will scope, design, develop, and implement a broad range of mission critical data and trading systems across front, middle and back-office operations. Candidates will be exposed to the latest technologies for both structured and unstructured data including the market leading kdb+ database and q analytics language.

**Fisher Investments**

13100 Skyline Blvd.
Woodside, CA 94062

*Banking, Finance, Insurance & Real Estate*

---

**Account Executive**

- **Position Description**: Are you looking for a place where your opportunities will finally match your ambitions? Want to work in a sales environment but not have to cold call? Are you targeting finance or financial services for your next career move? Do you have what it takes to sell to high-net-worth clients?

Be the first point of contact with prospective high-net-worth clients. No need to call friends, family and everyone you meet in an elevator. The great news is, people reach out to us for financial information! You provide them the information they need so they can understand how different Fisher Investments is, and how we want to help them get to their goals.

The Opportunity:
- Base salary plus uncapped commission compensation structure
- Warm leads of high-net-worth investors who have requested information from us
- Ongoing training in finance, capital markets, and portfolio management so you can communicate Fisher Investments' philosophy and strategy to prospective clients
- Coordinate with Vice Presidents to facilitate the asset acquisition process for qualified investors—be part of the process to close business
- Energetic and competitive team environment, to provide support and organic learning from other intelligent and ambitious individuals
- Opportunities for advancement which are driven by your performance, drive, and attitude—you determine your career path

Investment Associate

- **Position Description:** As an Investment Associate, you'll begin in one of several different entry-point roles at one of the world's preeminent private money managers. Depending on our business needs along with which area fits you best, your initial duties may include such diverse tasks as:
  - working directly with top brokerage houses (who act as our custodians)
  - helping plan and coordinate complex client-focused events nationwide
  - supporting our outside sales representatives in an administrative capacity
  - producing detailed reporting and analysis for either our Private Client or Institutional groups

Regardless of your starting area, you'll learn about our business and the world of investments, all while working in an open environment alongside other talented individuals. More importantly, you'll be on the path to helping us achieve our primary goal: exceeding our clients' expectations every day. If you do well in this mission, the sky is the limit.

- **What you'll get:**

  You'll learn more about "real-world" finance in your first few months than any class ever taught you—thanks in part to our unique mentor program. You'll be encouraged to ask questions, improve processes, and propose novel solutions to problems. If you hate the idea of corporate bureaucracy and politics, you'll love that we evaluate employee performance in a manner that is straightforward and metrics-based. Do your best, rise to the top of the ranks in your area, and you'll be on your way to earning more advanced opportunities. That's how our top executives got there, and we think you can do it too. In fact, we hope you'll advance to your next role within 1 to 3 years (a typical outcome for successful employees). Add more value, get more value back.

- **Requirements and Qualifications:** What we'd like:
  - An unrelenting work ethic, a track record of success, stellar communication abilities, and a drive to succeed. And if you are a high-achiever with a background in something other than finance, don't worry—you won't be alone at Fisher Investments, where some of our top employees studied subjects that span the humanities and the sciences.
Communications Intern

- **Position Description:** Execution and support for a range of external and internal Communications projects, including integrated marketing communications, digital communications, web site refresh, writing, Intranet and employee communications and publications, brochures and branding, events and possibly some media relations and issues management.

FTI Consulting

227 W. Monroe
Chicago, IL 60606

**Consultant-Health Solutions 2016**

- **Position Description:** FTI's Health Solutions Practice has more than 260 professionals including healthcare executives, clinicians, physicians, strategists, economists and consultants. From assessment through implementation, FTI focuses on delivering measurable results in order to manage risk, ensure compliance and improve the income statement and balance sheet of our clients. FTI's Health Solutions Practice offers the full breadth of compliance-oriented and operations-focused services. FTI is the preferred provider of healthcare performance improvement, clinical integration, transaction advisory, forensic / litigation, and economic consulting. If you are interested in becoming part of a fast growing company and helping shape its future, read on.

- **Requirements and Qualifications:**
  - Bachelor's degree
  - Ability to work both independently and as part of a team in a fast-paced, multi-task environment with a strong attention to detail;
  - Ability to interface with team members and client personnel in demanding, deadline-driven situations;
  - Excellent communication (both written and verbal), mathematical, and organizational skills;
  - Flexibility with respect to assigned tasks and engagements due to challenging deadlines, changing deliverables and evolving task priorities;
  - General knowledge of corporate finance and accounting principles and terminology;
o Familiarity with internet-based financial research resources for corporate information, SEC filings, competitive data and other data sources;
o Proficiency with PC environment and related software, including Microsoft Office applications; and
o Strong work ethic, eagerness to learn, and motivation to succeed.

