UNIVERSITY SEAL AND MOTTO

Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words *Northwestern University, Evanston, Illinois*.

Northwestern
University

Thirty years later Daniel Bonbright, professor of Latin and a member of Northwestern's original faculty, redesigned the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of John, chapter 1, verse 14, translating to *The Word . . . full of grace and truth*. Circling the book are the first three words, in Latin, of the University motto: *Quaecumque sunt vera* (Whatever things are true). The outer border of the seal carries the name of the University and the date of its founding. This seal, which remains Northwestern's official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Paul the Apostle to the Philippians, chapter 4, verse 8 (King James Version).

*Whatsoever things are true,
whosoever things are honest,
whosoever things are just,
whosoever things are pure,
whosoever things are lovely,
whosoever things are of good report;
if there be any virtue,
and if there be any praise,
think on these things.*

TO OUR GUESTS

Commencement is the highlight of the academic year. It is that significant occasion, both solemn and joyful, when we honor those students who have completed their courses of study. Commencement is important to all of you, the University, and its faculty, staff, and students. While the University respects the rights of all to express their views, we respectfully expect and require that any such expressions during these Commencement proceedings not disrupt the virtual ceremony nor prevent others from enjoying it.

Once the virtual Commencement ceremony has concluded, a link to the recording will be available on Northwestern's Commencement website.

PROFILES

MORTON SCHAPIRO

President

Morton Schapiro began his term as the 16th president of Northwestern University on September 1, 2009. He is a professor of economics in Northwestern's Judd A. and Marjorie Weinberg College of Arts and Sciences and also holds appointments in the J. L. Kellogg School of Management and the School of Education and Social Policy.

President Schapiro is among the nation's leading authorities on the economics of higher education, with particular expertise in the area of college financing and affordability and on trends in educational costs and student aid. He has been a regular commentator in the national media on those and other issues.

Previously President Schapiro was president of Williams College from 2000 to 2009. Earlier he had served as a member of the Williams College faculty from 1980 to 1991 as professor of economics and assistant provost. In 1991 he went to the University of Southern California, where he served as chair of the economics department until 1994 and then as dean of the College of Letters, Arts and Sciences until 2000. During his last two years as dean, he also served as the university's vice president for planning.

President Schapiro has written or edited nine books and more than 100 articles. He has received research grants and contracts from the National Science Foundation, the US Department of Education, the World Bank, the Andrew W. Mellon Foundation, the Spencer Foundation, the College Board, the Organization for Economic Cooperation and Development, and other groups to study the economics of higher education and related topics. In 2010 he was elected a fellow of the American Academy of Arts and Sciences, and in 2017 he was elected to the National Academy of Education.

He received his bachelor's degree in economics from Hofstra University and his doctorate from the University of Pennsylvania.

J. LANDIS MARTIN

Chair, Board of Trustees

J. Landis Martin is the chairman and managing director of Platte River Equity, a Denver-based private equity firm focused on lower-middle-market companies. He retired as chairman and CEO of Denver-based Titanium Metals Corporation, one of the world's largest producers of titanium metal, in 2005. Mr. Martin is also the chairman of the board of Houston-based Crown Castle International Corporation, a communications infrastructure provider. Until 1987 he was also a partner at the Kirkland & Ellis law firm.

Mr. Martin is chairman of the Denver Art Museum and its foundation and of the Clyfford Still Museum Foundation. Chairman emeritus of Central City Opera House Association, he is also past chairman and president of the Houston Grand Opera.

In addition to chairing Northwestern University's Board of Trustees, Mr. Martin is a member of the Northwestern Pritzker School of Law Board. He received a bachelor of science degree in business administration from Northwestern and a juris doctor degree from Northwestern Law.

HISTORY OF NORTHWESTERN

The founding of Northwestern University by nine devout Methodists embodied a mixture of religious conviction and secular optimism that is uniquely American. Meeting above a hardware store in the burgeoning frontier town of Chicago, these nine men resolved on May 31, 1850, to establish an institution of “the highest order of excellence” to serve the people of the original Northwest Territory as established by the Northwest Ordinance of 1787 (Ohio, Indiana, Illinois, Michigan, Wisconsin, and part of Minnesota). The 1851 Act of Incorporation creating Northwestern University contained a provision reflecting the strong religious beliefs of its founders but requiring no particular religious faith of students or members of the faculty.

The Northwestern campus sits on the traditional homelands of the people of the Council of Three Fires—the Ojibwe, Potawatomi, and Odawa as well as the Menominee, Ho-Chunk, and Miami tribes. It was also a site of trade, travel, gathering, and healing for more than a dozen other Native tribes, and the state of Illinois is still home to over 100,000 tribal members.

In 1853 the University bought and began to develop 379 acres of lakeshore farmland. The town that grew up around Northwestern was named for John Evans, one of the University’s founders. By 1855 Northwestern had completed its first building and opened a College of Liberal Arts. By 1900 the University encompassed six additional schools, including the medical and law schools in Chicago. Since the establishment of the Graduate School in 1910, Northwestern has provided graduate as well as undergraduate instruction, emphasizing research along with teaching.

The University’s development since then has paralleled the growth of metropolitan Chicago. Today Northwestern is a private research university of distinction, with 11 academic divisions located on two lakefront campuses in Evanston and Chicago as well as Northwestern University in Qatar, which opened in Doha in 2008. Northwestern’s vision of excellence—although faithful to its founding—invigorates a territory far beyond the old Northwest Territory through the accomplishments of its alumni and by virtue of a distinguished faculty and high-achieving student body drawn from across the nation and around the world.

SCHOOLS OF THE UNIVERSITY

The **Judd A. and Marjorie Weinberg College of Arts and Sciences**, established in 1851 as the College of Liberal Arts, offers the degree of bachelor of arts. Through the School of Professional Studies, Weinberg College also offers the degrees of bachelor of philosophy and bachelor of science in general studies.

The **School of Communication**, established in 1878 as the School of Oratory and later renamed the School of Speech, offers the degrees of bachelor of arts, bachelor of science, doctor of audiology, doctor of speech-language pathology, master of arts, and master of science. Through the School of Professional Studies, the School of Communication also offers the degree of bachelor of philosophy in communication.

The **School of Education and Social Policy**, established in 1926 as the School of Education, offers the degrees of bachelor of science and master of science.

