City of Evanston Public Works Department

City of Evanston 2015 MFT Street Resurfacing Program

May 1, 2015

Project Description

Over the next eight weeks, the City of Evanston will be contracting road resurfacing work on six street segments throughout the City. This project involves curb replacement as needed, roadway base repair, replacement of asphalt surface from curb to curb along with selected sidewalk replacement and driveway aprons. ADA Accessible ramps are also constructed at the intersections. The funding for the project will be from the City's Motor Fuel Tax (MFT) funds and there will be no direct charge for the property owners on these streets. The map on the back of this Newsletter illustrates the specific locations which have been included as a part of this contract and **in the following sequence of construction:**

- Ridge Avenue (Garnett Place to Noyes Street)
- Ridge Avenue (Central Street to Isabella Street)
- Hartrey Avenue (Cleveland Street to Washington Street)
- Elmwood Avenue (Crain Street to Dempster Street)
- Davis Street (Fowler Avenue to Pitner Avenue)
- Otto Lane (Cul-de-Sac to Highland Avenue)

Construction will begin **the week of May 11** on Ridge Avenue with the entire project expected to be fully completed by the **end of June**. The actual date when construction is planned for your street will be noted on the temporary **NO PARKING** signs posted 48 hours prior to the start of work. The construction activities will create some inconvenience for abutting residents, but we will attempt to minimize these inconveniences. Construction zone daytime **NO PARKING** restrictions will be intermittent throughout the duration of the project; evening and nighttime parking (5:00pm to 7:00am) may be available unless otherwise posted. Street sweeping and/or neighborhood parking restrictions will be waived for a one block radius around the construction zone when temporary daytime **NO PARKING** is in effect. Lawn sprinkler systems should be identified and marked with a flag by the property owner prior to the start of construction to prevent damage to the system.

Contractor

The contractor for this street improvement project is A Lamp Concrete Contractors, Inc. 1900 Wright Blvd Schaumburg, IL 60193. The contractor is contractually responsible for the means and methods of the work.