• **Responsibilities:**
o Responsible for day-to-day activities of a project including interaction with team members, professionals from other firms involved in the engagement, and client personnel;
o Identify, research, and organize information to assess the appropriateness and sufficiency of available data to facilitate effective data access and analysis;
o Apply business, accounting, finance, and analytical skills to various client situations and practice disciplines including, but not limited to, reviewing and analyzing financial statements and projections, assessing business plans, financial modeling, accounting treatment in financial statements to determine appropriateness under generally accepted accounting principles, reviewing and understanding ratio and comparable company analysis, and creating work product that is flexible, understandable, and usable by others;
o Analyze and interpret historical financial, operational, and transactional data;
o Investigate and critique assertions, analyses, and work product of other experts, consultants, and attorneys;
o Participate in investigations by interviewing subjects, analyzing information, and summarizing observations;
o Assist with preparation of reports, written analyses, presentations, quantitative exhibits, and other client deliverables regarding project scope and/or results of work performed;
o Maintain detailed working paper records reflecting assumptions, methodologies, and information sources employed during the performance of all analytical tasks;
o Participate in client meetings to review results of work performed; and
o Maintain professional image within the company and project the same to those outside of the company.

---

Health Strategy, LLC
10 W. Hubbard St., Suite 3E
Chicago, IL 60610

Healthcare, Hospitals, Medical & Pharmaceuticals

Account Manager

• Position Description: We are looking for a passionate Account Manager who will partner with and ensure the long-term success of our customers.

• Responsibilities: You will be responsible for developing long-term relationships with your portfolio of assigned customers, connecting with key business executives and stakeholders. You will liaise between customers and cross-functional internal teams to ensure the timely and successful delivery of our solutions according to customer needs.

Data Analyst

• Position Description: The Data Analyst will be responsible for performing and assisting in the creation of reporting solutions in support of the strategic goals of Health Strategy. It is imperative that the analyst is a highly skilled technical resource; additionally they need to possess the ability to both manage complex projects and solve issues with large financial impact and/or risk to the customers. The analyst will perform and assist with the creation of standardized and ad-hoc reporting, data analysis and financial models. This role will be involved with the financial analysis of pharmacy engagements including, but not limited to, PBM renewals, RFPs, annual financial reconciliations and utilization trends.
Heidrick & Struggles Consulting
Summer Intern

- **Position Description:** Throughout the course of your 10-week internship, you will develop your search execution skills through hands-on experiences and direct coaching from experienced professionals. You will rotate through multiple practices and be mentored by top performers within our firm – the very best in the executive search industry. Our summer internship program gives you true insight into a career in leadership search and advisory, while helping you develop highly sought-after skills that will help you jump start your career. Successful interns will be considered for full-time employment after graduation. Interns will be hosted in Boston, New York, DC, Chicago, San Francisco. Other US cities may be added at a later date.

- **Responsibilities:**
  - Research and provide information that is relevant for current executive search or business development needs.
  - Participate in client engagements, including conference calls, briefings, and meetings.
  - Contribute to the creation of the search strategy, collaborating with top-level leaders and consultants.
  - Generate names of potential search candidates through various research methodologies and resources, including Heidrick & Struggles’ proprietary database.
  - Analyze current talent market to identify top candidates that match our clients’ needs.

- **Qualifications:**
  - Must be a student entering their final year of undergraduate education.
  - Excellent communication skills; listening, speaking and writing.
  - Strong organizational, analytical, planning, and project management skills.
  - Ability to grasp concepts quickly and think beyond traditional methods to exceed client expectations.
  - Highly developed conceptual skills; ability to synthesize information quickly; ability to present material in an organized and clear manner.
  - Experience identifying market trends and researching information effectively.
  - Team-oriented, adding value to a collegial, collaborative environment.
  - Proactive and self-motivated; possesses a strong sense of urgency.
  - Curious by nature.
Restaurant Management Trainee OR Culinary Management Trainee