The **Robert R. McCormick School of Engineering and Applied Science**, established in 1909 as the College of Engineering, offers the degrees of bachelor of science, master of engineering management, and master of science.

The **Graduate School**, established in 1910, administers programs leading to the degrees of doctor of philosophy, master of arts, master of fine arts, master of public health, and master of science.

The **Medill School of Journalism, Media, Integrated Marketing Communications**, established in 1921 as the Medill School of Journalism, offers the degrees of bachelor of science and master of science.

The **Pritzker School of Law**, established in 1859 as the School of Law, offers the degrees of juris doctor, master of laws, master of science in law, master of studies in law, and doctor of juridical science. The school also offers the Master of Laws International Executive Master's Program in Israel, South Korea, and Spain.

The **J. L. Kellogg School of Management**, established in 1908 as the School of Commerce, offers the degrees of master of business administration and master of science in management studies. In addition to the full-time MBA program, Kellogg offers the evening Part-Time MBA Program on the Chicago campus, the weekend Executive Master's Program on the Evanston campus, and the International Executive Master's Program in Canada, China (Beijing and Hong Kong), Germany, and Israel.

The **Feinberg School of Medicine**, established in 1859 as the Medical School, offers the degrees of bachelor of science in medicine, master of medical science, master of prosthetics and orthotics, doctor of medicine, and doctor of physical therapy.

The **Henry and Leigh Bienen School of Music**, established in 1895 as the School of Music, offers the degrees of bachelor of music, bachelor of arts, and bachelor of science. In its graduate division, the school offers the degrees of doctor of musical arts and master of music.

The **School of Professional Studies**, established in 1933 as University College and later renamed the School of Continuing Studies, offers the degrees of master of arts, master of fine arts, and master of science. The school also offers courses leading to the degrees of bachelor of philosophy and bachelor of science in general studies, conferred by the Weinberg College of Arts and Sciences, and the degree of bachelor of philosophy in communication, conferred by the School of Communication.

Northwestern University in Qatar, established in 2008 as part of Education City in the Qatari capital of Doha, offers the degree of bachelor of science in communication through the School of Communication and the degree of bachelor of science in journalism through the Medill School of Journalism, Media, Integrated Marketing Communications.

ACADEMIC DRESS AND HONOR CORDS

ACADEMIC DRESS

Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide warmth in poorly heated buildings and to differentiate scholars from fellow citizens. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States most academic dress follows the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the gowns' trim and sleeve design indicates the level of the degree. The bachelor's gown has pointed sleeves and is worn closed; the master's gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor's gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves. This velvet trim may be black or the prescribed color of the academic area. Though the recommended color for gowns is black, Northwestern University (like many institutions) has adopted a colored gown to reflect the school's color. All participating candidates wear a custom purple gown featuring the University crest.

The style of hood identifies the level of the degree, the school that granted it, and the academic area. Hood length and border width show the level of the degree. The bachelor's hood, which is optional and not worn at Northwestern University, is three feet in length; the master's, three and one-half feet; the doctor's, four feet. The velvet border of the hood is two, three, and five inches wide for the bachelor's, master's, and doctor's degrees, respectively. The hood is lined with silk in the official color of the school. At Northwestern the hood is lined in purple (the school's color) and gold. The color of the hood's border—and at Northwestern the color of the cap's tassel as well—indicates the academic area. Tassels feature the Northwestern seal signet and are worn on the left side at all times. At Northwestern the colors for the Graduate School constitute an exception; tassels are black, but the border color of the hood indicates the specific degree awarded. Bachelor's degree regalia include a souvenir stole.

The square black mortarboard is the recommended cap, although some schools have adopted other styles. Caps are worn throughout the Commencement ceremony, except that men remove them for the national anthem, invocation, and benediction.

At Northwestern University members of honor societies may be recognized by the honor cords, medallions, and stoles worn.

The tassels and borders of the hoods are the following colors:

Judd A. and Marjorie Weinberg

HONORARY DEGREES

NORMAN LEAR

Doctor of Humane Letters

Norman Lear attended Emerson College before flying 52 combat missions over Europe during World War II. He then began a successful career writing and producing for television, eventually captivating 120 million viewers per week with his iconic 1970s and '80s series—*All in the Family*, *Maude*, *Good Times*, *The Jeffersons*, *Sanford and Son*, and *Mary Hartman, Mary Hartman*. Lear also produced films for Rob Reiner, including the classics *Stand by Me* and *The Princess Bride*. In 1980 he founded People for the American Way, which continues to defend freedom of expression, religious liberty, equal justice under law, and the right to democratic participation. Lear served as executive producer for the critically acclaimed reimagining of *One Day at a Time*, recently revived by PopTV and CBS after a three-season run on Netflix, and *Live in Front of a Studio Audience* with Jimmy Kimmel, which won an Emmy for outstanding variety special and a Critics' Choice Award for best comedy special. Winner of five Emmys and a Golden Globe, Lear is a Kennedy Center honoree, an inaugural Television Academy Hall of Fame inductee, and a recipient of the National Medal of Arts and the Peabody Lifetime Achievement Award.

Presented by Thomas Bradshaw, professor of radio/television/film, School of Communication

Your dynamic Hollywood career as a writer and producer has extended from television's golden age to the streaming era. Your trailblazing programs expanded the medium's artistic range to address previously taboo societal issues. As a social and political activist, you have long been a forceful advocate for progressive values. We are proud to honor your remarkable achievements—and heartened to know that, at age 97, you have no plans to retire.

LORI E. LIGHTFOOT

Doctor of Laws

As mayor of Chicago since 2019, Lori Lightfoot has undertaken an ambitious agenda of expanding opportunity and inclusive economic growth across Chicago's neighborhoods and communities. Early accomplishments include historic ethics and good-governance reforms, worker protection legislation, and key investments in education, public safety, and financial stability. The mayor has won particular admiration for her leadership in response to the COVID-19 pandemic. Prior to her election, Lightfoot had served as a senior equity partner in the litigation and conflict resolution group at Mayer Brown,

president of the Chicago Police Board, chair of the Police Accountability Task Force, chief of staff and general counsel of the Chicago Office of Emergency Management and Communications, interim first deputy of the Chicago Department of Procurement Services, chief administrator of the Office of Professional Standards, and assistant US attorney. She holds a BA in political science from the University of Michigan and a JD from the University of Chicago.

