Northwestern University

One Hundred and Fifty-Ninth Annual Commencement

9:30 A.M., FRIDAY, JUNE 16, 2017

Ryan Field
Evanston, Illinois
Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words *Northwestern University, Evanston, Illinois*.

Thirty years later Daniel Bonbright, professor of Latin and a member of Northwestern’s original faculty, redesigned the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of John, chapter 1, verse 14, translating to *The Word . . . full of grace and truth*. Circling the book are the first three words, in Latin, of the University motto: *Quaecumque sunt vera* (Whatsoever things are true). The outer border of the seal carries the name of the University and the date of its founding. This seal, which remains Northwestern’s official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Paul the Apostle to the Philippians, chapter 4, verse 8 (King James Version).

**UNIVERSITY SEAL AND MOTTO**

*Whatsoever things are true,*  
*whatsoever things are honest,*  
*whatsoever things are just,*  
*whatsoever things are pure,*  
*whatsoever things are lovely,*  
*whatsoever things are of good report;*  
*if there be any virtue,*  
*and if there be any praise,*  
*think on these things.*

TO OUR GUESTS

Commencement is the highlight of the academic year. It is that significant occasion, both solemn and joyful, when we honor those students who have completed their course of study. Commencement is important to all of you, the University, and its faculty, staff, and students. While the University respects the rights of all to express their views, we respectfully expect and require that any such expressions during these Commencement proceedings not disrupt the ceremony nor prevent others in the audience from enjoying the ceremony. To enhance the dignity of the event, you are respectfully requested to avoid unnecessary conversation and moving about during the ceremony. Please silence all cellphones. Guests are not permitted on the field at any time.

Smoking is not permitted in Ryan Field.

MORTON SCHAPIRO
President

Morton Schapiro began his term as the 16th president of Northwestern University on September 1, 2009. He is a professor of economics in Northwestern’s Judd A. and Marjorie Weinberg College of Arts and Sciences and also holds appointments in the J. L. Kellogg School of Management and the School of Education and Social Policy.

President Schapiro is among the nation’s leading authorities on the economics of higher education, with particular expertise in the area of college financing and affordability and on trends in educational costs and student aid. He has testified before US Senate and House committees on economic and educational issues and is widely quoted in the national media on those issues.

Previously President Schapiro was president of Williams College from 2000 to 2009. Earlier he had served as a member of the Williams College faculty from 1980 to 1991 as professor of economics and assistant provost. In 1991 he went to the University of Southern California, where he served as chair of the Department of Economics until 1994 and then as dean of the College of Letters, Arts and Sciences until 2000. During his last two years as dean, he also served as the university’s vice president for planning.

President Schapiro has written or edited nine books and more than 100 articles. He has received research grants and contracts from the National Science Foundation, the US Department of Education, the World Bank, the Andrew W. Mellon Foundation, the Spencer Foundation, the College Board, the Organization for Economic Co-operation and Development, and other groups to study the economics of higher education and related topics. In 2010 he was elected a fellow of the American Academy of Arts and Sciences, and in 2017 he was elected to the National Academy of Education.

He received his bachelor’s degree in economics from Hofstra University and his doctorate from the University of Pennsylvania.
WILLIAM A. OSBORN  
Chair, Board of Trustees

William A. Osborn is retired chairman and chief executive officer of Northern Trust Corporation.

Mr. Osborn holds a bachelor of arts degree and a master of business administration degree from Northwestern University. He joined Northern Trust in 1970 and subsequently held leadership positions in the commercial banking and personal financial services business units. Named president and chief operating officer in December 1993, he was named chief executive officer, in addition to president, in June 1995 and became chairman in October 1995. He ended his tenure as chief executive officer on December 31, 2007, and retired as chairman on November 11, 2009.

Mr. Osborn is a member of the Advisory Board of the J. L. Kellogg School of Management at Northwestern. He is a director of Abbott Laboratories, Caterpillar Inc., and General Dynamics Corporation and serves on the board of directors of Northwestern Memorial HealthCare and Lyric Opera of Chicago. Mr. Osborn is a director of the Chicago Council on Global Affairs as well as a former director of New Schools for Chicago and the Terra Foundation for American Art. He is past chairman of the Chicago Symphony Orchestra Association, the United Way of Metropolitan Chicago, the Commercial Club of Chicago, and the Civic Committee of the Commercial Club of Chicago. He is a life trustee of the Chicago Botanic Garden, the Chicago Urban League, the Chicago Symphony Orchestra Association, and the Museum of Science and Industry.

The founding of Northwestern University by nine devout Methodists embodied a mixture of religious conviction and secular optimism that is uniquely American. Meeting above a hardware store in the burgeoning frontier town of Chicago, these nine men resolved on May 31, 1850, to establish an institution of “the highest order of excellence” to serve the people of the original Northwest Territory as established by the Northwest Ordinance of 1787 (Ohio, Indiana, Illinois, Michigan, Wisconsin, and part of Minnesota). The 1851 Act of Incorporation creating Northwestern University contained a provision reflecting the strong religious beliefs of its founders but requiring no particular religious faith of students or members of the faculty.