- **Position Description**: Known for attracting exceptional people who are passionate about service and the culinary arts, our performance-driven environment prepares you to build a rewarding career in hospitality. Your first exposure is an intensive 4 + months of rotational assignments in one of our restaurants. Because our managers come from all backgrounds and industries, you are not expected to be an expert on day one, but will be given many opportunities within a short period of time to show your strengths. From professional development workshops, to informal mentoring and guidance from your colleagues, we are creating well-rounded restaurateurs who are also savvy businesspeople. Outstanding graduates of our training program can earn the General Manager title in just a few years, and many General Managers in our company earn over $200K per year. Training occurs in Los Angeles, Napa, San Francisco, Washington D.C., Dallas, Phoenix, and New York City, with subsequent assignments in markets all across the country, making relocation flexibility a must for consideration.

Our management team search is focused on strong leaders who are dedicated to consistently driving high standards and achieving service excellence. Those who enjoy a small-company-feel, are adept at building relationships, and have a single-minded focus on delivering quality should apply.

Restaurant Management Intern

- **Position Description**: Typically reserved for rising seniors, students selected to participate in our Management Internship Program spend 12 weeks in a rotational program within a high-quality restaurant environment. Interns are given opportunities to master many service and culinary roles (have you rolled sushi before?) and understand the manager's impact on the business. The best are able to apply their studies to our business and projects as they develop their culinary and management skills.

Management Interns are often involved in hiring, staff supervision, vendor relations, financial analysis, etc. and work 50 hours per week. Compensation $900 per week.

Educational Institutions and Teaching

- **Teaching Assistant**
  - **Position Description:** Teaching Assistants (TAs) must possess and demonstrate an interest in the academic, social and emotional growth of children and/or adolescents, serve as mature and positive role models for students, and exhibit a strong work ethic and commitment to teamwork. TAs work closely with instructors and the Academic Deans (ADs) to provide academically challenging instruction to CTD students, and to carry out administrative tasks as assigned by the instructor and ADs. TAs reinforce course content and study skills during evening study sessions.

- **Office Assistant**
  - **Position Description:** Office Assistants work closely with a variety of staff and in many aspects of the Summer Program, providing clerical assistance in order to keep the Summer Program running smoothly and efficiently. Office Assistants take on tasks as directed by an assigned supervisor, which may include a permanent Program Assistant or other CTD permanent administrative staff. This is an active and visible role requiring high energy and flexibility.
Residential Assistant

- **Position Description:** Residential Assistants (RAs) supervise and provide support to students in a safe and nurturing environment. RAs uphold students to high CTD behavioral standards by administering CTD policies. They are responsible for overseeing the structure of the student residential experience and promoting academic and social success by balancing academics and fun. RAs create and implement engaging activities in the afternoons, evenings and on weekends with safety as a top priority.

Each RA is responsible for the care and supervision of approximately 8 to 14 students, as assigned by the Residential Director(s). The RA is expected to be a visible, active, and accessible presence on campus and in the residence halls. RAs may not have other work or school commitments during their term of employment.

Residential Director

- **Position Description:** The Residential Director (RD) serves as the point of contact for all residential staff, residential students and their parents/guardians for their assigned program(s). The RD also serves as the point of contact for the PC, providing the PC with daily updates on staff and student issues. The RD collaborates with the PC and Academic Dean (AD) to ensure that the residential component of the program meets expectations. RD provides guidance and support to the residential staff and students and oversees the integration of the academic and residential aspects of the program while upholding and promoting the CTD Honor Code in a safe, positive and nurturing environment. As an effective leader, the RD must set a professional tone for the program and serve as positive role model for staff and students. RDs reside in the residence hall for the duration of the program and have 24/7 on-call responsibilities. This requires that RDs not have other work or school commitments during their term of employment.

Residential Teaching Assistant

- **Position Description:** Equinox Residential Teaching Assistants (RTAs) support and supervise students in both academic and residential settings. Each RTA is responsible for the care and supervision of approximately 8 to 18 students. RTAs are expected to be a visible, active, and accessible presence in class and in the dorms and be a role model to CTD students by maintaining and promoting the CTD Honor Code. RTAs may not have other work or school commitments during the term of employment.