Presented by Nichole Denise Pinkard, associate professor of learning sciences, School of Education and Social Policy

Since your landslide and landmark election as Chicago's first LGBTQ and African American woman mayor, you have decisively and humanely addressed a series of historic challenges. You are a relentless advocate of inclusion as a public responsibility and a common good. Your "Stay Home, Save Lives" campaign in response to the COVID-19 pandemic garnered international attention and made you a social media icon, and you worked to calm your city during recent unrest. We thank you for your inspiring leadership during this time of heartbreaking loss and unprecedented challenge.

JOANNE STUBBE

Doctor of Science

JoAnne Stubbe is professor emerita of biology and chemistry at the Massachusetts Institute of Technology, where she was the first woman to receive tenure in chemistry. Previously she served on the faculty at Williams College, Yale Medical School, and the University of Wisconsin. Her research has helped explain some of nature's most complicated and significant enzyme mechanisms. Stubbe has developed new techniques for unraveling the chemical complexity of enzymatic systems, particularly how nature harnesses the reactivity of free radicals. Her work has had an impact across diverse areas, from cancer therapy to the synthesis of biodegradable plastics. Stubbe's numerous honors include the National Medal of Science, the Welch Award in Chemistry, the Pearl Meister Greengard International Award, and the American Chemical Society's Priestley Medal, Nakanishi Prize, and Alfred Bader Award in Bioorganic and Bioinorganic Chemistry as well as selection as a Clarivate Citation Laureate and election to the National Academy of Sciences and the American Philosophical Society. She holds a BA in chemistry from the University of Pennsylvania and a PhD in organic chemistry from the University of California, Berkeley.

Presented by Amy C. Rosenzweig, Weinberg Family Distinguished Professor of Life Sciences and professor of molecular biosciences and chemistry, Judd A. and Marjorie Weinberg College of Arts and Sciences

Your groundbreaking work compellingly demonstrates the power of chemical investigations to solve complex problems in biology. As a mentor for numerous students and postdoctoral fellows, notably those underrepresented in the sciences, you have made research education a key part of your enduring legacy. We are proud to add to your many honors as we salute your remarkable accomplishments.

GEORGE M. WHITESIDES

Doctor of Science

George M. Whitesides is the Woodford L. and Ann A. Flowers University Professor at Harvard University. Previously he taught at the Massachusetts Institute of Technology. Trained in chemistry, Whitesides has made seminal contributions in such additional areas as materials science, mechanical engineering, drug discovery, and medical diagnostic systems for underdeveloped regions. His work has led to the development of materials for robotic systems, surface chemistries for drug-discovery assays, and methods for microfabrication. Among his numerous awards are the National Medal of Science, the Materials Research Society's Von Hippel Award, the Kyoto Prize for Advanced Technology, the Swiss Chemical Society's Paracelsus Prize, the American Chemical Society's Priestley Medal, the Welch Award in Chemistry, and the European Materials Research Society's Jan Czocharlski Award. In addition, he has been elected to the American Academy of Arts and Sciences, the National Academy of Sciences, the National Academy of Engineering, and the American Philosophical Society. Whitesides earned an AB in chemistry at Harvard and a PhD in chemistry at the California Institute of Technology.

Presented by Teri W. Odom, Charles E. and Emma H. Morrison Professor of Chemistry, Judd A. and Marjorie Weinberg College of Arts and Sciences

Without your pioneering efforts, today the worlds of science and engineering and the life sciences technology industry would be vastly different. Your prolific and wide-ranging work has opened whole new fields of inquiry and innovation. As a mentor, teacher, and collaborator, you have significantly advanced scholarship in your fields. We are honored to celebrate your illustrious career.

DISTINGUISHED SECONDARY SCHOOL TEACHER AWARDS

Joseph Brysiewicz has taught at Highland Park High School in Highland Park, Illinois, since 2008. In addition to teaching Advanced Placement European History, Advanced Placement Economics, and World History, he is interim chair of the social studies department and sponsor of the school's award-winning Model United Nations team. Previously he taught for six years at Grayslake Central and North High Schools in Grayslake, Illinois, where he founded the literary magazine and international club, led students on travels to Europe, and chaired the history department for three years. Since 2009 he has been a faculty associate with Bard College's Institute for Writing and Thinking, where he has led summer workshops for high school students since 2005. A member of Phi Beta Kappa, Brysiewicz was a national Golden Apple Award finalist and has served as an alumni representative on Lake Forest College's education advisory committee. His published work includes the book *Lake Villa Township* in Arcadia Publishing's Images of America series and a monograph on the history of Lindenhurst, Illinois. "He inspires an absolute love of a subject in every single student," says student nominator Jack Benjamin of the School of Education and Social Policy. Brysiewicz earned BA degrees in history and secondary education magna cum laude at Lake Forest College, an MA in educational leadership at Concordia University, and an MLA at the University of Chicago.

John DeRose has taught history since 1999 at Whitefish Bay High School in Whitefish Bay, Wisconsin. Since 2008 he has also served as the Whitefish Bay School District's facilitator of professional development. In addition, DeRose trains future teachers as an ad hoc professor at the University of Wisconsin-Milwaukee and Concordia University. He has served as a curriculum consultant for Milwaukee Public Television (2005-12) and Milwaukee PBS (since 2017). Before joining the Whitefish Bay faculty, he taught at St. Catherine's High School in Racine, Wisconsin. A two-time recipient of the Milwaukee County Historical Society's Merit Award and a member of the Phi Beta Kappa, Alpha Sigma Nu, and Phi Alpha Theta honor societies, DeRose was awarded Wisconsin's Herb Kohl Teacher Fellowship and was named Wisconsin's History Teacher of the Year by the Gilder Lehrman Institute of American History. He has given conference and convention presentations, written articles published in educational and history journals, and served on the editorial board of the Organization of American Historians

Magazine of History. Student nominator Carter Rothman of the Weinberg College of Arts and Sciences says that DeRose "prepared me for academics at the university level better than any other teacher in high school." A summa cum laude graduate in history at Marquette University, DeRose earned teacher certification at Carthage College as well as an MS in curriculum and instruction and a PhD in urban education at the University of Wisconsin-Milwaukee.