Only one of the founders, physician John Evans, was a college graduate. Evans chaired the Board of Trustees from the time of the University's founding in 1851 until his death in 1897. The town that grew up around Northwestern was named Evanston in his honor.

In 1853 the University bought and began to develop 379 acres of lakeshore farmland. By 1855 the University had completed its first building and opened a College of Liberal Arts with two faculty members and ten male students. By 1869 Northwestern had admitted its first female students; four years later, it negotiated a merger with the Evanston College for Ladies, whose president, eminent suffragette and temperance movement leader Frances E. Willard, became Northwestern's first dean of women.

By 1900 Northwestern consisted of not only a liberal arts college but also six undergraduate and graduate professional schools, including the schools of law and medicine in Chicago. With the establishment of the Graduate School in 1910, Northwestern adopted the German university model of providing graduate as well as undergraduate instruction, emphasizing research along with teaching.

The University’s development since then has paralleled the growth of metropolitan Chicago. Today Northwestern is a private research university of distinction, with 11 academic divisions located on two lakefront campuses in Evanston and Chicago as well as Northwestern University in Qatar, which opened in Doha in 2008. Northwestern’s vision of excellence—although faithful to its founding—inigorates a territory far beyond the old Northwest Territory through the accomplishments of its alumni and by virtue of a distinguished faculty and high-achieving student body drawn from across the nation and around the world.
The Judd A. and Marjorie Weinberg College of Arts and Sciences, established in 1851 as the College of Liberal Arts, offers the degree of bachelor of arts. Through the School of Professional Studies, Weinberg College also offers the degrees of bachelor of philosophy and bachelor of science in general studies.

The School of Communication, established in 1878 as the School of Oratory and later renamed the School of Speech, offers the degrees of bachelor of arts, bachelor of science, doctor of audiology, and master of science. Through the School of Professional Studies, the School of Communication also offers the degree of bachelor of philosophy in communication.

The School of Education and Social Policy, established in 1926 as the School of Education, offers the degrees of bachelor of science and master of science.

The Robert R. McCormick School of Engineering and Applied Science, established in 1909 as the College of Engineering, offers the degrees of bachelor of science, master of engineering management, and master of science.

The Graduate School, established in 1910, administers programs leading to the degrees of doctor of philosophy, master of arts, master of fine arts, master of public health, and master of science.

The Medill School of Journalism, Media, Integrated Marketing Communications, established in 1921 as the Medill School of Journalism, offers the degrees of bachelor of science and master of science.

The Pritzker School of Law, established in 1859 as the School of Law, offers the degrees of juris doctor, master of laws, master of science in law, master of studies in law, and doctor of juridical science. The school also offers the Master of Laws International Executive Master's Program in Israel, South Korea, and Spain.

The J. L. Kellogg School of Management, established in 1908 as the School of Commerce, offers the degrees of master of business administration and master of science in management studies. In addition to the full-time MBA program, Kellogg offers the evening Part-Time MBA Program on the Chicago campus, the weekend Executive Master's Program on the Evanston campus, and the International Executive Master's Program in Canada, China (Beijing and Hong Kong), Germany, and Israel.

The Feinberg School of Medicine, established in 1859 as the Medical School, offers the degrees of bachelor of science in medicine, master of medical science, master of prosthetics and orthotics, doctor of medicine, and doctor of physical therapy.

The Henry and Leigh Bienen School of Music, established in 1895 as the School of Music, offers the degrees of bachelor of music, bachelor of arts, and bachelor of science. In its graduate division, the school offers the degrees of doctor of musical arts and master of music.

The School of Professional Studies, established in 1933 as University College and later renamed the School of Continuing Studies, offers the degrees of bachelor of arts, master of fine arts, and master of science. The school also offers courses leading to the degrees of bachelor of philosophy and bachelor of science in general studies, conferred by the Weinberg College of Arts and Sciences, and the degree of bachelor of philosophy in communication, conferred by the School of Communication.

Northwestern University in Qatar, established in 2008 as part of Education City in the Qatari capital of Doha, offers the degree of bachelor of science in communication through the School of Communication and the degree of bachelor of science in journalism through the Medill School of Journalism, Media, Integrated Marketing Communications.
ACADEMIC PROCESSION AND DRESS

ACADEMIC PROCESSION
The procession begins with the participating schools of the University. Each school group is preceded by its banner. The formation within each school begins with those graduates receiving the highest degree awarded by that school; doctoral candidates are followed by master's candidates, who in turn are followed by bachelor's candidates. Following the graduates are the University faculty, trustees, administrators, and deans. The president's party, led by the senior class Commencement committee, completes the procession.

