William Blake and the Age of Aquarius

Sat, 9/23 to Sun, 3/11, free

Block Museum of Art, 40 Arts Circle Dr, Evanston

Contact: block-museum@northwestern.edu, 847-491-4000

In the summer of 1967, more than 100,000 young people streamed into the Haight-Ashbury district of San Francisco and the Sunset Strip in Los Angeles, as well as Greenwich Village in New York and Old Town in Chicago, to celebrate peace, love, music, and mind-altering drugs. Many of the artists, poets, and musicians associated with the "Summer of Love" embraced the work of British visionary poet and artist William Blake (1757–1827) and used it as a compass to drive their own political and personal evolutions. *William Blake and the Age of Aquarius* explores the impact of British visionary poet and artist William Blake on a broad range of American artists in the post-World War II period. This exhibition will be the first to consider how Blake's art and ideas were absorbed and filtered through American visual artists from the end of World War II through the 1960s. Blake became for many a model of non-conformity and self-expression, and was seen as an artist who engaged in social and political resistance in his time.

William Blake and the Age of Aquarius will consider parallels between Blake's time and mid-twentieth-century America, touching on such issues as political repression, social transformation, and struggles for civil rights. Blake's protests against the conventions of his day were inspirational for many young Americans disillusioned by perceived cultural tendencies of social uniformity, materialism and consumerism, racial and gender discrimination, and environmental degradation. This generation sought in Blake a model of independence, imagination, and resistance to authority. The exhibition will feature American artists for whom Blake was an important inspiration and will include more than 130 paintings, prints, drawings, photographs, films, and posters, as well as original Blake prints and illuminated books, from collections throughout the United States.

Carrie Mae Weems, Ritual and Revolution

Tues, 9/12 to Sun, 12/10

Block Museum of Art, 40 Arts Circle Dr, Evanston

Contact: block-museum@northwestern.edu, 847-491-4000

A practicing artist since 1978, Carrie Mae Weems (b. 1953) often creates works that blur the lines between fiction and documentary to explore universal human experiences through the black subject. Over the years Weems' photographic practice has expanded to include video, performance, and multi-media installations. *Ritual and Revolution* (1998) is an immersive, gallery-sized installation that marks one of the artist's earliest forays into three dimensions. Composed of 18 diaphanous printed cloth banners organized in a semi-architectural formation and a poetic audio track, *Ritual and Revolution* explores the historic human struggle for equality and justice, including references to the Middle Passage, the French Revolution, World War II, among others. Carrie Mae Weems' work has been exhibited nationally and internationally since the 1980's and was the subject of a traveling mid-career retrospective, *Carrie Mae Weems: Three Decades of Photography and Video*, which culminated with a presentation at New York's Guggenheim Museum in January-May of 2014. She has received numerous awards and fellowships including a MacArthur Genius Award in 2013. The Block is presenting this work for the first time since it entered the museum's collection.

An editioned work, *Ritual and Revolution* is part of the 2016 gift of 68 works of contemporary art to the Block Museum from art collector, philanthropist, and software innovator Peter Norton. The Block gift is one of a series of gifts Norton has made to university art museums throughout the country. The gifts were made in recognition and support of those institutions advancing innovative work to integrate art into teaching and learning across disciplines, foster creative museum practices, and engage audiences with diverse forms of contemporary art.

When a black infant is found buried alive in a New Rochelle garden, these three seemingly different worlds begin to collide. Lives entwine as the 20th century dawns, to the tune of a strange new music hanging in the air. Epic and heartfelt, *Ragtime* is a musical about change, justice, and the hundreds of stories threaded into one American life.

Northwestern Music Academy [Learn more online](#)

Other Courses (offered throughout the school year)

[Piano and Organ](#)

The Music Academy Piano Division offers pre-piano class, which serves as an introduction to more formal piano instruction: keyboard instruction in two tracks for students ages 6 to 18, and instruction for adults. Pre-piano serves as an introduction to more formal piano instruction. Keyboard instruction for children begins with pre-staff music and expands to landmark-based intervallic reading. After the first year of study, most children participate in the Illinois State Music Teacher's Association curriculum assessment, where they demonstrate skills and receive certificates and pins for participation.

[Strings](#)

The String Division offers private lessons in violin, viola, and cello, with goals of both providing musical instruction and instilling a love of music and of learning music. The division believes that all children can learn to their potential when placed in an environment that includes clear instruction, an involved parent, and regular opportunities to listen to and perform.

[Voice](#) (adults)

Adult voice classes concentrate on basic vocal technique including registers, breathing, range, and diction. Unique teaching methods and small class size (4 to 5 students) produce good results after a short period of time. One Book, One Northwestern

There is a full program of events for our new One Book One Northwestern selection, *Our Declaration*. For more information about the One Book One Northwestern program, please contact Nancy Cunniff at onebook@northwestern.edu or 847-467-2294.

***Our Declaration* by Danielle Allen Selected for One Book Program 2017-2018**

"Our Declaration: A Reading of the Declaration of Independence in Defense of Equality," a book that brings an eye-opening perspective to one of the most studied texts in U.S. history, is Northwestern University's One Book One Northwestern all-campus read for the 2017-18 academic year.

The author of "Our Declaration," Danielle Allen, will deliver a keynote address and sign books Oct. 19 at Northwestern. All first-year students receive a copy of the One Book each year.

Allen, the director of the Edmond J. Safra Center for Ethics at Harvard University, offers readers an intimate look at experiences that inspired the book when she was teaching in the 2000s on the South Side of Chicago.

At the time, she was a political science and classics professor at the University of Chicago by day, and by night she taught adults in the Odyssey Project, a program of the Illinois Humanities Council to help low-income adults, commonly unemployed or underemployed, reenter the educational system.

In the process, Allen experienced a "personal metamorphosis," rediscovering the Declaration and its central tenets: equality and freedom. The book makes the argument that liberty and equality are interdependent rather than in contest.

Too many Americans buy into the idea that true equality can only be achieved at the expense of our individual freedoms, she argues. As a result, equality has taken a back seat to liberty at the expense of our democracy.

"If we abandon equality, we lose the single bond that makes us a community, that makes us a people with the capacity to be free collectively and individually in the first place," she wrote.

Speakers and Presentations

A Million-Fold Speedup in the Dynamical Characterization of Multi-Planet Systems

Dan Tamayo (University of Toronto)

Fri, 12/1, 2:00-3:30 PM

Technological Institute, Room L211, 2145 Sheridan Road, Evanston

Contact: Gretchen Oehlschlager, ciera-events@northwestern.edu, 847-467-1338

Dan Tamayo will discuss recent successes in training machine learning models capable of reliably predicting orbital stability a million times faster than direct integrations. This opens a wide discovery space for exoplanet characterization and planet formation studies as the next generation of spaceborne exoplanet surveys prepare for launch next year.

Learning To Forget, Forgetting To Learn

Haley Vlach (Northwestern University)

Tues, 12/5, 4:00-5:00 PM, free

Swift Hall, Room 107, 2029 Sheridan Road, Evanston

Contact: Benjamin Dionysus, cogsci@northwestern.edu, 847-467-2035

The early years of life are an exciting period of growth and change in cognition.