Maria Hiaasen has taught since 2006 at Dulaney High School in Timonium, Maryland, where she taught journalism from 2009 to 2017 before launching the school's Advanced Placement Capstone program. She led the school's student newspaper to five consecutive gold medals from the Columbia Student Press Association. For Baltimore County Public Schools, she has served as a curriculum writer and workshop presenter. In addition to previous Maryland teaching positions at Notre Dame Prep in Towson and Cockeysville Middle School in Cockeysville, she was a reporter for the *Baltimore Sun* and *West Palm Beach Post* and a news anchor for radio stations in Richmond, Atlanta, and Raleigh. As a member of the Coalition to Stop Gun Violence, she has spoken at conferences and other events and has advocated for laws establishing extreme risk protection orders; last year she served as vice chair of Anne Arundel County's Gun Violence Prevention Task Force. In 2017 she received the University of Maryland Phillip J. Merrill School of Journalism Presidential Scholar Outstanding Mentor Award. Student nominator Sumin Wu of the Medill School of Journalism, Media, Integrated Marketing Communications says that Hiaasen "cultivated my love of the English language, as both an art and a medium to share news, and inspired me to go on the path I'm headed on today." Hiaasen received a BA in journalism from the University of North Carolina at Chapel Hill and an MA in teaching from Goucher College.

Kristen Kirschner has taught English literature and writing since 2008 at Louisiana's college-preparatory Episcopal School of Baton Rouge, where she founded and coaches the speech and debate team, which has already produced one state champion. Kirschner also advises candidates in the honors thesis program and sponsors the Gavel Club, the Ukulele Club, and the Dungeons and Dragons Club. Her other activities at the school have included hosting poetry slams, sponsoring improv comedy shows, and organizing lunchtime ukulele concerts. Elsewhere in

Baton Rouge, she has served as a writing tutor at Cox Academic Tutoring Center for Athletes and as an instructor at ITT Technical Institute and Louisiana State University. A contributor to *Country Roads* magazine, Kirschner has been active as an author and journalist, singer and musician, and improv and sketch comedy performer. Student nominator Gabrielle Bienasz of the Medill School of Journalism, Media, Integrated Marketing Communications says that it was Kirschner who "taught me how to write" and adds, "I am not alone in having benefited from her extraordinary heart as a mentor and teacher." Kirschner earned a BFA in poetry at the University of North Carolina at Wilmington, where she won the undergraduate portfolio award, and an MFA in creative writing at Louisiana State University, where she was senior poetry editor of the *New Delta Review*.

Diana Niemann has taught science at South Mecklenburg High School in Charlotte, North Carolina, since 1998, except for a year of teaching in Frisco, Texas. Chair of the school's science department and adviser for the Junior Marshals, she is a member of Charlotte-Mecklenburg School District's K-12 vertical alignment team. Niemann also developed her school's Eco-Learning Lab and wrote the school district's *Environmental Stewardship Guide* and *Chemistry Curriculum Guide*. In addition, she has served as a College Board Advanced Placement reader for environmental science exams, a PowerSchool trainer and administrator, and a mentor and trainer for beginning and developing teachers. A Dupont Honoree at the 2013 National Science Teacher conference and a finalist for the Coca-Cola Scholars Foundation's Educator of Distinction Awards, she was named South Mecklenburg High School's 2009 Teacher of the Year and the school district's 2009 Southwest Learning Zone Teacher of the Year. Her other honors include a Time Warner Cable Star Teacher Award, MeckEd Teacher of Excellence Award, two districtwide STEM All-Star Awards, and Bank of America honors for outstanding contributions to STEM education. "Diana Niemann is without a doubt the most dedicated, passionate, and sincere teacher I have ever had the pleasure of knowing," says student nominator Kristen Barnes of the McCormick School of Engineering and Applied Science. Niemann earned a BA in chemistry at the University of North Carolina at Charlotte and holds National Board Certification in earth and space science.

FIFTIETH REUNION CLASS

The Measure of Our Success: A Letter from a Member of the Class of 1970

Dear Graduates of the Northwestern University Class of 2020,

I commend you on completing your studies at a competitive world-class university. To receive a degree from this school is a high honor. I am humbled by the invitation to provide reflections on the past and a recommendation for the present. There is a tradition at Northwestern that the 50th reunion class participate in the Commencement ceremony; but due to the COVID-19 pandemic this year, I've been asked—as a member of the class of 1970—to share my thoughts with you this way.

Individual success and social responsibility can and should go together. It was our vision and mission to achieve this goal when we conducted a sit-in that led to meaningful growth and change at Northwestern. I was one of more than 100 Black students who occupied the Bursar's Office for 38 hours on May 3 and 4, 1968, after the University failed to meet a list of student demands. Among other demands, our petition called for Northwestern to admit more Black students, update housing policies and practices, create a Black student union, and add a program of African American literature, history, and art to the curriculum. The first-ever sit-in at the University led to an agreement that resulted in a better experience for Black students on campus and a better Northwestern.

We graduated in June 1970, so glad for that long-anticipated event to arrive. Once it was over, we quickly scattered in our various directions without thought to the fact that we were seeing some of our classmates for the last time.

These are lessons firmly entrenched after 50 years:

Old friendships are pure gold.

People are precious.

Life is short.

There is a lot to be said for stability.

To your class, you will always look like you did a half century ago.

By now you are beyond showing off; you no longer have anything to prove.

The peer pressure is gone; be yourself.

My class members are special people and were then too.

Northwestern has prepared you to pursue truth, give compassionate service, and participate in the creation of a more just and humane world. Martin Luther King Jr. was assassinated on April 4, 1968, a month before we took over the Bursar's Office. He was a prophet who shed light on enduring and urgent tensions over race and class and led the nation out of the darkness of Jim Crow. His promised land was one he conjured on the steps of the Lincoln Memorial during his 1963 "I Have a Dream" speech—a place where he said his "four little children will not be judged by the color of their skin, but by the content of their character." However, he knew our country was embarking on a long, twilight struggle against poverty, racism, and violence. "We've got some difficult days ahead," he preached the night before he died.

His impact, legacy, and mission remain alive today and will far surpass the span of any lifetime. In fact, I am certain he intended his work to live beyond him and knew his great civil and human rights projects would require more than one generation to be realized. In this respect, they live on within all of those willing to continue working where he left off.