ACADEMIC DRESS
Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide warmth in poorly heated buildings and to differentiate scholars from other citizens. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States most academic dress follows the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the gowns' trim and sleeve design indicates the level of the degree. The bachelor's gown has pointed sleeves and is worn closed; the master's gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor's gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves.

This velvet trim may be black or the prescribed color of the academic area. Though the recommended color for gowns is black, Northwestern University (like many institutions) has adopted a colored gown to reflect the school's color. All participating candidates wear a custom purple gown featuring the University crest. Graduates of foreign universities wear gowns of various colors.

The style of hood identifies the level of the degree, the school that granted it, and the academic area. Hood length and border width show the level of the degree. The bachelor's hood, which is optional and not worn at Northwestern University, is three feet in length; the master's, three and one-half feet; the doctor's, four feet. The velvet border of the hood is two, three, and five inches wide for the bachelor's, master's, and doctor's degrees, respectively. The hood is lined with silk in the official color of the school. At Northwestern the hood is lined in purple (the school's color) and gold. The color of the hood's border—and at Northwestern the color of the cap's tassel as well—indicates the academic area. Tassels feature the Northwestern seal signet and are worn on the left side at all times. At Northwestern the colors for the Graduate School constitute an exception; tassels are black, but the border color of the hood indicates the specific degree awarded. Bachelor's degree regalia include a souvenir stole.

At Northwestern University members of honor societies may be recognized by the honor cords, medallions, and stoles worn.

The tassels and borders of the hoods are the following colors:

- Judd A. and Marjorie Weinberg College of Arts and Sciences: White
- School of Communication: Silver gray
- School of Education and Social Policy: Light blue
- Robert R. McCormick School of Engineering and Applied Science: Orange
- Graduate School (tassel): Black

Border colors:
- Master of Arts: White
- Master of Fine Arts: Brown
- Master of Public Health: Salmon
- Master of Science: Yellow gold
- Doctor of Philosophy: Dark blue
- Medill School of Journalism, Media, Integrated Marketing Communications: Crimson
- Pritzker School of Law: Purple
- J. L. Kellogg School of Management: Acorn
- Feinberg School of Medicine: Green
- Henry and Leigh Bienen School of Music: Pink
- School of Professional Studies:
  - Master of Arts: White
  - Master of Science: Yellow gold

BILLIE JEAN KING  
**Doctor of Humane Letters**

Named one of the “100 Most Important Americans of the 20th Century” by *Life* magazine and the first female athlete to receive the Presidential Medal of Freedom, Billie Jean King is the founder of the Billie Jean King Leadership Initiative and cofounder of World TeamTennis. She won 39 Grand Slam singles, doubles, and mixed doubles tennis titles, including a record 20 championships at Wimbledon. In 1973 she defeated Bobby Riggs in the historic “Battle of the Sexes.”

A lifelong advocate for equality, especially in the areas of gender equality and LGBTQ rights, King founded the Women’s Sports Foundation and the Women’s Tennis Association. In 2006 the National Tennis Center, home of the US Open, was renamed the USTA Billie Jean King National Tennis Center in honor of her accomplishments on and off the court. King serves on the boards of the Women’s Sports Foundation, the Andy Roddick Foundation, and the Elton John AIDS Foundation.

**Presented by Teresa K. Woodruff, Thomas J. Watkins Memorial Professor of Obstetrics and Gynecology and Professor of Medical Social Sciences and Medicine, Feinberg School of Medicine, and Professor of Biomedical Engineering, Robert R. McCormick School of Engineering and Applied Science**

You have been a trailblazer both on and off the tennis court. One of the most successful and celebrated athletes of our time, you have also been a leading voice for gender equity and LGBTQ rights. In recognition of your extraordinary accomplishments, the National Tennis Center was renamed in your honor, and you were awarded the Presidential Medal of Freedom. We are delighted to add to your many honors.

DONALD B. RUBIN  
**Doctor of Science**

Donald B. Rubin is the John L. Loeb Professor of Statistics at Harvard University, where he joined the faculty in 1984. Rubin’s work in causal inference, missing data, matching, and applied Bayesian inference essentially defined new fields of statistics. His methods are now embedded in statistical software used by virtually all empirical scientists, and his books *Statistical Analysis with Missing Data, Multiple Imputation for Nonresponse in Surveys, Matched Sampling for Causal Effects, and Applied Bayesian Inference* are essential reference works. Rubin’s many honors include the American Statistical Association’s Samuel S. Wilks Memorial Award, the Alexander von Humboldt Foundation’s Humboldt Research Award, the John Wiley and Sons Lifetime Achievement Award in Statistics and Mathematics, election to the National Academy of Sciences, and four honorary doctorates. Rubin earned an AB in psychology at Princeton University and an MS in computer science and PhD in statistics at Harvard.

