Northwestern University

One Hundred and Sixty-Second Annual Commencement

11 A.M. CDT, FRIDAY, JUNE 19, 2020
Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words Northwestern University, Evanston, Illinois.

Thirty years later Daniel Bonbright, professor of Latin and a member of Northwestern’s original faculty, redesigned the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of John, chapter 1, verse 14, translating to The Word . . . full of grace and truth. Circling the book are the first three words, in Latin, of the University motto: Quaecumque sunt vera (Whatsoever things are true). The outer border of the seal carries the name of the University and the date of its founding. This seal, which remains Northwestern’s official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Paul the Apostle to the Philippians, chapter 4, verse 8 (King James Version).

Northwestern University

Whatsoever things are true,
whatsoever things are honest,
whatsoever things are just,
whatsoever things are pure,
whatsoever things are lovely,
whatsoever things are of good report;
if there be any virtue,
and if there be any praise,
think on these things.

TO OUR GUESTS

Commencement is the highlight of the academic year. It is that significant occasion, both solemn and joyful, when we honor those students who have completed their courses of study. Commencement is important to all of you, the University, and its faculty, staff, and students. While the University respects the rights of all to express their views, we respectfully expect and require that any such expressions during these Commencement proceedings not disrupt the virtual ceremony nor prevent others from enjoying it.

Once the virtual Commencement ceremony has concluded, a link to the recording will be available on Northwestern's Commencement website.

MORTON SCHAPIRO
President

Morton Schapiro began his term as the 16th president of Northwestern University on September 1, 2009. He is a professor of economics in Northwestern's Judd A. and Marjorie Weinberg College of Arts and Sciences and also holds appointments in the J. L. Kellogg School of Management and the School of Education and Social Policy.

President Schapiro is among the nation's leading authorities on the economics of higher education, with particular expertise in the area of college financing and affordability and on trends in educational costs and student aid. He has been a regular commentator in the national media on those and other issues.

Previously President Schapiro was president of Williams College from 2000 to 2009. Earlier he had served as a member of the Williams College faculty from 1980 to 1991 as professor of economics and assistant provost. In 1991 he went to the University of Southern California, where he served as chair of the economics department until 1994 and then as dean of the College of Letters, Arts and Sciences until 2000. During his last two years as dean, he also served as the university's vice president for planning.

President Schapiro has written or edited nine books and more than 100 articles. He has received research grants and contracts from the National Science Foundation, the US Department of Education, the World Bank, the Andrew W. Mellon Foundation, the Spencer Foundation, the College Board, the Organization for Economic Cooperation and Development, and other groups to study the economics of higher education and related topics. In 2010 he was elected a fellow of the American Academy of Arts and Sciences, and in 2017 he was elected to the National Academy of Education.

He received his bachelor's degree in economics from Hofstra University and his doctorate from the University of Pennsylvania.

J. LANDIS MARTIN
Chair, Board of Trustees

J. Landis Martin is the chairman and managing director of Platte River Equity, a Denver-based private equity firm focused on lower-middle-market companies. He retired as chairman and CEO of Denver-based Titanium Metals Corporation, one of the world's largest producers of titanium metal, in 2005. Mr. Martin is also the chairman of the board of Houston-based Crown Castle International Corporation, a communications infrastructure provider. Until 1987 he was also a partner at the Kirkland & Ellis law firm.

Mr. Martin is chairman of the Denver Art Museum and its foundation and of the Clyfford Still Museum Foundation. Chairman emeritus of Central City Opera House Association, he is also past chairman and president of the Houston Grand Opera.

In addition to chairing Northwestern University's Board of Trustees, Mr. Martin is a member of the Northwestern Pritzker School of Law Board. He received a bachelor of science degree in business administration from Northwestern and a juris doctor degree from Northwestern Law.

The founding of Northwestern University by nine devout Methodists embodied a mixture of religious conviction and secular optimism that is uniquely American. Meeting above a hardware store in the burgeoning frontier town of Chicago, these nine men resolved on May 31, 1850, to establish an institution of “the highest order of excellence” to serve the people of the original Northwest Territory as established by the Northwest Ordinance of 1787 (Ohio, Indiana, Illinois, Michigan, Wisconsin, and part of Minnesota). The 1851 Act of Incorporation creating Northwestern University contained a provision reflecting the strong religious beliefs of its founders but requiring no particular religious faith of students or members of the faculty.