Today is the end of your training at Northwestern. But it is also the beginning of your professional journey. I am compelled to say you become a part of a world that is seriously disturbed. Never in history has there been more need for wise, courageous, and enlightened leadership than at the present. We look to you for that leadership. The picture out there is not too rosy. Our world, increasingly, is a place of sickness, poverty, violent conflict, hatred, and brutal atrocities that negatively affect so many of our brothers and sisters, and it demands that we eradicate the polarization that divides us. Our efforts must be at restoring hope, righting wrongs, maintaining commitments, and promoting the well-being of all people. The complexity, gravity, and urgency of these challenges demand that we pool our resources and talents to support one another with respect for our differences. I suggest we agree upon one thing: that a crucial measure of our success in life is the way we treat one another in our lives. When we lessen the burdens of living for those around us, we are doing well; when we add to the misery of the world, we are not.

Martin Luther King said you can be one of two things: a thermometer or a thermostat. A thermometer measures the temperature as it is. A thermostat regulates the temperature. You can either be the thermometer, accepting societal problems as they are, or you can be the thermostat, reexamining and making alterations that improve our lives and future.

When you celebrate your 50th reunion and look back on this moment in history, it is my fervent hope that you will be filled with joy remembering the revival, hope, and peace that came out of this season to draw our hurting world back together.

May you find an interesting and satisfying life's work. The baton is passed to you.

GRADUATE SCHOOL

Kelly E. Mayo, PhD, Interim Dean

Doctor of Philosophy

Degree awarded September 6, 2019

Diego Mauricio Alzate Sanchez, Chemistry; Weinberg. *Polysaccharide-Based Materials for Air and Water Decontamination*; William Dichtel, adviser.

Erin Leigh Andrews, English; Weinberg. *Collective Imagination and the Superpower State: Science Fiction and US Militarism in the Late 20th Century*; Nick Davis, adviser.

Alexandra Clemans Apple, Clinical Psychology; Feinberg. *The Role of the Hippocampal-Prefrontal Network in Cancer-Related Cognitive Impairment: A Multimodal Cross-Sectional Study*; Lei Wang, adviser.

Grace Laurel Augustine, Management and Organizations and Sociology; Kellogg and Weinberg. *From Movements to Managers: Discourse, Jurisdictions, and Positions in the Field of Sustainability*; Brayden King, adviser.

Sara Bahaadini Beigy Zarandi, Computer Science; McCormick. *Discriminative Dimensionality Reduction Using Deep Neural Networks*; Aggelos Katsaggelos, adviser.

Kevin Thomas Baker, History; Weinberg. *World Processor: Computer Modeling, the Limits to Growth, and the Birth of Sustainable Development*; Ken Alder, adviser.

Rodrigo Barrenechea Carpio, Political Science; Weinberg. *Populist Coalitions in Latin America: Polarization, Organization, and Identity*; James Mahoney, adviser.

Sarah Margaret Ray Bassett, Health Sciences Integrated PhD Program; Feinberg. *Positive Psychological Constructs and Physiological Outcomes in the Women's Interagency HIV Study*; Judith Moskowitz, adviser.

Alyse Renae Bedell, Clinical Psychology; Feinberg. *A Mixed-Methods Study of Cognitive Flexibility in Irritable Bowel Syndrome*; Laurie Keefer, adviser.

Jessica Biddlestone, History; Weinberg. *Empire of Ruins: France in Roman Africa, 1830-1900*; Sarah Maza, adviser.

Alec Michel Biehl, Civil and Environmental Engineering; McCormick. *Scales, Segments, and Neighborhoods of Change: An Investigation of Active Mobility Adoption*; Amanda Stathopoulos, adviser.

Luca Bittarello, Economics; Weinberg. *Essays on Labor History*; Joseph Ferrie, adviser.

Mavis Dufie Boamah, Chemistry; Weinberg. *Water Molecules, Ions, and Heavy Metals at Oxide/Aqueous and Metal/Metal Oxide Interfaces*; Franz Geiger, adviser.

Anne Lisbet Boemler, English; Weinberg. *Sion's Muse: Literary Communities in Renaissance Devotional Verse*; William West, adviser.

Trevor Alan Bollmann, Earth and Planetary Sciences; Weinberg. *North American Mantle Processes during the Mesoproterozoic through Cenozoic Eras from Seismic Field Experiments and Visualizations*; Suzan van der Lee, adviser.

Nicolle Andrea Bonar, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Tissue Assembly and Pattern Control in Planarian Brain Regeneration*; Christian Petersen, adviser.

Miriam L. Boon, Technology and Social Behavior; Communication and McCormick. *Computational Approaches to Detection of Narrative Frames in News*; Lawrence Birnbaum, adviser.

Mariana Borges Martins Da Silva, Political Science; Weinberg. *The Politics of Strength: Elections, Clientelism, and Programmatic Politics in the Backlands of Brazil*; James Mahoney, adviser.

Shannon Colleen Brady, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Natural Genetic Variation Underlies Chemotherapeutic Drug Responses in *Caenorhabditis elegans**; Erik Andersen, adviser.

Vuk Brajuskovic, Materials Science and Engineering; McCormick. *Imaging Magnetic Frustration in Quasicrystal Artificial Spin Ice Lattices*; Amanda Petford-Long, adviser.

Alexander Sherman Broad, Computer Science; McCormick. *Generalizable Data-Driven Models for Personalized Shared Control of Human-Machine Systems*; Brenna Argall, adviser.

Spencer Thomas Brown, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Sensorimotor Processing and Control of Whisker Movements by Principal Neurons of the Cerebellum in Mice*; Indira Raman, adviser.

Benjamin James Bucior, Chemical and Biological Engineering; McCormick. *Data-Driven Methods to Accelerate the Design of Metal-Organic Frameworks*; Randall Snurr, adviser.

Anh Tuan Bui, Industrial Engineering and Management Sciences; McCormick. *Statistical Process Control of Stochastic Textured Surfaces*; Daniel Apley, adviser.

Nicholas Edward Bush, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Peripheral Neural Representations of Naturalistic Tactile Stimuli in the Vibrissal-Trigeminal System*; Mitra Hartmann, adviser.

Michael Allen Caldwell, Chemistry; Weinberg. *Bioresponsive Imaging Strategies for Lanthanide-Based Probes*; Thomas J. Meade, adviser.

Daniel James Case, Physics and Astronomy; Weinberg. *Harnessing Nonlinearity and Asymmetry for Built-In Control in Mechanical and Fluid Systems*; Adilson Motter, adviser.