**Presented by Larry Hedges, Chair and Board of Trustees Professor of Statistics and Social Policy, Judd A. and Marjorie Weinberg College of Arts and Sciences and School of Education and Social Policy, and Professor of Psychology, Judd A. and Marjorie Weinberg College of Arts and Sciences**

LEILA SADAT  
**Doctor of Law**

Leila Sadat is the James Carr Professor of International Criminal Law and director of the Harris World Law Institute at Washington University School of Law, where she has taught since 1992. An expert on international justice and human rights, she is particularly known for her work on the International Criminal Court and her efforts to draft and win adoption of a global treaty on crimes against humanity. Sadat is the director of the Crimes Against Humanity Initiative, president-elect of the International Law Association (American Branch), and special adviser on crimes against humanity to the International Criminal Court Prosecutor. The author of more than 100 books, articles, and essays, Sadat received the 2011 Fulbright-Tocqueville Distinguished Chair Award and served on the US Commission on International Religious Freedom from 2001 to 2003. She holds law degrees from Columbia University, Tulane University, and the Sorbonne Law School at the University of Paris.

**Presented by David J. Scheffer, Mayer Brown/Robert A. Helman Professor of Law and Director of the Center for International Human Rights, Pritzker School of Law**

You have led the development of a significant field of international law—crimes against humanity. With an emphasis on peace and human rights as core values, you have focused your visionary work on positively affecting the lives of real people. Your wide range of national and international leadership positions in academia and the public arena demonstrate your fervent commitment to the rule of law. We thank you for all you have done to better our world.
GARRY WILLS  
Doctor of Humane Letters

Garry Wills is a prolific author, journalist, and historian specializing in American history, politics, and religion, especially the history of the Roman Catholic Church. After earning a BA in philosophy at Saint Louis University, an MA in philosophy at Xavier University, and a PhD in classics at Yale University, he taught history from 1962 to 1980 at Johns Hopkins University and from 1980 to 2005 at Northwestern University, where he is now professor emeritus. His nearly 40 books include *Why I Am a Catholic*, *Popal Sin, Reagan’s America,* and two National Book Critics Circle Award winners: *Inventing America: Jefferson’s Declaration of Independence* and the 1993 Pulitzer Prize–winning *Lincoln at Gettysburg: The Words That Remade America*. His numerous other honors include the National Medal for the Humanities, the Order of Lincoln, and the 2014 Festschrift *Nation and World, Church and God: The Legacy of Garry Wills.*

*Presented by Ken Alder, Chair and Professor of History and Milton H. Wilson Professor in the Humanities, Judd A. and Marjorie Weinberg College of Arts and Sciences*

As one of the most illustrious figures in American letters today, you have brought your prodigious intellect to bear on American history, culture, politics, and religion. Your award-winning books have illuminated fields as diverse as Catholicism, the US presidency, and Shakespeare. You extend your explorations this coming fall with the release of *What the Qur’an Meant and Why It Matters.* For a quarter-century Northwestern’s students and faculty enjoyed the privilege of your teaching and colleagueship. We are proud to claim you as one of our own.

WEI YANG  
Doctor of Science

Wei Yang has served as president of the National Natural Science Foundation of China since 2013. Previously he was president of Zhejiang University and a professor at Tsinghua University. An influential educator, science policy maker, and researcher, he has authored or coauthored 11 books and some 300 papers, making fundamental contributions to the fields of fracture mechanics, mechatronic reliability, and micro- and nano-mechanics. Yang’s numerous honors include Brown University’s Engineering Alumni Medal, the International Society of Engineering Science’s Eric Reissner Medal, the American Society of Mechanical Engineers’ Calvin Rice Lecture Award, the Ho Leung Ho Lee Foundation’s Award for Mathematics and Mechanics, the Zhou Peiyuan Award for Mechanics, election to the Chinese Academy of Sciences and the Third World Academy of Sciences, and three honorary degrees. A graduate of Northwestern Polytechnic University, he received an MS from Tsinghua University and a PhD from Brown University.

*Presented by Jan Achenbach, Professor Emeritus of Civil and Environmental Engineering, Engineering Sciences and Applied Mathematics, and Mechanical Engineering, Robert R. McCormick School of Engineering and Applied Science*

An exceptional researcher and inspiring educator, you have advanced both theoretical science and engineering technology with your fundamental contributions to the field of solid mechanics. Your work as an international academic leader and scientific policy maker has exerted a far-reaching influence in shaping the landscape of research and education in science and engineering. We salute your remarkable accomplishments.
Dana DesJardins has taught all levels of English since 1991 at Niles West High School in Skokie, Illinois, where she coordinates Poetry Day and the Class Poets program and cosponsors the Shakespeare Club and Students Organized Against Racism (SOAR). In 2009 she won the school’s David Zemsky Award for Teacher of the Year. Her other honors include an IREX Teachers for Global Classrooms State Department travel grant to Ukraine, a National Endowment for the Humanities grant to Duquesne University, and an English-Speaking Union scholarship to Edinburgh University. DesJardins served for two years on the College Board’s Curriculum Development and Assessment Committee and has given presentations for the Council for American Studies Education. Student nominator Basia Gawin of the Weinberg College of Arts and Sciences says, “Her kindness and sensitivity had a great impact on me and changed the way I now view not only literature but also life.” DesJardins received a bachelor’s degree in English from the University of California, Los Angeles, and a master’s degree in literature from Loyola University Chicago in addition to earning National Board professional teacher certification.

