Roundtable Guidelines for Learning, Teaching, and Assessment Forum
November 16, 2016

A 50-minute roundtable discussion topic related to questions and issues in the assessment of student learning. These provide an opportunity for various kinds of interactions in a smaller group setting (10-15 people), such as discussion of a concept, approach, program, issue, case study, or reading. This format is ideal for connecting with others who may be experiencing similar challenges or issues and would like to share practices and ideas.