Isabel Alejandra Castillo Carniglia, Political Science; Weinberg. *Explaining Female Suffrage Reform in Latin America: Motivation Alignment, Cleavages, and Timing of Reform*; James Mahoney, adviser.

Kathryn Anne Catlin, Anthropology; Weinberg. *Sustainability and the Domestication of Inequality: Archaeology of Long-Term Human Environment Interactions in Hegrans, North Iceland*; Matthew Johnson, adviser.

Charlotte Hui Chen, Materials Science and Engineering; McCormick. *Tuning Noncovalent Interactions to Optimize Supramolecular Biomaterials*; Samuel Stupp, adviser.

Jiazheng Chen, Chemistry; Weinberg. *Polar Monomer Enchainment and Binuclear Effects in Olefin Polymerization*; Tobin J. Marks, adviser.

Yuxin Chen, Engineering Sciences and Applied Mathematics; McCormick. *Noise-Induced Tipping in a Periodically Forced System*; Mary Silber, adviser.

Andrew Michael Chiu, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *NMDAR-Activated PPI Dephosphorylates GluN2B to Modulate NMDAR-Plasticity*; Antonio Sanz-Clemente, adviser.

Raeed Hasan Chowdhury, Biomedical Engineering; McCormick. *The Contribution of Whole-Limb Kinematics to Proprioceptive Representations in the Central Nervous System*; Lee Miller, adviser.

Corrine Esther Collins, English; Weinberg. *Violent Intimacies and Queer Desires: Hegemonic Multiracialism and the Postracial Future*; Alexander Weheliye, adviser.

Cecilio Maxwell Cooper, African American Studies; Weinberg. *Other|Worldly Possessions: Territory, Slavery, and Cosmography in the Early Modern Atlantic World*; Jasmine Cobb, adviser.

Scott Christopher Coste, Chemistry; Weinberg. *The Influence of Covalency on Spin-Orbit Coupling Transfer through Metal-Metal Bonds*; Danna Freedman, adviser.

Elizabeth Paige DeBenedictis, Mechanical Engineering; McCormick. *Structure and Mechanics of Curli Fiber Materials*; Sinan Keten, adviser.

Anya Sara Degenshein, Sociology; Weinberg. *Speculative Justice: The Shifting Temporality of Crime in US Counterterrorism Stings*; John Hagan, adviser.

Caroline de Lima e Silva, Political Science; Weinberg. *The Relationship between Domestic High Courts in Latin America and the Inter-American Court of Human Rights*; Ian Hurd, adviser.

Lauren Danielle Dellon, Chemical and Biological Engineering; McCormick. *Computational Modeling for Biomass Pyrolysis Applications*; Linda Broadbelt, adviser.

Thomas Nathan Denby, Linguistics; Weinberg. *The Voice of Experience: Causal Inference in Phonotactic Adaptation*; Matthew Goldrick, adviser.

Zhekai Deng, Chemical and Biological Engineering; McCormick. *Continuum Modeling of Multi-disperse and Polydisperse Granular Materials in Transient and Developing Flows*; Richard Lueptow, adviser.

Elizabeth Ann Derderian, Anthropology; Weinberg. *Displaying Culture: The Politics of Art, Liberalism, and the State in the UAE*; Jessica Winegar, adviser.

Cody Lee Dirks, Physics and Astronomy; Weinberg. *Probing the Transition from the Diffuse to the Molecular ISM*; David Meyer, adviser.

Evan Robert William Dutmer, Philosophy; Weinberg. *Cicero Philosophico-Politicus: Glory, Friendship, Utopia*; Richard Kraut, adviser.

Yajnaseni Dutta, Mathematics; Weinberg. *Some Effective Problems in Algebraic Geometry and Their Applications*; Mihnea Popa, adviser.

Gretchen Ruth Ellefson, Philosophy; Weinberg. *Communicative Context and Normativity*; Sanford Goldberg, adviser.

Osefame Ewalefioh, Driskill Graduate Training Program in Life Sciences; Feinberg. *A Cellular Analysis of TLR3 Antiviral Function in Human iPSC-Derived CNS and Sensory Neurons*; Greg A. Smith, adviser.

Farah Fahim, Electrical Engineering; McCormick. *Reconfigurable and Edgeless ROIC for Large-Area Single-Photon Counting Imagers without Deadtime*; Hooman Mohseni, adviser.

Majed Samir Fatafah, Chemistry; Weinberg. *Designing Transition Metal Complexes as Quantum Bit Candidates for Applications in Quantum Information Science*; Danna Freedman, adviser.

Jennifer Rachel Ferrer, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Liposomal Spherical Nucleic Acid Trafficking In Vivo*; Chad Mirkin, adviser.

Kendall Marie Foote, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Phosphorylation of TRIP8b Modulates Binding to HCN Channels and Is Dysregulated in Temporal Lobe Epilepsy*; Dane Chetkovich and Geoffrey Swanson, advisers.

Theodore Roosevelt Foster III, African American Studies; Weinberg. *Post-Civil Rights in the Hold: Neoliberalism, Race, and the Politics of Historical Memory in the Deep South*; John Marquez, adviser.