Andrea Geyling-Moore has taught history and social science since 1992 at Milton Academy in Milton, Massachusetts, where she is also director of Community Engagement Programs and Partnerships and for four years was director of Youth Outreach Weekends. At Milton she has led community service and summer exchange trips to Belize and China and has twice received a Talbot Baker Dormitory Faculty Award. Previously she taught at Maryland's Suitland High School and was director of China Educational Tours' Beijing office. Winner of the 2016 Volunteer of the Year Award from Brookview House, a Boston family shelter, Geyling-Moore was awarded a 1994 Fulbright summer scholarship for teachers for travel in Egypt and Zimbabwe. Student nominator Arielle Ticho of the School of Education and Social Policy says that Geyling-Moore “so inspired me that I committed to a career in urban teaching because of her dedication to our class and to issues of social justice.” Geyling-Moore earned a BA in East Asian studies with distinction at Stanford University (including study at China’s Beijing Language Institute) and an EdM in teaching and curriculum at Harvard University.

David Masunaga has taught mathematics since 1979 at 'Iolani School in Honolulu, Hawaii, where he has also chaired the mathematics department, coached the math team, and taught SAT preparation. Winner of a 1985 US Presidential Award for Excellence in Mathematics Teaching, he is the current president of the Council of Presidential Awardees in Mathematics. Masunaga’s other honors include the Mathematical Association of America's 2000 Edyth May Sliffe Award, a GTE Growth Incentives for Teachers grant, a Fullingwater Teacher Fellowship in Architecture, and a national Hewlett-Packard Technology for Teaching grant. Director of the National Council of Teachers of Mathematics from 2009 to 2012, he has given numerous presentations for that organization as well as for the Woodrow Wilson National Fellowship Foundation. He served as Hawaii director of Northwestern’s Alumni Admission Council. Praising his teacher’s “genuine concern for students,” nominator Nicholas Yim of the Weinberg College of Arts and Sciences says that Masunaga “transformed my perspective on learning, sparking an excitement that has only intensified.” Masunaga received a BA in mathematics from Northwestern and an EdM in the teaching of mathematics and science from Harvard University.

Patrick Pearson has taught music since 2003 at Illinois’s Oak Park and River Forest High School, where he leads the school’s three orchestras, teaches Advanced Placement Music Theory, and plans biannual international tours, Illinois Music Education Association festivals, and the annual concerto competition. He is also assistant director of the Symphonic Band and color guard instructor for the Marching Huskies. Previously he taught at Lake Forest High School and at Florida’s East Lake and Country-side High Schools. In addition, since 1995 he has served on the faculty of Midwest Young Artists, which honored him with a 2016 Take Note Award. Winner of the American String Teachers Association's 2014 Teacher of the Year award, Pearson appears as a guest conductor for orchestra festivals in Illinois, Wisconsin, and Indiana. Student nominator Ben Weiss of the School of Education and Social Policy says that Pearson “didn’t just teach me how to play the viola; he taught me how to be a part of a team, how to mature as a person, and how to live life with a big smile on your face.” Pearson received a bachelor’s degree from Bowling Green State University and master’s degree from VanderCook College of Music, both in music education.

Raymond Salazar has taught writing and journalism since 2011 at Chicago Public Schools’ John Hancock College Prep High School, where he chaired the English/language arts department and the instructional leadership team. Previously he taught at Chicago’s Hubbard High School, Latino Youth High School, and Jones College Prep, where he was named 2009 Educator of the Year. Second-place winner in the best blog category of the Education Writers Association’s 2012 National Awards for Education Reporting contest, he is a commentator for the White Rhino Blog, a contributor to NewsTaco, and a past commentator for NPR’s All Things Considered and The Tavis Smiley Show. He also writes for NPR’s Latino USA. Salazar has given presentations for the International Conference on Teacher Education and Social Justice, the College Board Preparatory Conference, and conferences of the Education Writers Association. Student nominator Osbeyda Navarrete of the School of Education and Social Policy calls him “the type of teacher who doesn’t forget about students once they are no longer in his class but becomes a mentor afterward and is there for support and guidance.” Salazar received a BA in English and secondary education and an MA in writing with distinction from DePaul University and holds National Board certification in English language arts.

Lauren Veronica Albrecht, Driskill Graduate Training Program in Life Sciences; Feinberg. Post-Translational Modifications of Desmoplakin (DP) Regulate Intermediate Filament Cytoskeletal Dynamics in Skin and Heart Disease; Kathleen J. Green, adviser.