The Northwestern campus sits on the traditional homelands of the people of the Council of Three Fires—the Ojibwe, Potawatomi, and Odawa as well as the Menominee, Ho-Chunk, and Miami tribes. It was also a site of trade, travel, gathering, and healing for more than a dozen other Native tribes, and the state of Illinois is still home to over 100,000 tribal members.

In 1853 the University bought and began to develop 379 acres of lakeshore farmland. The town that grew up around Northwestern was named for John Evans, one of the University’s founders. By 1855 Northwestern had completed its first building and opened a College of Liberal Arts. By 1900 the University encompassed six additional schools, including the medical and law schools in Chicago. Since the establishment of the Graduate School in 1910, Northwestern has provided graduate as well as undergraduate instruction, emphasizing research along with teaching.

The University’s development since then has paralleled the growth of metropolitan Chicago. Today Northwestern is a private research university of distinction, with 11 academic divisions located on two lakefront campuses in Evanston and Chicago as well as Northwestern University in Qatar, which opened in Doha in 2008. Northwestern’s vision of excellence—although faithful to its founding—involves a territory far beyond the old Northwest Territory through the accomplishments of its alumni and by virtue of a distinguished faculty and high-achieving student body drawn from across the nation and around the world.
The Judd A. and Marjorie Weinberg College of Arts and Sciences, established in 1851 as the College of Liberal Arts, offers the degree of bachelor of arts. Through the School of Professional Studies, Weinberg College also offers the degrees of bachelor of philosophy and bachelor of science in general studies.

The School of Communication, established in 1878 as the School of Oratory and later renamed the School of Speech, offers the degrees of bachelor of arts, bachelor of science, doctor of audiology, doctor of speech-language pathology, master of arts, and master of science. Through the School of Professional Studies, the School of Communication also offers the degree of bachelor of philosophy in communication.

The School of Education and Social Policy, established in 1926 as the School of Education, offers the degrees of bachelor of science and master of science.

The Robert R. McCormick School of Engineering and Applied Science, established in 1909 as the College of Engineering, offers the degrees of bachelor of science, master of engineering management, and master of science.

The Graduate School, established in 1910, administers programs leading to the degrees of doctor of philosophy, master of arts, master of fine arts, master of public health, and master of science.

The Medill School of Journalism, Media, Integrated Marketing Communications, established in 1921 as the Medill School of Journalism, offers the degrees of bachelor of science and master of science.

The Pritzker School of Law, established in 1859 as the School of Law, offers the degrees of juris doctor, master of laws, master of science in law, master of studies in law, and doctor of juridical science. The school also offers the Master of Laws International Executive Master’s Program in Israel, South Korea, and Spain.

The J. L. Kellogg School of Management, established in 1908 as the School of Commerce, offers the degrees of master of business administration and master of science in management studies. In addition to the full-time MBA program, Kellogg offers the evening Part-Time MBA Program on the Chicago campus, the weekend Executive Master’s Program on the Evanston campus, and the International Executive Master's Program in Canada, China (Beijing and Hong Kong), Germany, and Israel.

The Feinberg School of Medicine, established in 1859 as the Medical School, offers the degrees of bachelor of science in medicine, master of medical science, master of prosthetics and orthotics, doctor of medicine, and doctor of physical therapy.

The Henry and Leigh Bienen School of Music, established in 1895 as the School of Music, offers the degrees of bachelor of music, bachelor of arts, and bachelor of science. In its graduate division, the school offers the degrees of doctor of musical arts and master of music.

The School of Professional Studies, established in 1933 as University College and later renamed the School of Continuing Studies, offers the degrees of master of arts, master of fine arts, and master of science. The school also offers courses leading to the degrees of bachelor of philosophy and bachelor of science in general studies, conferred by the Weinberg College of Arts and Sciences, and the degree of bachelor of philosophy in communication, conferred by the School of Communication.

Northwestern University in Qatar, established in 2008 as part of Education City in the Qatari capital of Doha, offers the degree of bachelor of science in communication through the School of Communication and the degree of bachelor of science in journalism through the Medill School of Journalism, Media, Integrated Marketing Communications.
ACADEMIC DRESS

Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide warmth in poorly heated buildings and to differentiate scholars from fellow citizens. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States most academic dress follows the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the gowns’ trim and sleeve design indicates the level of the degree. The bachelor’s gown has pointed sleeves and is worn closed; the master’s gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor’s gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves. This velvet trim may be black or the prescribed color of the academic area. Though the recommended color for gowns is black, Northwestern University (like many institutions) has adopted a colored gown to reflect the school’s color. All participating candidates wear a custom purple gown featuring the University crest.