Pivotal
3495 Deer Creek
Palo Alto, CA 94304

*Computer Science, Information & Internet Technologies*
Software Engineer

- **Position Description**: Pivotal Labs: We Transform Ideas into Software.
  As a recognized leader in highly disciplined agile software development practices, Pivotal Labs has been building high reliability software for over 20 years. We build consumer and enterprise web and mobile applications for global clients, and have a growing practice building applications for the iOS and Android platforms. We also developed Pivotal Tracker, the project management and collaboration tool used by thousands of software developers worldwide.

  We Can Go Fast Forever.
  We pair program, all day, every day because we know it delivers remarkable results. We practice and teach an approach to software engineering that applies across industries and organizations, so you'll experience all types of teams, products, and technologies. And we believe in working at a sustainable pace - you'll typically code hard for 8 hours each day, but then you're off work to relax, recharge and refocus.

  We Court Perfection.
  Working at Pivotal means you get better at what you already do well. We set up regular retrospectives to figure out what we’re doing wrong so we can fix it, and what we're doing right so we can improve on it. We consistently practice Test Driven Development, which results in high-quality, reliable and more maintainable code. And we believe that methodical, steady, relentless forward momentum drives consistent results.

To make sure you start your day energized, we provide a catered breakfast every weekday morning, and unlimited snacks are available all day. Our collaborative, open-plan office space is filled with talented, like-minded Pivots who enjoy taking advantage of our weekly Tech Talks, playing ping pong, and hanging out with their co-workers on beer night.

- **Requirements and Qualifications**: What We’re Looking For
  - Knowledge of Ruby, Python, Golang and/or Java programming languages
  - Knowledge of Rails and/or Spring frameworks
  - Exceptional software engineering knowledge
  - Experience in test first development and pair programming a plus
  - Experience deploying to cloud environments a plus
  - Strong communication skills and interest in a pair-programming environment
  - Passion for growing your skills, tackling interesting work and challenging problems

Power Home Remodeling Group
9450 Bryn Mawr Ave.

http://powerhrg.com
Entry Level Sales Representative

- **Position Description:** Entry Level Sales Representative
  When you work at a company where the CEO started at entry level less than a decade ago and worked his way to the top, you know we mean it when we say we're preparing you to succeed in more than just your current position. As a full-time entry-level sales representative you'll be trained in all of our products and be able to deliver interactive presentations that will teach communication skills, negotiation tactics, and strategic planning. This position is also the perfect entrance into all other aspects of our business.

- **Responsibilities:**
  - Development and coordination of marketing strategies
  - Promotion of Power's products and services to prospective and existing clients
  - Delivery of interactive sales presentations on eco-friendly, green products and services
  - Participation in ongoing training camps on a weekly basis

- **Requirements and Qualifications:**
  - Highly developed interpersonal, organizational and communication skills
  - Ability to speak publicly with confidence and poise
  - Strong sense of ambition, self-motivation and self-discipline
  - Open-minded with a passion for learning a wide-range of skills that will carry through a variety of career paths
  - Naturally outgoing and articulate individual who thrives in social settings
  - Desire to mentor other colleagues after refining your skill set
  - BA/BS preferred
  - Ability to work Mon - Fri: 11 am to 7 pm & two Saturday's per month: 9 am to 3 pm

---

Product Specialist

- **Position Description:** As a Product Specialist you will work as a member of the Qualtrics University team helping some of the world's top minds take their research to the next level. Whether you're speaking with an undergraduate college student, a tenured professor, or a chief marketing officer, you will constantly be challenged to come up with new and creative solutions to our clients most difficult technical questions. An analytical mind, problem-solving skills, and a strong technical aptitude are necessary to ensure our clients receive the world-class support they deserve.

  As Qualtrics continues to grow at an accelerating rate, we are in need of talented people who can
grow into the roles that are on the horizon. Qualtrics University serves as a 12-24 month training ground for our future leaders and our strongest contributors. The in-depth product knowledge you will gain will set you up for a successful career with Qualtrics. If you love learning new technologies, thrive in a fast-past and dynamic environments, and love the idea of tackling new challenges everyday, this position is for you!