Kendra Patrice Alexander, Human Development and Social Policy; Education and Social Policy. Tracing Trajectories: An Examination of the Influence of an After-School Program on Pathways to Adulthood in One High-Poverty Neighborhood; Dan A. Lewis, adviser.

Deepika Anand, Psychology; Weinberg. Between-Person and Within-Person Covariation among Anxiety and Depression Symptom Dimensions; Richard E. Zinbarg, adviser.

Georgios Askalidis, Computer Science; McCormick. Understanding the Dynamics of Online Review Submission; Nicole Immorlica, adviser.

Julie Katherine Bannerman, Music;ienen. An Ethnographic Case Study Exploring Meanings of Choral Participation in a Rural, Secondary School Culture; Maud Hickey, adviser.

Jesus Banuelos, Driskill Graduate Training Program in Life Sciences; Feinberg. BCL-2 Protects Human and Mouse Th17 Cells from Glucocorticoid-Induced Apoptosis; Nick Lu, adviser.

David Michael Barbeula, Computer Science; McCormick. Analogy in Learning by Reading; Kenneth D. Forbus, adviser.

Evyan T. Barlow, Operations Management; Kellogg. Topics at the Interface of Labor Economics and Operations Management; Gad Allon, adviser.

Cynthia Barnard, Health Sciences; Feinberg. An Innovative RAPPORT Model of Patient-Centered Quality; David Cella, adviser.

Bethany Claire Baumann, Driskill Graduate Training Program in Life Sciences; Feinberg. Hypoxia-Inducible Factors Regulate Type I Collagen Transcription in Renal Fibrosis; H. William Schnaper, adviser.

Christine Rose Simonian Bean, Theatre and Drama; Communication. Sticky Performances: Food, Meaning, and Embodied Spectatorship in 20th- and 21st-Century America; Harvey Young Jr., adviser.

Elizabeth Anne Benjamin, Art History; Weinberg. The Unhomely Home: Calliobette’s Interior Paris; S. Hollis Clayson, adviser.

Cheryl Anne Berriaman, Slavic Languages and Literatures; Weinberg. Outfitted for Modernity: Clothing and Identity in Russian Modernism; Clare A. Cavanagh, adviser.

Miguel Anibal Bessa, Mechanical Engineering; McCormick and Weinberg. Development of Assays to Study the Proteasome-Substrate Interaction; Andreas Matouschek, adviser.

Ivan Donald Blechschmidt, Communication Studies; Communication. Reading Undergraduate Student Authenticity, and Individuality; Janice A. Radway, adviser.

Ari Reza Bonakdar, Electrical and Computer Engineering; McCormick. Far-Field to Near-Field Coupling for Enhancing Light-Matter Interaction; Hooman Mohseni, adviser.

Karima Wolfe Borni, Anthropology; Weinberg. Embodied Authenticity in Moroccan Contemporary Dance; Katherine E. Hoffman, adviser.

Kiyona Brewster, Sociology; Weinberg. Stepping Out on Faith: Family, Gender, and Religious Belonging in the African American Church; Mary E. Pattillo, adviser.

Maria de Los Angeles Chang, Computer Science; McCormick. Capturing Qualitative Science Knowledge with Multimodal Instructional Analyses; Kenneth D. Forbus, adviser.

Chen Cheng, Electrical Engineering; McCormick. Pricing, Competition, and Resource Allocation in Heterogeneous Wireless Networks; Michael L. Honig, adviser.

Peng Chen, Civil and Environmental Engineering; McCormick. Hybrid Transit Systems: Optimal Routing and Strategic Design; Yu Nie, adviser.

Siqi Chen, Driskill Graduate Training Program in Life Sciences; Feinberg. MicroRNAs Are Involved in the Regulation of Immune System during Tumor and Autoinflammation Development; Bin Zhang, adviser.

Chuyang Cheng, Chemistry; Weinberg. Design and Construction of Artificial Molecular Pumps; J. Fraser Stoddart, adviser.

Andy Aekle Cook, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. Filaments in Hippocampal Synapses Control Storage, and Release of Synaptic Vesicles; Thomas S. Reese, adviser.

Edward Joseph Dale, Chemistry; Weinberg. Expanding the Role of Extended Cyclophanes in Supramolecular Chemistry; J. Fraser Stoddart, adviser.

Megan Connolly Davies, Clinical Psychology; Feinberg. Defining the Functional Connectivity of the Striatum and Its Association with Motivation in Depression; Jacqueline K. Kolassa, adviser.

Teresa Ann DeLuca, Chemical and Biological Engineering; McCormick. Towards Advancing Ex Vivo Platelet Production: Exploring the Role of Lysine Decacytelases in Megakaryopoiesis and Mechanisms of Megakaryocyte Terminal Differentiation; William M. Miller, adviser.