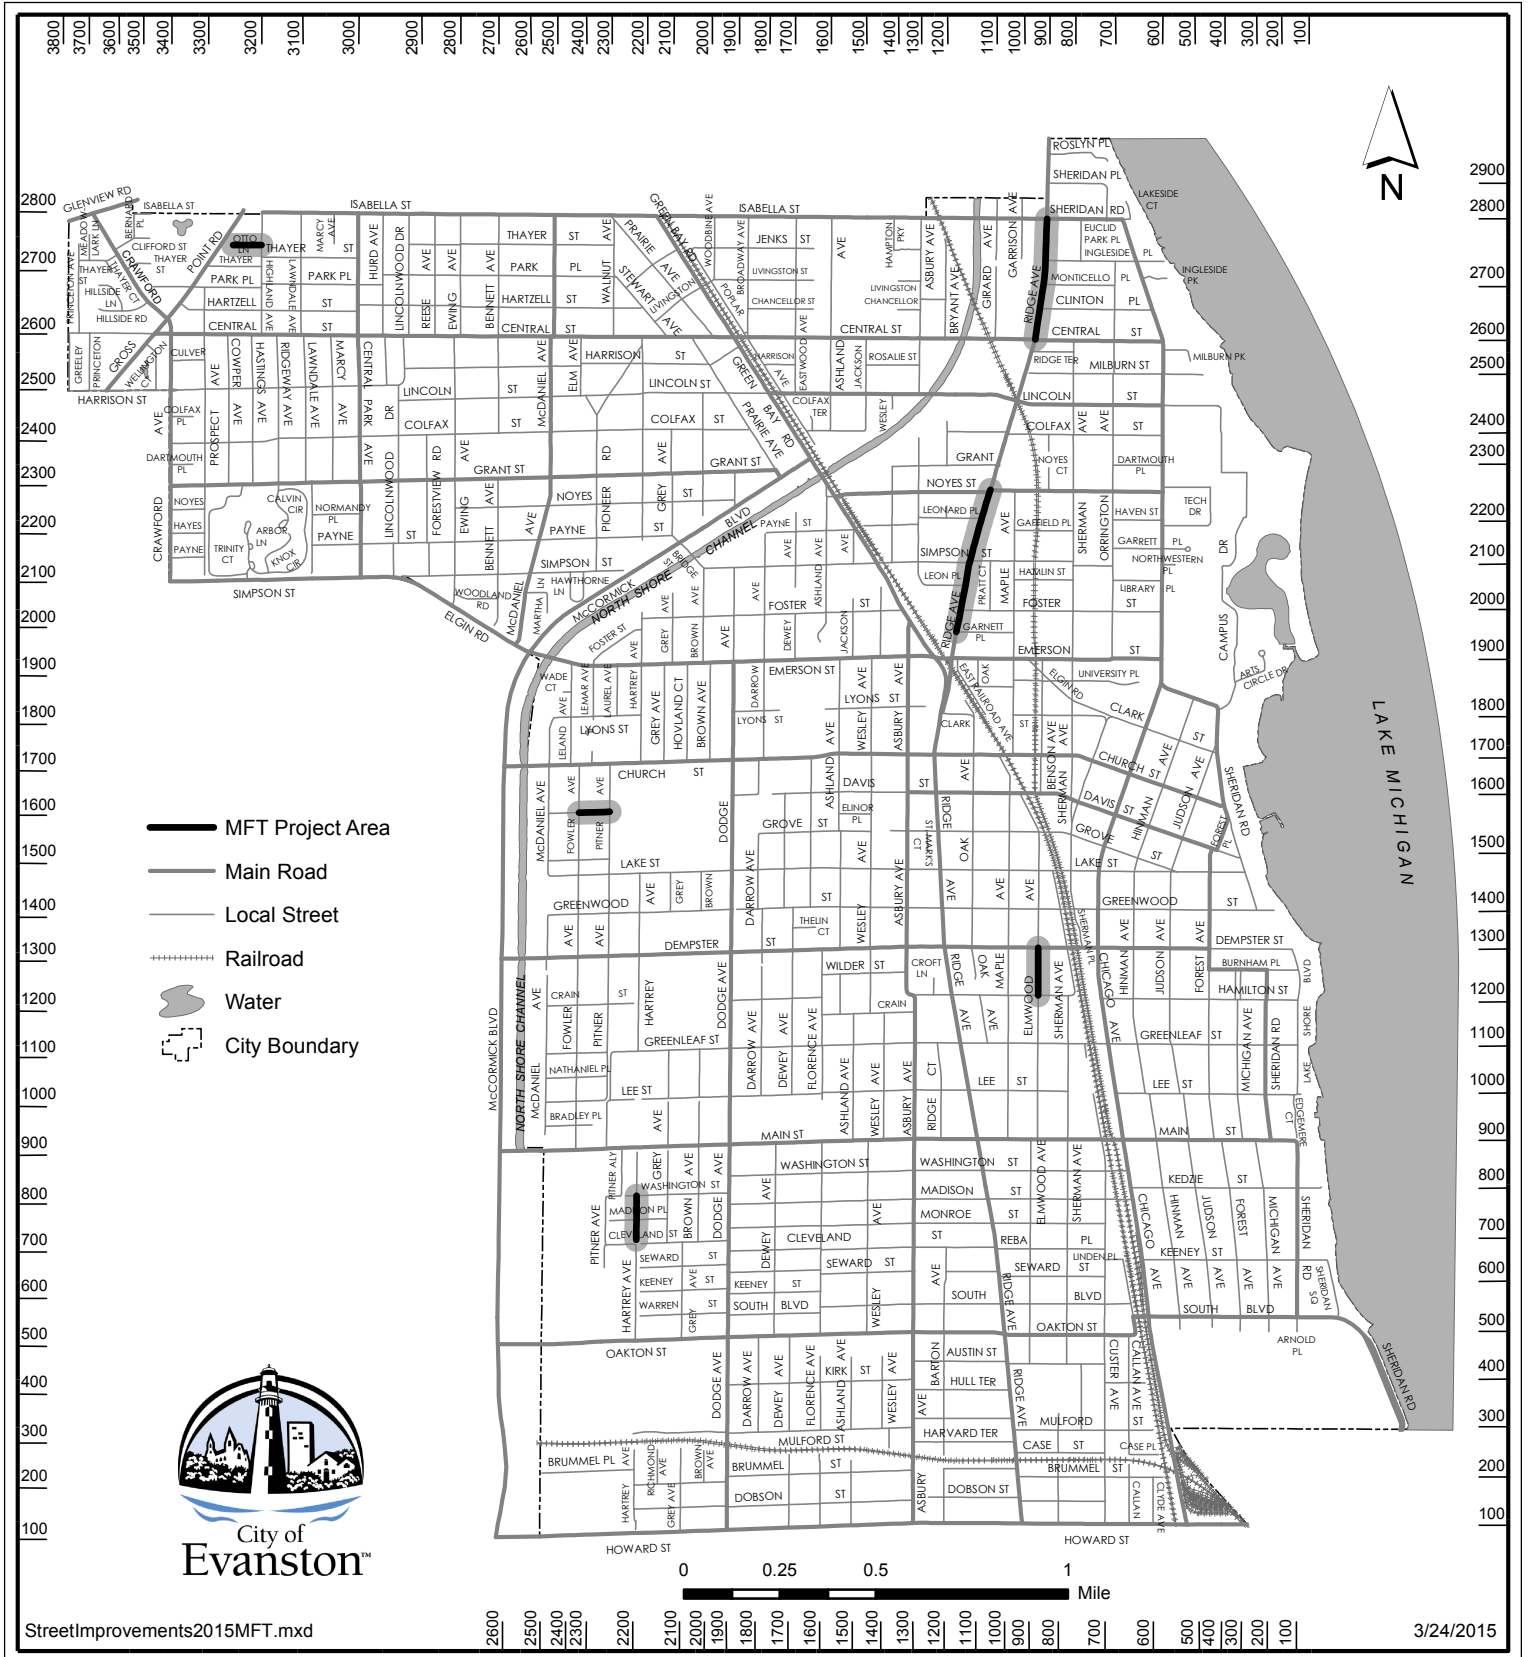

City Supervision

The project is under the supervision of the City's **Engineering & Infrastructure Division**. If you have any questions or concerns, please contact the Resident Engineer **Christopher Welch** at **(224) 723-9971**. Questions about street resurfacing projects in general should be directed to Dan Manis, P.E., Senior Project Manager at **3-1-1 or (847) 448-4311**.
