[FORTITUDE or/AND GENTLENESS](#)

JUNE 15-17

By Billy Siegenfeld

Directed by Tucker DeGregory

Wirtz Center Room 101

1949 Campus Drive

Performances

Thurs., 6/15 7:30 p.m.

Fri., 6/16 7:30 p.m.

Sat., 6/17 2 p.m. and 7:30 p.m.

A play about a rehearsal for a play—with snatches of song, some bursts of dance, crazed rants about life, and two or three appeals to the moon and Jane Austen—who, GENIUS that she was, combined those two words "fortitude" and "gentleness" (are you ready?) MORE THAN 200 YEARS AGO

because she believed that said combo is a BOTH-AND way of doing life not an EITHER-OR way of doing it, even though one character in the play STILL thinks, stuck-in-the-mud Eeyore that he is, that "either/or" is the ONLY way to do anything, to which the other character in the play can only roll her eyes for the umpteenth time and say, "Yeesh."

#### The Living Image of Sound: Notes on Jazz and Protest at Northwestern

When: Now through July 7

Where: Block Museum of Art, Mary and Leigh, 40 Arts Circle Drive, Evanston, IL

Contact: Lindsay Bosch, [lindsay.bosch@northwestern.edu](mailto:lindsay.bosch@northwestern.edu)

The Living Image of Sound: Notes on Jazz and Protest at Northwestern is a concise exhibition exploring the intersections of visual art, music, and student-led social justice movements during the late 1960s and early 1970s. The exhibition features artwork and ephemera related to the trailblazing poet and musician Sun Ra and The Arkestra jazz ensemble, including a painting by the musician and visual artist Ayé Aton.

The Arkestra’s practice is put into conversation with photographs of music venues across Chicago by Ted Williams, Mikki Ferrill, and Ronald L. Freeman, as well as images of and by Northwestern University students, reflecting a dynamic network of musicians, artists, listeners, and activists. The students—some of whom would eventually share a stage with Sun Ra himself—took up the mantle of artmaking and activism in response to local and global crises on and beyond their campuses from anti-Black racism to the Vietnam War.

When: Now through July 9

Where: Block Museum of Art, Mary and Leigh, 40 Arts Circle Drive, Evanston, IL

Contact: Lindsay Bosch, [lindsay.bosch@northwestern.edu](mailto:lindsay.bosch@northwestern.edu)

#### **What do we owe to the memories of one another's hearts?**

For American artist Dario Robleto (b. 1972), artists and scientists share a common aspiration: to increase the sensitivity of their observations. Throughout the history of scientific invention, instruments like the cardiograph and the telescope have extended the reach of perception from the tiniest stirrings of the human body to the farthest reaches of space. In his prints, sculptures, and video and sound installations, Robleto contemplates the emotional significance of these technologies, bringing us closer to the latent traces of life buried in the scientific record.

This work is juxtaposed with *From a Dark Millennium*, composed by Northwestern alumnus Joseph Schwantner. The second half of the program begins with a short fanfare, *Don't Be Evil*, commenting on a different kind of darkness in the form of Big Tech. Concluding the program is a work Robert Traugh, *Spark and Fire*—a collection of four essays for wind ensemble revolving around the issue of anxiety in 21st-century society.

This 45-minute class is a lovely way for young children and parents to interact. Multi-level activities that are appropriate for each stage of a child's development give lap babies, crawlers, and walkers a chance to explore music, touch, sound, and movement. Home materials including a CD, a book related to the theme of the unit, and an instrument provide additional ideas for sharing the class experience at home.

### Piano and Organ

The Music Academy Piano Division offers pre-piano class, which serves as an introduction to more formal piano instruction: keyboard instruction in two tracks for students ages 6 to 18, and instruction for adults. Pre-piano serves as an introduction to more formal piano instruction. Keyboard instruction for children begins with pre-staff music and expands to landmark-based intervallic reading. After the first year of study, most children participate in the Illinois State Music Teacher's Association curriculum assessment, where they demonstrate skills and receive certificates and pins for participation.

### Strings

The String Division offers private lessons in violin, viola, and cello, with goals of both providing musical instruction and instilling a love of music and of learning music. The division believes that all children can learn to their potential when placed in an environment that includes clear instruction, an involved parent, and regular opportunities to listen to and perform.

#### [The Future of the Ethiopian Social Contract](#)

The contemporary Ethiopian state is, without question, facing enormous challenges, including the militarization of state and non-state actors, high population density accompanied by youth unemployment, food insecurity, inequality and discrimination among ethnic groups, ethnic and political polarization and widespread human rights abuses. At the core of the issues faced by Ethiopia lies the state-building process, and Ethiopians remain divided in their views about what kind of constitutional structure has the greatest potential to unify the country without compromising diversity.

A [new publication](#) stemming from a convening of more than 30 leading Ethiopian scholars in Addis Ababa explores these issues and illuminates possible paths forward for the Ethiopian state. Join Northwestern University's Roberta Buffett Institute for Global Affairs and Pritzker School of Law, the Addis Ababa University College of Law and Governance Studies and the Harvard Law School's Human Rights Program on Wednesday, June 14 at 8:00 a.m. CT (UTC-5) for a virtual discussion with some of the publication's contributors and others leading efforts to promote dialogue and peace in Ethiopia.

### [Thought Leader Dialogue: Designing Computing Education for Everyone](#)

When: Thursday, June 8, 2023, 12:00 PM - 1:15 PM Central

Contact: Darren Gergle, (847) 467-1221, [dgergle@northwestern.edu](mailto:dgergle@northwestern.edu)

Phones. Tablets. Cars. We are constantly interacting with computers, yet few of us get to participate in designing the systems and interfaces that increasingly mediate our everyday lives. This is because computing education has historically focused on training a select few to become professional software developers. However as computing is increasingly viewed as a core literacy that has value for all learners, this landscape is changing. In this dialog, we bring together researchers with distinct perspectives to discuss approaches for designing computing learning experiences for everyone. We ask: how can we design tools, curricula, and learning communities to foster interest, engagement, and broad participation in computing education? Tackling questions related to equity, scale, and context across K-12 and higher education, this dialog will highlight the role of thoughtful design in achieving the vision of computing education for everyone.