Jiadong Deng, Mechanical Engineering; McCormick. Topology Optimization of Emerging Composite Structures; Wei Chen, adviser.

Joseph Patrick Derousser, French and Italian; Weinberg. Imagining a New Britain: The Politics of Perlesvius; William Paden, adviser.

Stephanie Holmes Didwania, Managerial Economics and Strategy; Kellogg. Empirical Essays in Law and Economics; Benjamin F. Jones, adviser.

Tasha Latrice Drake, Chemistry; Weinberg. Investigation of Support Molybdenum Oxide Catalysts Synthesized by Vapor Deposition; Peter C. Stair, adviser.

Kathleen Theresa Dunckley, Communication Sciences and Disorders; Communication. Testing the Phase Prediction of a Nonlinear SPOAE Generation Model; Jonathan H. Siegel, adviser.

Elizabeth Brooks Dyer, Learning Sciences; Education and Social Policy. Learning through Teaching: An Exploration of Teachers’ Use of Everyday Classroom Experiences as Feedback to Develop Responsive Teaching in Mathematics; Miriam G. Sherin, adviser.

Andrew G. Eng, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. Group 1 Metabetropic Glutamate Receptor Signal Transmission Mediated by Beta-arrestin2 in Hippocampal Synaptic Plasticity; Geoffrey T. Swanson, adviser.

Carmen Ashley Finashina, Slavic Languages and Literatures; Weinberg. Thinking Like a Heroine: Investigating the Role of Genre in Identity and Perception; Susan M. Reynolds, adviser.

Marcel Eric Schechner Flores, Computer Science; McCormick. Improving Existing Protocols by Enabling Added Communication; Aleksandar Kuzmanovic, adviser.

Daniel John Flynn Jr., Political Science; Weinberg. Misinformation Effects in Public Opinion and Representation; James N. Druckman, adviser.

Miles Henry Fuller, Driskill Graduate Training Program in Life Sciences; Feinberg. The Short Chain Fatty Acid Receptor, Free Fatty Acid-2 Receptor (FFA2), Contributes to Gestational Glucose Homeostasis through a Novel Relationship between Pancreatic Beta Cells, Short Chain Fatty Acids, and the Gut Microbiota; Brian T. Layden, adviser.

Ruben Gaetani, Economics; Weinberg. Essays on the Economics of Innovation and Economic Growth; Matthias Doepke, adviser.

Monica Gamez-Tijokic, Psychology; Weinberg. A Lay Theories Approach to Mental Intuitions; Daniel C. Molden, adviser.

Michael Low Geier, Materials Science and Engineering; McCormick. Materials Integration and Doping of Carbon Nanotube-Based Logic Circuits; M. Hormis, adviser.

Vaneen Reddy Gondhi, Finance; Kellogg. Essays on Information Acquisition; Dimitris Papanikolau, adviser.

Andrew Christian Gordon, Biomedical Engineering; McCormick. Tuning Your RADIOMobilization: Imaging-Guidance of Yttrium-90 Radiomobilization; Andrew C. Larson, adviser.

Matthew Michael Graff, Mechanical Engineering; McCormick. Mechanisms of Whisker-Based Flow Sensing; Mitra J. Hartmann, adviser.

Peijun Guo, Materials Science and Engineering; McCormick. Indium Tin Oxide Nanorods for Active Plasmonics and Nanophotonics from the Infrared to the Visible; Robert Chang, adviser.

Kyle Christopher Hale, Computer Science; McCormick. Hybrid Runtime Systems; Peter A. Dinda, adviser.

Anna Johnson Harrison, Clinical Psychology; Feinberg. Patterns of Incarceration and Psychiatric Disorders in Young Adulthood: A Cluster Analysis of Delinquent Youth; Leah J. Welty, adviser.

Patrick Edward Hartnett, Chemistry; Weinberg. Charge Transfer Dynamics in Thin Films of Polyeneimido-Based Organic Semiconductors; Michael R. Wasielewski, adviser.

Tera Lee Hedrick, Art History; Weinberg. The Power of Objects: Ars Sacra and the Negotiation of the Sacred in Late Byzantium; Charles J. Rivero, adviser.

Anh Minh Hoang, Electrical and Computer Engineering; McCormick. Theoretical Design and Material Growth of Type-II Antimonide-Based Superlattices for Multispectral Detection and Imaging; Manijeh Razeghi, adviser.

Robin Emily Hoecker, Media, Technology, and Communication; Different Frames of Deviance: Crime Coverage in African American and Hispanic Newspapers; D. Charles Whitney, adviser.

David D. Hsu, Mechanical Engineering; McCormick. Multiscale Modeling at Nano-interfaces: Polymer Thin-Film Materials Discontinuous and Nanomechanically Consistent Coarse Graining; Sinan Keten, adviser.

Chen Jin, Industrial Engineering and Management Sciences; McCormick. Observational Learning and Its Impact in Service Operations: Theory and Experiment; Seyed M. R. Iravani, adviser.