- Chelsea Mikael Frazier, African American Studies; Weinberg. *Repurposing Queens: Excavating a Black Feminist Eco-Ethic in a Time of Ecological Peril*; Michelle Maria Wright, adviser.
- Alexander Michael Fry, Mechanical Engineering; McCormick. *Determining Segregation Properties Experimentally and the Effects of Overburden Pressure*; Richard Lueptow, adviser.
- Lindsay Garmirian, Biomedical Engineering; McCormick. *The Neural and Biomechanical Changes Underlying Weakness in the Paretic Upper Limb in Individuals with Chronic Hemiparetic Stroke*; Julius P. A. Dewald, adviser.
- Sergey Gitlin, Economics; Weinberg. *Efficient Estimation with Smooth Penalization*; Joel Horowitz, adviser.
- Michael Gmeiner, Economics; Weinberg. *Essays on Regulation Enforcement, Bounded Rationality, and Market Distortions*; Christopher Udry, adviser.
- Xirui Gong, Chemistry; Weinberg. *Rational Design and Structure-Property Relationships of Diazaperopyrenium Dications and Metal-Organic Frameworks*; J. Fraser Stoddart, adviser.
- Abha Anand Gosavi, Chemical and Biological Engineering; McCormick. *Scope, Mechanism, and Application of High-Temperature Entrenchment of Metal Nanoparticles on Silica*; Justin M. Notestein, adviser.
- Thomas Gu, Mechanical Engineering; McCormick. *Methodology of Surface Modification for Efficient Journal Bearings*; Q. Jane Wang, adviser.
- Joseph Michael Guisti, Sociology; Weinberg. *Discipline and Empower: "Doing Something" about Addiction in Mexico City*; Carol Heimer, adviser.
- Hassan Ohio Haji-Valizadeh, Biomedical Engineering; McCormick. *Rapid Free-Breathing Cardiovascular MRI for Adults and Children*; Daniel Kim, adviser.
- Nicole Alexandra Hayes, Clinical Psychology; Weinberg. *Early Indicators of Fetal Alcohol Spectrum Disorder (FASD) in a Cohort of Uruguayan Infants with Known Levels of Alcohol Exposure*; Michael Fleming, adviser.
- Kuan He, Computer Science; McCormick. *Sparsity-Based Computational Three-Dimensional Microscopic Imaging*; Oliver Cossairt, adviser.
- Mindy Rui Hong, Statistics; Weinberg. *Embedding a Randomized Experiment within a Regression Discontinuity Design: A Meta-Analytic Approach*; Larry Hedges, adviser.
- Adam John Howat, Political Science; Weinberg. *What "We" Value: The Politics of Social Identities and Group Values*; James Druckman, adviser.
- Xiaoxiao Huang, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Studies of the Epigenetic Regulator NSD2 by Targeted and Quantitative Mass Spectrometry*; Neil Kelleher, adviser.
- Seok Hyun Hwang, Management and Organizations; Kellogg. *Three Essays on Corporate Governance*; Edward Zajac, adviser.
- Aysenur Iscen, Chemical and Biological Engineering; McCormick. *Design of Stimuli-Responsive Bioinspired Materials Using Computational Methods*; George Schatz, adviser.
- Anant Jain, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Latent Sex Differences in Mechanisms of Estradiol-Induced Excitatory Synaptic Potentiation in the Hippocampus*; Catherine Woolley, adviser.
- Siddarth Jain, Computer Science; McCormick. *Mathematical Models for Human-Robot Systems in Assistive Robotics: Perception, Inference, and Assistance*; Brenna Argall, adviser.
- Nicholas Blaise Karabin, Biomedical Engineering; McCormick. *Chemical Functionalization of PEG-b-PPS Nanocarriers for Applications in Targeted and Sustained Delivery*; Evan Scott, adviser.
- Tatiana Karpouzian Rogers, Clinical Psychology; Feinberg. *Reduced Task-Evoked Pupillary Response on an Executive Control Task among Individuals across the Psychosis Spectrum*; James Reilly, adviser.
- Alan Joseph Kellner, Political Science; Weinberg. *Nature and Civilization in Immanuel Kant's Global Politics*; James Farr, adviser.
- Lisa Michelle Kelly, Interdisciplinary Theatre and Drama; Communication. *Constructing Celebrity: Strategies of 19th-Century British Actresses to Enhance Their Image and Social Status*; Tracy C. Davis, adviser.
- Stephanie Anne Kielb, Clinical Psychology; Feinberg. *Cognitive, Motor, Emotional, and Functional Markers of Subjective Cognitive Decline*; Sandra Weintraub, adviser.
- Nayoun Kim, Linguistics; Weinberg. *Hold, Release, and Retrieve: The Study of Wh-Filler-Gap Dependencies and Ellipsis*; Masaya Yoshida, adviser.
- Ryan Alexander Klein, Chemistry; Weinberg. *Synthesis and Magnetism at High Pressure*; Danna Freedman, adviser.
- Alexandra Klyachkina, Political Science; Weinberg. *Reconfiguration of Subnational Governance: Responses to Violence and State Collapse in the North Caucasus*; William Reno, adviser.
- Mohamad Saeed Kodaimati, Chemistry; Weinberg. *Nanoscale Structures for Synthetic Implementations of Biologically Inspired Transport*; Emily Weiss, adviser.
- Elisa Lanari, Anthropology; Weinberg. *"Peaceful Little Revolutions" in the New South: Race, Inequality, and City-Making in Suburban Atlanta*; Micaela di Leonardo, adviser.
- Hyojun Ada Lee, Chemical and Biological Engineering; McCormick. *Investigation of Diffusion of Innovations among Homogeneous Professional Groups*; Luis A. N. Amaral, adviser.
- Sean Lee, Political Science; Weinberg. *Minority Communities in Times of Conflict: Civil War in Lebanon and Syria*; William Reno, adviser.
- Erik Johannes Lenferink, Physics; Weinberg. *Broken Symmetries in Low-Dimensional Materials*; Nathaniel Stern, adviser.
- Lingqiao Li, Chemical and Biological Engineering; McCormick. *Dynamic Chemistries in Nonlinear Polymer Systems: From Applications for Sustainability to Fundamental Theories*; John Torkelson, adviser.
- *Teng Li, History; Weinberg. *Judiciary at the Crossroad: Property Laws and Courts in Post-World War II Taiwan and Manchuria, 1945-1953*; Melissa Macauley, adviser.
- Yue Li, Applied Physics; McCormick and Weinberg. *Multiscale Electron Microscopy Imaging Platform for Quantifying Genome Organization*; Vadim Backman, adviser.
- Rungmai Limvorapitux, Chemistry; Weinberg. *MOF-Based Catalysts for the Tandem Reaction of Hydrogen Peroxide Generation and Oxidation*; SonBinh Nguyen, adviser.
- Caiyun Liu, Marketing; Kellogg. *Greek Yogurt in the US Market*; Eric Anderson, adviser.
- Qinyuan Liu, Materials Science and Engineering; McCormick. *The Electrochemical Performance and Structural Evolution of Solid Oxide Fuel Cell Ni-YSZ Fuel Electrodes*; Scott Barnett, adviser.
- Zhong Liu, Mechanical Engineering; McCormick. *Tribological Analyses and Designs of the Apex Seal-Housing Interface in Rotary Engines*; Q. Jane Wang, adviser.
- Claudia Nayibe López Hernández, Political Science; Weinberg. *State Building through Democratization: Colombia in Subnational Comparative Perspective*; Edward L. Gibson, adviser.
- Christina Frances LoTempio, Political Science; Weinberg. *Arendt, Adorno, and Angela Davis: A Critique of Capitalist Culture*; Mary Dietz, adviser.
- Rebecca Mullen Lovett, Clinical Psychology; Feinberg. *Prevalence of Cognitive Impairment and Associations with Chronic Disease Self-Management and Health Status within an Older Primary Care Population*; Michael Wolf, adviser.
- Matthew Yunching Lu, Materials Science and Engineering; McCormick. *Degradation and Performance of Oxygen Electrodes for Low and Intermediate Temperature-Reversible Solid Oxide Cells for Energy Storage*; Scott Barnett, adviser.
- Michael Ryan Lucas, Computer Science; McCormick. *Methods for Improving Natural Language Processing Techniques with Linguistic Regularities Extracted from Large Unlabeled Text Corpora*; Douglas Downey, adviser.
- Mollie Therese McQuillan, Human Development and Social Policy; Education and Social Policy. *Beyond Bathrooms: The Educational Policies, Practices, and Health of Gender-Expansive Students*; Diane Schanzenbach, adviser.
- Rebecca Marie Gobel Menssen, Engineering Sciences and Applied Mathematics; McCormick. *Quantitative Descriptors of Particulate Dynamics in Biological Systems*; Madhav Mani, adviser.
- Aisha Motlani, Art History; Weinberg. *Crisis and Innovation: Visual Representations of the 1857 Indian Rebellion*; Susan Clayson, adviser.
- Mbongeni N. Mtshali, Performance Studies; Communication. *Infidel(itie)s of Colour: Unruly Black Bodies, Modernity, and Performance in Post-Apartheid South Africa*; Ramón Rivera-Servera, adviser.
- Christopher Howard Mullens, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Voluntary Flexibility of Muscle Activity Phase after Stroke: Modulating Activity by Visual Feedback during Pedaling*; David Brown, adviser.
- Sneha Narayan, Technology and Social Behavior; Communication and McCormick. *Three Studies on Technological Support for Participation in Volunteer Communities*; Aaron Shaw, adviser.
- Saheli Nath, Management and Organizations and Sociology; Kellogg and Weinberg. *"Some Rise by Sin, and Some by Virtue Fall": Empirical Articles on Socially Responsible Investing in Financial Markets*; Brayden King, adviser.
- Tiffani Ng, Psychology; Weinberg. *The Influence of Attentional Selectivity on Insight and Analytic Problem Solving*; Mark Beeman, adviser.
- Aneesha Sekhar Nilakantan, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Recollection Precision: Neural Mechanisms and Modulation via Network-Targeted Brain Stimulation*; Joel Voss and Marek-Marsel Mesulam, advisers.
- Paul Erich Ohno, Chemistry; Weinberg. *On Phase and the chi(3) Effect in Second-Order Nonlinear Spectroscopy*; Franz Geiger, adviser.
- Tyrone St. William Palmer, African American Studies; Weinberg. *(Anti-)Blackness and the Grammars of Affect*; Alexander Weheliye, adviser.
- Richard Anthony Paquin Morel, Human Development and Social Policy; Education and Social Policy. *Test Questions: Organizing, Motivating, and Mobilizing Opposition to Accountability Testing*; Cynthia Coburn, adviser.
- Morgan L. Petrovich, Civil and Environmental Engineering; McCormick. *Metagenomics-Guided Analysis of Antibiotic Resistance and Production Genes, Mobile Genetic Elements, and Viruses in Wastewater Treatment Bioreactors*; George Wells, adviser.
- Miriam Shulman Piilonen, Music; Bienen. *Resonating Subjects: Music and Emotion in Victorian Evolutionary Thought*; Mark Butler, adviser.
- Lauren Leigh Prister, Driskill Graduate Training Program in Life Sciences; Feinberg. *The Role of a Guanine Quadruplex and Associated sRNA in Pilin Antigenic Variation of Neisseria gonorrhoeae*; Hank Seifert, adviser.