The style of hood identifies the level of the degree, the school that granted it, and the academic area. Hood length and border width show the level of the degree. The bachelor’s hood, which is optional and not worn at Northwestern University, is three feet in length; the master’s, three and one-half feet; the doctor’s, four feet. The velvet border of the hood is two, three, and five inches wide for the bachelor’s, master’s, and doctor’s degrees, respectively. The hood is lined with silk in the official color of the school. At Northwestern the hood is lined in purple (the school’s color) and gold. The color of the hood’s border—and at Northwestern the color of the cap’s tassel as well—indicates the academic area. Tassels feature the Northwestern seal signet and are worn on the left side at all times. At Northwestern the colors for the Graduate School constitute an exception; tassels are black, but the border color of the hood indicates the specific degree awarded. Bachelor’s degree regalia include a souvenir stole.

The square black mortarboard is the recommended cap, although some schools have adopted other styles. Caps are worn throughout the Commencement ceremony, except that men remove them for the national anthem, invocation, and benediction.

At Northwestern University members of honor societies may be recognized by the honor cords, medallions, and stoles worn.

The tassels and borders of the hoods are the following colors:

HONORARY DEGREES

NORMAN LEAR
Doctor of Humane Letters

Norman Lear attended Emerson College before flying 52 combat missions over Europe during World War II. He then began a successful career writing and producing for television, eventually captivating 120 million viewers per week with his iconic 1970s and '80s series—All in the Family, Maude, Good Times, The Jeffersons, Sanford and Son, and Mary Hartman, Mary Hartman. Lear also produced films for Rob Reiner, including the classics Stand by Me and The Princess Bride. In 1980 he founded People for the American Way, which continues to defend freedom of expression, religious liberty, equal justice under law, and the right to democratic participation. Lear served as executive producer for the critically acclaimed reimaging of One Day at a Time, recently revived by PopTV and CBS after a three-season run on Netflix, and Live in Front of a Studio Audience with Jimmy Kimmel, which won an Emmy for outstanding variety special and a Critics' Choice Award for best comedy special. Winner of five Emmys and a Golden Globe, Lear is a Kennedy Center honoree, an inaugural Television Academy Hall of Fame inductee, and a recipient of the National Medal of Arts and the Peabody Lifetime Achievement Award.

Presented by Thomas Bradshaw, professor of radio/television/film, School of Communication

Your dynamic Hollywood career as a writer and producer has extended from television's golden age to the streaming era. Your trailblazing programs expanded the medium's artistry range to address previously taboo societal issues. As a social and political activist, you have long been a forceful advocate for progressive values. We are proud to honor your remarkable achievements—and heartened to know that, at age 97, you have no plans to retire.

LORI E. LIGHTFOOT
Doctor of Laws

As mayor of Chicago since 2019, Lori Lightfoot has undertaken an ambitious agenda of expanding opportunity and inclusive economic growth across Chicago's neighborhoods and communities. Early accomplishments include historic ethics and good-governance reforms, worker protection legislation, and key investments in education, public safety, and financial stability. The mayor has won particular admiration for her leadership in response to the COVID-19 pandemic. Prior to her election, Lightfoot had served as a senior equity partner in the litigation and conflict resolution group at Mayer Brown, president of the Chicago Police Board, chair of the Police Accountability Task Force, chief of staff and general counsel of the Chicago Office of Emergency Management and Communications, interim first deputy of the Chicago Department of Procurement Services, chief administrator of the Office of Professional Standards, and assistant US attorney. She holds a BA in political science from the University of Michigan and a JD from the University of Chicago.

Presented by Teri W. Odom, Charles E. and Emma H. Morrison Professor of Chemistry, Judd A. and Marjorie Weinberg College of Arts and Sciences

Your groundbreaking work compellingly demonstrates the power of chemical investigations to solve complex problems in biology. As a mentor for numerous students and postdoctoral fellows, notably those underrepresented in the sciences, you have made research education a key part of your enduring legacy. We are proud to add to your many honors as we salute your remarkable accomplishments.