David Benjamin Johnson, Philosophy; Weinberg. Color, Movement, Intensity: Aesthetics and Metaphysics in the Thought of Gilles Deleuze; Penelope Deutscher, adviser.

Paul Ryan Jones, Mechanical Engineering; McCormick. Sustaining Metastable Water within Nanostructured Surfaces; Neelesh A. Patankar, adviser.

Rebecca Joy Kamire, Chemistry; Weinberg. From Homogeneous to Heterogenized Solar Fuels Assemblies: Observation of Electron Transfer Events in Systems Containing Dye-Sensitized Semiconductors and Molecular Catalysts; Michael R. Wasielewski, adviser.

Armin Kappeler, Electrical Engineering; McCormick. Deep Neural Networks with Applications in Image and Video Classification and Recovery; Aggelos K. Katsaggelos, adviser.

Jennifer Elizabeth Kappes, Chemical and Biological Engineering; McCormick. Cell-Free Metabolic Engineering; Michael Jewett, adviser.

Jung Kyun Kim, Marketing; Kellogg. Consumption; The Boundedness of Meter and the Subjective Experience of Time in Music of the Mid-20th Century; Mark J. Butler, adviser.

Wenjun Kou, Theoretical and Applied Mechanics; McCormick. Studies of Esophageal Transport and Emptying Based on Fully Resolved Computational Models; Neelash A. Patankar, adviser.

Abijith Sudarsan Kowligy, Electrical Engineering; McCormick. Nonlinear Quantum Optics in Engineered Photonic Microstructures; Prem Kumar, adviser.

Christina Rae Krist, Learning Sciences; Educa. From Rats to Robots and Back: Different Frames of Mind; Christina Rae Krist, adviser.

Jordan D. Kristina Leigh Knowles, Music; Bienen. The Premodern as a Pedagogical Construct in the 21st Century; Mark K. Kiesling, adviser.

Zahra Kaviani, Neurobiology; McCormick. Interaction and Regulation of the Hippocampus and Frontal Cortex: Understanding the Transitions from Relaxed to Active States; Andrew E. Givein, adviser.

Rachel L. Kavanagh, Communication; McCormick. The Rational Design of Active Sites in Heterogeneous Catalysis through Single-Site Surface Organometallic Complexes; Tobin J. Marks, adviser.

Gregory Owen Leh, Earth and Planetary Sciences; Weinberg. Advances in Calcium Isotope Geochemistry: Method Development and Application in a Multiproxy Investigation of Alaskan Arctic Watersheds; Andrew J. Ulfendahl, adviser.

Jason Lusthaus, English; Weinberg. Victorian Reincarnations: Jesus, Religion, and Doubt in 19th-Century Literature; Christopher Lane, adviser.

Daniel Jacob Margul, Biomedical Engineering; McCormick. Lentiviral Gene Therapy from Multiple Channel Brain Spinal Cord Regeneration; Guillerмо A. Amet, adviser.

Eric Alexander Margulies, Chemistry; Weinberg. The Importance of Energetics and Intermediates States in the Mechanism of Singlet Fission: A Study of Rylene and Tetracene Derivatives; Michael R. Wasielewski, adviser.

Ryan Adam McClure, Chemistry; Weinberg. Exploring Microrheological Metamorphism through Omics Technologies and Chemical Synthesis; Neil L. Kelleher, adviser.

Kevin Sullivan McReynolds, Materials Science and Engineering; McCormick. Mechanisms in Grain Growth Studied with the Phase Field Model; Peter W. Voorhees, adviser.

Rahul Shah Mediratta, Political Science; Weinberg. Globalization in the Shadows: Smuggling and the Foreign Policy Calculus of Enduring Interstate Rivalry; James L. Mahoney, adviser.

Audrey Ann Mercer, Interdepartmental Neuroscience; Communication, Feinberg. Learning and Its Impact in Service Operations: How Classroom Communities Develop Authentic Epistemologies for Science; Brian Reiser, adviser.

Sarah Michelle Miller, Materials Science and Engineering; McCormick. Directional Freezing of Porous Ceramics: Effects of Processing Parameters on Por Network Characteristics; Katherine T. Faber, adviser.

Richard Allan Moat, Chemistry; Weinberg. The Rational Design of Active Sites in Heterogeneous Catalysis through Single-Site Surface Organometallic Complexes; Tobin J. Marks, adviser.

Michael R. Wasielewski, adviser.
Also Juris Doctor degree

Suguna Pratipadi Narayan, Biomedical Engineering; McCormick. The Sequence-Specific Interactions of Spherical Nucleic Acids with Biological Systems; Chad A. Mirkin, adviser.

Hung Trung Nguyen, Philosophy; Weinberg. Birth in Beauty, Goodness, and Happiness in the Platonic Dialogues; Richard H. Kraut, adviser.