- **Requirements and Qualifications:**
  - Bachelor’s degree completed
  - Part-time candidates will be considered if within 2 semesters of graduation
  - Background in a hard science (math, statistics, physics, chemistry, IT, computer science etc.) or a demonstrated technical aptitude
  - Preferred Requirements
    - History of solving unique problems and delivering results
    - Strong self-motivator with the ability to tackle complex issues
    - Professional and engaging communicator with experience working in a customer/client facing or teaching role
    - Proven excellence in written and oral communications
    - Quick learner with a history of learning new technologies/software
    - Teaching and/or tutoring experience
    - Research experience

- **Responsibilities**
  - Quickly become an expert on the Qualtrics Research Suite and supporting software
  - Solve complex technical support problems both independently and in a team environment
  - Clearly communicate solutions back to clients through phone and email
  - Train and teach clients on specific and new aspects of the Research Suite platform
  - Actively troubleshoot and test processes to discover gaps in product functionality
  - Continually adapt and develop in-depth product knowledge and learn new technologies

**Rise Interactive**

One South Wacker Drive, Suite 300  
Chicago, IL 60606  

_Rise Interactive (http://www.riseinteractive.com), a rapidly growing full service interactive advertising agency, is looking to hire Internet Marketing Interns for the Summer of 2016. We are looking for a detail-oriented, highly motivated and tenacious individual that is excited about getting involved in an entrepreneurial company with an expanding Fortune_
500 client base.  
This is a full time, 10 week program working in our Chicago/Loop office.

Internet Marketing Consultant, SEO

- **Position Description:** The Internet Marketing Consultant, SEO is responsible for overseeing all facets of his/her team and their accounts. This includes ensuring the development of impactful Internet marketing programs that improve our clients' visibility as well as meet their return on investment goals.

SAGA Innovations
10 Laudholm Rd.
Newton, MA 02458

*Community Service Social Justice, Educational Institutions and Teaching*

SAGA Fellow SY16-17

- **Position Description:** We are actively seeking SAGA Fellows to serve students in Chicago Public Schools and in New York City Public Schools for the 2016-2017 school year. Each Fellow is assigned a personal caseload of up to 14 students and will work with the same students every day in small-groups (1:2 is our standard) as well as communicate with their parents weekly and participate in professional development sessions.

  Consider joining if you are looking for an alternative pathway into education, would like to take a gap year before graduate school, have a genuine interest in social justice, or are open to what the next year may bring.

- **Requirements and Qualifications**
  - Bachelor’s degree required (ALL majors accepted; an education major or minor is NOT required).
  - Strong basic high school math skills-you will take a math test as one step in landing this position.
  - Passion for education reform and hunger for feedback.
  - Prior paid or volunteer experience with students is helpful.
  - Prior coaching, tutoring or teaching experience is helpful.
  - Peace Corps and other National Service alumni encouraged to apply

- **Responsibilities:**
  Fellows guarantee the academic success of students by focusing intently on individualizing instruction and building personal and meaningful relationships with their students.
  - Each Fellow will work with an average of two students at a time for each period of the school day, and will have a personal caseload of up to 14 students they will work with every day.
Fellows contact families each week about student progress. This communication forges trust, creates relationships and keeps parents aware of the successes and needs of their children.

Every site has a coordinator who is responsible for observing, training and assisting Fellows through the entire year. Fellows will be observed daily and must be hungry for feedback.

  - Solicits "the right information" up front, translating to a better product the first time
  - Actively participates/contributes to brainstorms
  - Strong presenter with effective written and verbal communication skills both internally and externally (i.e. clients and vendors)
  - Successfully executes programs within established budgets and time frames, on strategy and in accordance with client expectations and TPN quality standards
  - Partners effectively with other creatives and across agency multidisciplinary teams
- Provides final electronic files to prepress department in accordance with established guidelines and procedures to ensure highest quality and most efficient processing of final art
- Mentors more junior team members by assisting them in the growth of their skill sets and understanding of industry practices

**United States Air Force**
658 Rte. 173
Antioch, IL 60002

**Air Force Commissioned Officer**
- **Position Description:** Engineering, Intelligence, Finance, Personnel, Scientists, Space, Pilot, Combat Systems Officer, Weather and Special Investigations... just to name a few.

**Urban Teachers Center**
1500 Union Ave., Suite 2200
Baltimore, MD 21211

*Educational Institutions and Teaching*

**Urban Teacher Resident**
- **Position Description:** Urban Teachers is now taking applications for our Baltimore, Dallas and Washington, DC Corps for the 2015-16 school year, with placement in mid- to late June 2016. Our
recruitment process is selective. While there is no restriction on undergraduate or graduate major, we look for applicants who have exhibited academic excellence by maintaining a 3.0 GPA or higher, who gravitate to big challenges and have experience working with children. Urban Teachers participants are part of an unprecedented commitment to student performance: Only those who demonstrate effective teaching practice and improve student learning receive two certifications and complete the full four-year program.