JOANNE STUBBE
Doctor of Science

JoAnne Stubbe is professor emerita of biology and chemistry at the Massachusetts Institute of Technology, where she was the first woman to receive tenure in chemistry. Previously she served on the faculty at Williams College, Yale Medical School, and the University of Wisconsin. Her research has helped explain some of nature's most complicated and significant enzyme mechanisms. Stubbe has developed new techniques for unravelling the chemical complexity of enzymatic systems, particularly how nature harnesses the reactivity of free radicals. Her work has had an impact across diverse areas, from cancer therapy to the synthesis of biodegradable plastics. Stubbe's numerous honors include the National Medal of Science, the Welch Award in Chemistry, the Pearl Meister Greengard International Award, and the American Chemical Society's Priestley Medal, Nakanishi Prize, and Alfred Bader Award in Bioorganic and Inorganic Chemistry as well as selection as a Clarivate Citation Laureate and election to the National Academy of Sciences and the American Philosophical Society. She holds a BA in chemistry from the University of Pennsylvania and a PhD in organic chemistry from the University of California, Berkeley.

Presented by Amy C. Rosenzweig, Weinberg Family Distinguished Professor of Life Sciences and professor of molecular biosciences and chemistry, Judd A. and Marjorie Weinberg College of Arts and Sciences

Your illustrious career.

GEORGE M. WHITESIDES
Doctor of Science

George M. Whitesides is the Woodford L. and Ann A. Flowers University Professor at Harvard University. Previously he taught at the Massachusetts Institute of Technology. Trained in chemistry, Whitesides has made seminal contributions in such additional areas as materials science, mechanical engineering, drug discovery, and medical diagnostic systems for underdeveloped regions. His work has led to the development of materials for robotic systems, surface chemistries for drug-discovery assays, and methods for microfabrication. Among his numerous awards are the National Medal of Science, the Materials Research Society's Von Hippel Award, the Kyoto Prize for Advanced Technology, the Swiss Chemical Society's Paracelsus Prize, the American Chemical Society's Priestley Medal, the Welch Award in Chemistry, and the European Materials Research Society's Jan Czochralski Award. In addition, he has been elected to the American Academy of Arts and Sciences, the National Academy of Sciences, the National Academy of Engineering, and the American Philosophical Society. Whitesides earned an AB in chemistry at Harvard and a PhD in chemistry at the California Institute of Technology.

Presented by Amy C. Rosenzweig, Weinberg Family Distinguished Professor of Chemistry, Judd A. and Marjorie Weinberg College of Arts and Sciences

Without your pioneering efforts, today the worlds of science and engineering and the life sciences technology industry would be vastly different. Your prolific and wide-ranging work has opened whole new fields of inquiry and innovation. As a mentor, teacher, and collaborator, you have significantly advanced scholarship in your fields. We are honored to celebrate your illustrious career.
Joseph Brysiewicz has taught at Highland Park High School in Highland Park, Illinois, since 1999. In addition to teaching Advanced Placement European History, Advanced Placement Economics, and World History, he is interim chair of the social studies department and sponsor of the school’s award-winning Model United Nations team. Previously he taught for six years at Grayslake Central and North High Schools in Grayslake, Illinois, where he founded the literary magazine and international club, led students on travels to Europe, and chaired the history department for three years. Since 2009 he has been a faculty associate with Bard College’s Institute for Writing and Thinking, where he has led summer workshops for high school students since 2005. A member of Phi Beta Kappa, Brysiewicz was a national Golden Apple Award finalist and has served as an alumni representative on Lake Forest College’s education advisory committee. His published work includes the book *Lake Villa Township* in Arcadia Publishing’s Images of America series and a monograph on the history of Lindenhurst, Illinois. “He inspires an absolute love of a subject in every single student,” says student nominator Jack Benjamin of the School of Education and Social Policy. Brysiewicz earned BA degrees in history and secondary education magna cum laude at Lake Forest College, an MA in educational leadership at Concordia University, and an MLA at the University of Chicago.

