## **NUPOC Gallery: Oil Paintings by Bruce Boyer**

*Tues, Aug 1 to Thurs, Aug 30*

*Northwestern University Prosthetics-Orthotics Program, 680 North Lake Shore Drive, Suite 1100, Chicago*

Contact: R. J. Garrick, [r-garrick@northwestern.edu](mailto:r-garrick@northwestern.edu)

At NUPOC, science, technology and art intersect. In recognition of the artistry that is intrinsic to the allied health discipline of Prosthetics and Orthotics, NUPOC features an exhibition of oil paintings by Bruce Boyer, PhD, and sculptures by Yeongchi Wu, MD.

Bruce Boyer paints abstract works and explores juxtapositions of shape and color. This exhibition highlights five of his recent, abstract oils on canvas. Engaged in both graphic and literary expression, Dr. Boyer has written for publications that include Chicago Magazine, The Christian Science Monitor and the Chicago Tribune. He is author of a novel, The Solstice Cipher and The Natural History of the Field Museum; and co-author of Miniature Rooms, The Thorne Rooms at the Art Institute of Chicago.

Dr. Wu is a physician, researcher, patent-holding innovator and artist who sculpts and paints in many styles and media. His work has been commissioned and internationally exhibited.

Artists and Certified Prosthetists-Orthotists (CPOs) cultivate similar skills, such as training in human anatomy. Using three-dimensional artistry that bridges science and technology, CPOs fit and fabricate functional prostheses and orthoses for their patients. Visit NUPOC to see how science, technology and art intersect.

### Other Courses

#### Piano and Organ

The Music Academy Piano Division offers pre-piano class, which serves as an introduction to more formal piano instruction: keyboard instruction in two tracks for students ages 6 to 18, and instruction for adults. Pre-piano serves as an introduction to more formal piano instruction. Keyboard instruction for children begins with pre-staff music and expands to landmark-based intervallic reading. After the first year of study, most children participate in the Illinois State Music Teacher's Association curriculum assessment, where they demonstrate skills and receive certificates and pins for participation.

#### Strings

The String Division offers private lessons in violin, viola, and cello, with goals of both providing musical instruction and instilling a love of music and of learning music. The division believes that all children can learn to their potential when placed in an environment that includes clear instruction, an involved parent, and regular opportunities to listen to and perform.

#### Voice (adults)

Adult voice classes concentrate on basic vocal technique including registers, breathing, range, and diction. Unique teaching methods and small class size (4 to 5 students) produce good results after a short period of time. The class is recommended not only for people interested in singing, but also for adults who would like to improve their speaking voice. Private voice lessons also available.

# One Book, One Northwestern

A full program of events will kick off in September for our new One Book One Northwestern selection, *Our Declaration*. For more information about the One Book One Northwestern program, please contact Nancy Cunniff at [onebook@northwestern.edu](mailto:onebook@northwestern.edu) or 847-467-2294.

## ***Our Declaration* by Danielle Allen Selected for One Book Program 2017-2018**

"Our Declaration: A Reading of the Declaration of Independence in Defense of Equality," a book that brings an eye-opening perspective to one of the most studied texts in U.S. history, is Northwestern University's One Book One Northwestern all-campus read for the 2017-18 academic year.

The author of "Our Declaration," Danielle Allen, will deliver a keynote address and sign books Oct. 19 at Northwestern. All first-year students receive a copy of the One Book each year.

Allen, the director of the Edmond J. Safra Center for Ethics at Harvard University, offers readers an intimate look at experiences that inspired the book when she was teaching in the 2000s on the South Side of Chicago.

At the time, she was a political science and classics professor at the University of Chicago by day, and by night she taught adults in the Odyssey Project, a program of the Illinois Humanities Council to help low-income adults, commonly unemployed or underemployed, reenter the educational system.

In the process, Allen experienced a "personal metamorphosis," rediscovering the Declaration and its central tenets: equality and freedom. The book makes the argument that liberty and equality are interdependent rather than in contest.

Too many Americans buy into the idea that true equality can only be achieved at the expense of our individual freedoms, she argues. As a result, equality has taken a back seat to liberty at the expense of our democracy.

"If we abandon equality, we lose the single bond that makes us a community, that makes us a people with the capacity to be free collectively and individually in the first place," she wrote.

## **Essay Contest**

*Due Sept 10*

One Book One Northwestern is awarding a \$500 prize for the best essay of In less than 1,337 words—the length of the Declaration of Independence or less by an entering first-year or transfer student on the question of equality. See [online](#) for more details.
