## Market Allocation Overview

The Market Allocation capability is *only* available for staff, if eligible. Before possible Market Allocations can be given, merit increases must be entered for all staff within an SAU. See the rules below for Market Allocation eligibility.

Market Allocations will be entered by using one of the following panels:

- Merit by SAU – Staff
- Merit by Employee – Staff

### Market Allocation Eligibility Rules:

After **all** merit increase decisions have been entered for an SAU, users may enter a Market Allocation for eligible employees if the following conditions are met:

1. The SAU's Total Merit Increase Compratio field is under 1.00 (after entry of merit increases).
2. The employee's Merit Increase Comp Ratio must be under 1.00 (after entry of merit increase).

**Then the employee is eligible for a Market Allocation.**

### Verify SAU Eligibility

Enter all merit increases for that SAU

Look at the **Total Merit Increase Compratio** field (found in the header of the Merit by SAU – Staff panel)

Under 1.0 – SAU is eligible  
1.0 or over – SAU is not eligible