Urban Teachers participants are among the most expert and result-oriented in the nation because:

- Urban Teachers provides the best teaching preparation available. During the first year of the four-year (4yr) program, before you start teaching on your own, you'll spend 1,300 hours working with students in urban classrooms. You will also complete graduate coursework that is clinically based, allowing for immediate practice of learned skills in the classroom and equipping you with a toolbox of proven strategies for working with all students. Our four (4) years of mentoring and support tailored to your needs—from coaches and peers—is available longer than any other preparation program. And, because Urban Teachers prepares you for the job from day 1, you'll be able to quickly grow into an effective teacher leader, providing support and guidance to your colleagues in your school and city.

- In addition to extensive classroom experience during the residency, Urban Teachers participants earn a master's degree with a dual focus in general and special education that is directly relevant to the urban teacher.

- Urban Teachers also provides three (3) years of one-on-one coaching. During the first year, participants receive a stipend from Urban Teachers. Starting your second year, you are the teacher of record and participants begin to receive full teacher's pay. (Teacher salaries in Baltimore and DC are some of the highest in the nation. Both cities allow an effective teacher to earn six figures.)

As part of an Urban Teachers cohort in every school, you’re never alone. Being with other Urban Teachers participants provides an immediate network—in your school and in the thriving—Baltimore, Dallas or Washington, DC. Urban Teachers educators are trusted by and form partnerships with their colleagues across schools. Teachers are respected community and civic leaders. Whether you’re doing home visits or running into your student's families at the market, you'll be having an impact on improving the neighborhood and community you’re living in.

Visa, Inc.
12301 Research Blvd.
Austin, TX 78759

http://jobs.visa.com

Visa, Inc. is an Equal Employment Opportunity Employer and will consider all qualified applicants for employment without regard to race, color, religion, sex, national origin, disability, age, and the protected status of military veterans and other protected veterans in accordance with applicable armed forces preference and veterans' preference regulations. As a provider of financial services and technology, Visa’s reputation is critical. We are committed to professional integrity and ethical conduct in all our activities. Any dishonest activity, illegal behavior, or offense of the Company’s policy or code of conduct is cause for termination.
• **Position Description:** Imagine working for one of the pioneers in the payment technology space. The kind of company that’s been setting the bar for the way people pay and get paid for more than 50 years, and continues to innovate on a global scale. Now imagine that company is less than 10,000 employees worldwide, small enough that you'll actually have an impact and do some amazing things. Sounds pretty awesome. Well, that company exists and it’s Visa.

The role of the risk organization is to ensure that appropriate due diligence is conducted and corresponding measures are taken to minimize threats and maximize the benefits of growth & innovation without hindering the company's progress.

• **Requirements and Qualifications:** So what are we looking for in a Risk intern?
  o Undergraduate students graduating in December 2016 or later (unless enrolled to pursue an additional degree in Fall 2016)
  o Pursuing a degree in Business, Engineering, Statistics, Economics, Mathematics, Public Policy or a related field
  o Proficiency in Excel and PowerPoint
  o Prior experience in corporate or investment banking or management consulting environment
  o Strong ability to collaborate
  o Highly driven and resourceful
  o Strong written and oral communication, including large-group presentations
  o Strong quantitative and analytical depth with experience in data synthesis
  o Financial acumen and business case modeling experience
  o Except in exceptional circumstances, undergraduate candidates who will require sponsorship for employment visa status now or in the future will not be considered for this position

• **Responsibilities:** Interested in Risk? We have exciting opportunities for you here in our Foster City, CA headquarters in Silicon Valley. Some things you might work on as a Risk intern are:
  o Collate and analyze strategic, financial and operational data to help quantify the potential risks related to alternatives of a business decision.
  o Research and identify trends associated with emerging risks to credit card security like cybercrime and fraud and build outreach strategies to merchants to help them mitigate these risks.
  o Investigate data compromises involving payment card data and perform fraud performance benchmarking for top issuers, acquirers, and merchants

Weber Stephen Products, LLC  
www.weber.com
306 E. Helen Road  
Palatine, IL 60067
