

Date:	8/11/23	<i>During this assessment, the following was observed:</i>	
Location:	Wieboldt Hall	<i>(please list details to the right)</i>	
Department:	Painters (Chicago)	Specific job task:	
Dept. representative:	Daniel DeBosschere	✓ Specific employee group:	Journeyman Painters
Assessor:	Mark Krupa	Specific employee:	

Below, describe specific work activities, associated hazards, and any required PPE.

<p>Eye</p> 	Working overhead; working in dusty environments; using hazardous products; general work activities			
	<i>Check all that apply:</i>		<i>Description of hazard(s)</i>	<i>Required PPE (if any)</i>
	Chemical	✓	A. Exposure to dust and debris when working overhead and in dusty environments, such as above ceilings and near spray insulation	A. Use ANSI Z87.1+ impact-rated and at least D4 dust-rated eye protection when working above ceilings and around dust particles and spray insulation.
	High heat or cold			
	Dust/flying debris	✓	B. Exposure to chemical eye irritants while working with spray-applied paint, adhesives, solvents, and lubricants	B. Use ANSI Z87.1+ impact-rated and at least D3 splash-rated eye protection when working with spray-applied paint, adhesives, solvents, lubricants, and other hazardous chemicals.
	Impact	✓		
UV/IR radiation				
Other:		C. Exposure to flying objects, debris, and impact hazards during general work activities	C. Use ANSI Z87.1+ impact-rated safety glasses when performing general work activities.	
<p>Head/neck/face</p> 	Working in or around construction areas			
	<i>Check all that apply:</i>		<i>Description of hazard(s)</i>	<i>Required PPE (if any)</i>
	Chemical		A. Exposure to head bump hazards and falling objects in construction areas	A. Use an ANSI Z89.1 Type II, Class E hardhat in construction areas or other work areas with a risk of falling objects or head bump hazards.
	High heat or cold			
	Dust/flying debris			
	Impact	✓		
Electric shock				
Other:				
<p>Foot</p> 	General work activities			
	<i>Check all that apply:</i>		<i>Description of hazard(s)</i>	<i>Required PPE (if any)</i>
	Chemical		A. Exposure to falling objects, punctures by sharp objects on the floor, and slippery conditions	A. Wear at least ASTM F241-12 and F-2413-certified safety shoes at all times.
	High heat or cold			
	Impact/compression/puncture	✓		
	Electric shock			
Slippery/wet surface(s)	✓			
Other:				

Below, describe specific work activities, associated hazards, and any necessary PPE.

<p>Hand</p> 	<h3>Using hazardous products</h3>		
	<p><i>Check all that apply:</i></p>	<p><i>Description of hazard(s)</i></p>	<p><i>Required PPE (if any)</i></p>
	<p>Chemical</p>	<p>A. Exposure to irritant chemical hazards while working with adhesives, solvents, and lubricants</p>	<p>A. Use nitrile disposable gloves when using hazardous chemicals, as directed by the product Safety Data Sheet.</p>
	<p>High heat or cold</p>		
	<p>UV/IR radiation</p>		
	<p>Cut/abrasion/puncture</p>		
	<p>Electric shock</p>		
	<p>Other:</p>		
<p>Body</p> 	<h3>General work activities; working around vehicles</h3>		
	<p><i>Check all that apply:</i></p>	<p><i>Description of hazard(s)</i></p>	<p><i>Required PPE (if any)</i></p>
	<p>Chemical</p>	<p>A. Exposure to abrasion hazards from rough surfaces and materials</p> <p>B. Exposure to struck-by hazards from vehicles such as powered industrial trucks and lifts</p>	<p>A. Wear long pants and sleeved shirts at all times.</p> <p>B. Use an ANSI Class 1 high-visibility vest in areas where vehicles such as powered industrial trucks and lifts are in operation.</p>
	<p>High heat or cold</p>		
	<p>Impact/compression</p>		
	<p>Electrical/arc</p>		
	<p>Cut/abrasion</p>		
	<p>Other: Struck-by hazards</p>		
<p>Falls</p> 	<h3>Working at heights</h3>		
	<p><i>Check all that apply:</i></p>	<p><i>Description of hazard(s)</i></p>	<p><i>Required PPE (if any)</i></p>
	<p>Roof</p>	<p>A. Exposure to fall hazards on mobile elevated work platforms, roofs, scaffolds, and catwalks</p>	<p>A. Use a fall protection harness and appropriate fall arrest system on mobile elevated work platforms (MEWPs) and in areas with unprotected fall hazards (See Note #1).</p>
	<p>Work platform</p>		
	<p>Overhead equipment</p>		
	<p>Ladder/scaffold</p>		
	<p>Other:</p>		

Below, describe specific work activities, associated hazards, and any necessary PPE.

Noise 	Working in noisy areas			
	Check all that apply:		Description of hazard(s)	
	Noise hazard(s)	<input checked="" type="checkbox"/>	A. Exposure to hazardous noise produced by equipment in mechanical rooms	Required PPE (if any) A. Use ANSI-approved ear plugs or earmuffs when working in noisy environments, and as required by signage.
Respiratory 	Using spray-applied paint and using hazardous products in poorly ventilated areas			
	Check all that apply:		Description of hazard(s)	
	Chemical	<input checked="" type="checkbox"/>	A. Exposure to airborne contaminants when using spray-applied paint, adhesives, solvents, and other hazardous chemicals	Required PPE (if any) A. Use a half-face air-purifying respirator with appropriate filter cartridges (See Note #2) when working with spray-applied paint, adhesives, solvents, lubricants, and other hazardous chemicals in areas that are not well-ventilated.
	Particulate	<input type="checkbox"/>		
Other:	<input type="checkbox"/>			

Additional notes:

Note #1: All use of fall protection equipment, scaffolds, and mobile elevated work platforms (MEWPs) must adhere to Northwestern’s Fall Protection [Program](#) and Mobile Elevated Work Platforms [Program](#).

Note #2: Refer to the Respiratory Protection [Program](#) and Respirator Cartridge Selection [Guide](#) to determine the appropriate respirator cartridge for a specific work activity.
