

With the cost of gas, car maintenance, and parking, consider public transportation as a cost-effective, environmentally friendly commuting alternative to driving alone to work. The Chicagoland area boasts one of the largest and most accessible public transportation systems in the United States. Have you ever calculated the true cost of your commute?

COMPARE YOUR ANNUAL COMMUTING COSTS:

	DRIVING ALONE	PUBLIC TRANSIT
1. FUEL	\$ <input type="text"/>	\$ <input type="text"/>
<p>Determine your fuel costs through the following calculations:</p> <p>One-way distance (miles) to work or transit stop x 470 = _____ Annual miles Multiplying by 470 is based on 47 weeks x 10 one-way trips per week, assuming three weeks for vacation and two weeks for holidays and sick days.</p> <p>Annual miles ÷ Fuel economy = _____ Annual fuel consumption Fuel economy refers to the miles per gallon of your vehicle. If you don't know it, visit www.fueleconomy.gov to find your vehicle's fuel economy.</p> <p>Annual fuel consumption x Price per gallon of gas = \$ _____ Annual fuel cost Write this annual fuel cost number for each scenario in the boxes to the upper right.</p>		
2. PARKING	\$ <input type="text"/>	\$ <input type="text"/>
<p>Add the annual cost of your parking permit.</p>		
3. TOLLS	\$ <input type="text"/>	\$ <input type="text"/>
<p>Add any annual toll costs.</p>		
4. TICKETS/PASSES		\$ <input type="text"/>
<p>Add annual ticket/pass (bus, train, van pool, etc.) costs. If you participate in NU's pretax transit program, your ticket cost would decrease by the taxes you will save. If you don't know your tax rate, assume a 25% tax rate and multiply your ticket cost by 0.75.</p>		
4. INSURANCE	\$ <input type="text"/>	\$ <input type="text"/>
<p>Annual Insurance Premium Difference There may be a difference in your present insurance cost for driving to work vs. driving to a closer public transportation facility and/or driving fewer miles each year. Contact your insurance agent for the quote.</p>		
5. MAINTENANCE	\$ <input type="text"/>	\$ <input type="text"/>
<p>Annual miles x \$.045 = \$ _____ Annual maintenance cost Recent statistics from AAA show that the average cost of maintenance and tires is \$.045 per mile. Multiply .045 by Annual miles (from the fuel worksheet above). When comparing to public transit, be sure to subtract the annual miles driven when using public transit.</p>		
6. DEPRECIATION	\$ <input type="text"/>	\$ <input type="text"/>
<p>Add depreciation from your annual commuting miles. This factor is the difference in resale value based on mileage. Visit www.nadaguides.com to find the value of your vehicle. Determine the value by entering the mileage of your car if you drive to work daily. Then add what the mileage of your vehicle would be if you didn't drive or drove less every day. Enter the difference.</p>		
TOTAL	\$ <input type="text"/>	\$ <input type="text"/>

Discover Northwestern:
Chicago Campus

Your guide to
Alternative Transportation

**NORTHWESTERN
UNIVERSITY**

University Services
 Northwestern University
 710 N. Lake Shore Drive
 Chicago, IL 60611
 tel: 312.503.8129
 fax: 312.503.9243
shuttle@northwestern.edu

Printed on
recycled paper

If you decide to drive, limited parking is available on the Chicago campus. University Services issues permits for qualifying staff, faculty and students. Contact University Services at 312.503.8129 or visit www.northwestern.edu/uservices/transportation/parking.

Printed 12/2012

The Northwestern University Chicago campus is located in the heart of downtown Chicago. There are many transportation alternatives instead of driving your car. Take advantage of the CTA, Metra, car sharing programs, biking, and walking around the Chicago area. You will not only save money and reduce stress, but also contribute to a more environmentally sustainable community.

CTA

Ride the bus or El with the Chicago Transit Authority. With single-ride tickets and monthly passes, the CTA is an affordable and effective transportation option. Check out the trip planner, maps, and bus tracker at www.transitchicago.com.

Metra

For convenient commuting, ride the Metra. Metra serves Cook, DuPage, Lake, Will, McHenry, and Kane counties and monthly, 10-ride and weekend passes are affordable alternatives. Check out www.metrarail.com for more information.

DID YOU KNOW...

You can receive pre-tax benefits for commuting with public transportation! Contact your Human Resources representative for more information on how to claim your pre-tax benefit or visit www.northwestern.edu/userservices/transportation/commuter/benefit/index.html.

NU Shuttle Buses

Northwestern University operates several shuttles for students, faculty and staff. A valid WildCARD is required to ride the shuttles. All shuttle buses are equipped with bike racks. Chicago campus routes include:

- Intercampus shuttle: Free with a valid WildCARD; provides service between the Evanston and Chicago campus
- SafeRide Shuttle: Late night service to area train stations
- Train Station Shuttle: Operates between the Chicago campus and Ogilvie, Union, Randolph and LaSalle Street train stations

For a complete list of University shuttles and additional information, visit www.shuttle.northwestern.edu.

Walking in Chicago

Northwestern's Chicago campus is located in the heart of the Water Tower District and Streeterville neighborhood. Take advantage of Chicago and visit some of the nearby attractions:

- Museum of Contemporary Art
- Water Tower Place
- Lake Shore Park
- The Magnificent Mile
- Navy Pier
- Buckingham Fountain

And much, much more!

Bicycling

Explore Chicago by bike! Northwestern has its own bike room where you can safely store your bike for \$25 a year. www.northwestern.edu/userservices/transportation/parking/bicycle.html

Carpooling with Pace Rideshare

Interested in carpooling to work? Northwestern offers incentives such as the Emergency Ride Home program to faculty and staff members participating in the NU/Pace Rideshare program. Check out www.northwestern.edu/userservices/transportation/commuter/rideshare.html for more details.

Car Sharing Options

I-GO: www.igocars.org
Use I-GO and only pay to use the car. Gas, insurance, repairs, and parking will no longer be an issue! I-GO cars are located in several garages around campus.

Zipcar: www.zipcar.com
Zipcar allows you to pick a plan based on how often you drive and which car you drive. Register online and then pick up a Zipcar at several locations around campus.

For a complete list of I-GO and Zipcar locations, visit www.northwestern.edu/userservices/transportation/commuter/carsharing.html