John DeRose has taught history since 1999 at Whitefish Bay High School in Whitefish Bay, Wisconsin. Since 2008 he has also served as the Whitefish Bay School District’s facilitator of professional development. In addition, DeRose trains future teachers as an ad hoc professor at the University of Wisconsin–Milwaukee and Concordia University. He has served as a curriculum consultant for Milwaukee Public Television (2005–12) and Milwaukee PBS (since 2017). Before joining the Whitefish Bay faculty, he taught at St. Catherine’s High School in Racine, Wisconsin. A two-time recipient of the Milwaukee County Historical Society’s Merit Award and a member of the Phi Beta Kappa, Alpha Sigma Nu, and Phi Alpha Theta honor societies, DeRose was awarded Wisconsin’s Herb Kohl Teacher Fellowship and was named Wisconsin’s History Teacher of the Year by the Gilder Lehrman Institute of American History. He has given conference and convention presentations, written articles published in educational and history journals, and served on the editorial board of the Organization of American Historians *Magazine of History*. Student nominator Carter Rothman of the Weinberg College of Arts and Sciences says that DeRose "prepared me for academics at the university level better than any other teacher in high school.” A summa cum laude graduate in history at Marquette University, DeRose earned teacher certification at Carthage College as well as an MS in curriculum and instruction and a PhD in urban education at the University of Wisconsin–Milwaukee.

Maria Hiaasen has taught since 2006 at Dulaney High School in Timonium, Maryland, where she taught journalism from 2009 to 2017 before launching the school’s Advanced Placement Capstone program. She led the school’s student newspaper to five consecutive gold medals from the Columbia Student Press Association. For Baltimore County Public Schools, she has served as a curriculum writer and workshop presenter. In addition to previous Maryland teaching positions at Notre Dame Prep in Towson and Cockeysville Middle School in Cockeysville, she was a reporter for the *Baltimore Sun* and *West Palm Beach Post* and a news anchor for radio stations in Richmond, Atlanta, and Raleigh. As a member of the Coalition to Stop Gun Violence, she has spoken at conferences and other events and has advocated for laws establishing extreme risk protection orders; last year she served as vice chair of Anne Arundel County’s Gun Violence Prevention Task Force. In 2017 she received the University of Maryland Phillip J. Merrill School of Journalism Presidential Scholar Outstanding Mentor Award. Student nominator Sumin Wu of the Medill School of Journalism, Media, Integrated Marketing Communications says that Hiaasen “cultivated my love of the English language, as both an art and a medium to share news, and inspired me to go on the path I’m headed on today.” Hiaasen received a BA in journalism from the University of North Carolina at Chapel Hill and an MA in teaching from Goucher College.

Kristen Kirschner has taught English literature and writing since 2008 at Louisiana’s college-preparatory Episcopal School of Baton Rouge, where she founded and coaches the speech and debate team, which has already produced one state champion. Kirschner also advises candidates in the honors thesis program and sponsors the Gavel Club, the Ukulele Club, and the Dungeons and Dragons Club. Her other activities at the school have included hosting poetry slams, sponsoring improv comedy shows, and organizing lunchtime ukulele concerts. Elsewhere in Baton Rouge, she has served as a writing tutor at Cox Academic Tutoring Center for Athletes and as an instructor at FIT Technical Institute and Louisiana State University. A contributor to *Country Roads* magazine, Kirschner has been active as an author and journalist, singer and musician, and improv and sketch comedy performer. Student nominator Gabrielle Bienasz of the Medill School of Journalism, Media, Integrated Marketing Communications says that it was Kirschner who “taught me how to write” and adds, “I am not alone in having benefited from her extraordinary heart as a mentor and teacher.” Kirschner earned a BFA in poetry at the University of North Carolina at Wilmington, where she won the undergraduate portfolio award, and an MFA in creative writing at Louisiana State University, where she was senior poetry editor of the *New Delta Review*.

Diana Niemann has taught science at South Mecklenburg High School in Charlotte, North Carolina, since 1998, except for a year of teaching in Frisco, Texas. Chair of the school’s science department and adviser for the Junior Marshals, she is a member of Charlotte-Mecklenburg School District’s K–12 vertical alignment team. Niemann also developed her school’s Eco-Learning Lab and wrote the school district’s *Environmental Stewardship Guide and Chemistry Curriculum Guide*. In addition, she has served as a College Board Advanced Placement reader for environmental science exams, a PowerSchool trainer and administrator, and a mentor and trainer for beginning and developing teachers. A Dupont Honoree at the 2013 National Science Teacher conference and a finalist for the Coca-Cola Scholars Foundation’s Educator of Distinction Awards, she was named South Mecklenburg High School’s 2009 Teacher of the Year and the school district’s 2009 Southwest Learning Zone Teacher of the Year. Her other honors include a Time Warner Cable Star Teacher Award, MeckEd Teacher of Excellence Award, two districtwide STEM All-Star Awards, and Bank of America honors for outstanding contributions to STEM education. “Diana Niemann is without a doubt the most dedicated, passionate, and sincere teacher I have ever had the pleasure of knowing,” says student nominator Kristen Barnes of the McCormick School of Engineering and Applied Science. Niemann earned a BA in chemistry at the University of North Carolina at Charlotte and holds National Board Certification in earth and space science.
Dear Graduates of the Northwestern University Class of 2020,

