

# Free Flow Electrophoresis System Seminar

Join BD and VWR International for an educational seminar on the BD Free Flow Electrophoresis (FFE) system. Speaker Jay Lorch, Field Applications Specialist, Proteomics BD Preanalytical Systems, will discuss how the FFE system helps proteomics researchers reduce the complexity of samples and enrich low abundant proteins with very high reproducibility.

Tuesday, December 2nd  
11:30 am - 12:30 pm  
Wieboldt Hall, Rm 506

Refreshments will be served!

*Contact Amy Van Arsdale or Elizabeth Nachtwey at 3-0263, or Ellen Barnes at 1-3274 with any questions about the seminar.*