I commend you on completing your studies at a competitive world-class university. To receive a degree from this school is a high honor. I am humbled by the invitation to provide reflections on the past and a recommendation for the present. There is a tradition at Northwestern that the 50th reunion class participate in the Commencement ceremony; but due to the COVID-19 pandemic this year, I’ve been asked—as a member of the class of 1970—to share my thoughts with you this way.

Individual success and social responsibility can and should go together. It was our vision and mission to achieve this goal when we conducted a sit-in that led to meaningful growth and change at Northwestern. I was one of more than 100 Black students who occupied the Bursar’s Office for 38 hours on May 3 and 4, 1968, after the University failed to meet a list of student demands. Among other demands, our petition called for Northwestern to admit more Black students, update housing policies and practices, create a Black student union, and add a program of African American literature, history, and art to the curriculum. The first-ever sit-in at the University led to an agreement that resulted in a better experience for Black students on campus and a better Northwestern.

We graduated in June 1970, so glad for that long-anticipated event to arrive. Once it was over, we quickly scattered in our various directions without thought to the fact that we were seeing some of our classmates for the last time.

These are lessons firmly entrenched after 50 years:

- Old friendships are pure gold.
- People are precious.
- Life is short.
- There is a lot to be said for stability.
- To your class, you will always look like you did a half century ago.
- By now you are beyond showing off; you no longer have anything to prove.
- The peer pressure is gone; be yourself.
- My class members are special people and were then too.

Northwestern has prepared you to pursue truth, give compassionate service, and participate in the creation of a more just and humane world. Martin Luther King Jr. was assassinated on April 4, 1968, a month before we took over the Bursar’s Office. He was a prophet who shed light on enduring and urgent tensions over race and class and led the nation out of the darkness of Jim Crow. His promised land was one he conjured on the steps of the Lincoln Memorial during his 1963 “I Have a Dream” speech—a place where he said his “four little children will not be judged by the color of their skin, but by the content of their character.” However, he knew our country was embarking on a long, twilight struggle against poverty, racism, and violence. “We’ve got some difficult days ahead,” he preached the night before he died.

His impact, legacy, and mission remain alive today and will far surpass the span of any lifetime. In fact, I am certain he intended his work to live beyond him and knew his great civil and human rights projects would require more than one generation to be realized. In this respect, they live on within all of those willing to continue working where he left off.

Today is the end of your training at Northwestern. But it is also the beginning of your professional journey. I am compelled to say you become a part of a world that is seriously disturbed. Never in history has there been more need for wise, courageous, and enlightened leadership than at the present. We look to you for that leadership.

The picture out there is not too rosy. Our world, increasingly, is a place of sickness, poverty, violent conflict, hatred, and brutal atrocities that negatively affect so many of our brothers and sisters, and it demands that we eradicate the polarization that divides us. Our efforts must be at restoring hope, righting wrongs, maintaining commitments, and promoting the well-being of all people. The complexity, gravity, and urgency of these challenges demand that we pool our resources and talents to support one another with respect for our differences. I suggest we agree upon one thing: that a crucial measure of our success in life is the way we treat one another in our lives. When we lessen the burdens of living for those around us, we are doing well; when we add to the misery of the world, we are not.

Martin Luther King said you can be one of two things: a thermometer or a thermostat. A thermometer measures the temperature as it is. A thermostat regulates the temperature. You can either be the thermometer, accepting societal problems as they are, or you can be the thermostat, reexamining and making alterations that improve our lives and future.

When you celebrate your 50th reunion and look back on this moment in history, it is my fervent hope that you will be filled with joy remembering the revival, hope, and peace that came out of this season to draw our hurting world back together.

May you find an interesting and satisfying life’s work. The baton is passed to you.