*Also Juris Doctor degree

- Piotr Tadeusz Pstragowski, Mathematics; Weinberg. *Algebraic in Chromatic Homotopy Theory*; Paul G. Goerss, adviser.
- Mohammad Rasoolinejad, Civil and Environmental Engineering; McCormick. *Fracture, Failure, and Long-Term Deformations of Concrete and Other Quasibrittle Materials*; Zdeněk P. Bažant, adviser.
- Margarita Sergeevna Rayzberg, Sociology; Weinberg. *Controlling the Field: Experimental Social Science and Politics of Evidence in International Development*; Steven Epstein, adviser.
- Kathleen Wade Reardon, Psychology; Weinberg. *Relational Aggression and the Topography of Interpersonal Dysfunction in Youth: Connections to Personality Pathology*; Jennifer Tackett, adviser.
- Ryan Adam Rickels, Driskill Graduate Training Program in Life Sciences; Feinberg. *Catalytic and Noncatalytic Functions of COMPASS Family H3K4 Methyltransferases in Flies and Humans*; Ali Shilatifard, adviser.
- Soo Yeon Ro, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Probing the Molecular Details of Particulate Methane Monooxygenase in Micelles to Cells*; Amy C. Rosenzweig, adviser.
- Elena Rodina, Media, Technology, and Society; Communication. *Subnational Journalistic Practices within the Russian Federation: How Journalists in Chechnya and Dagestan Conceptualize and Negotiate Their Roles, Rights, and Freedom*; James Schwach, adviser.
- Susanna L. Sacks, English; Weinberg. *Viral Verses: Poetic Movements and Social Media in South-eastern Africa*; Evan M. Mwangi, adviser.
- Meghan Maureen Salomon-Amend, Psychology; Weinberg. *The Optimization Bias in Intertemporal Decision-Making*; David Rapp, adviser.
- Izabela Anna Samek, Chemical and Biological Engineering; McCormick. *The Effect of Reducible Metal Oxides on the Structure and Activity of Supported Vanadium Oxide Catalysts Prepared by Atomic-Layer Deposition for Cyclohexane Oxidative Dehydrogenation*; Randall Snurr, adviser.
- Ashlie Andrea Sandoval, Performance Studies; Communication. *Designed to Work: Architecture, Surplus Labor, and Performance*; Joshua Chambers-Letson, adviser.
- Arun Sankisa, Electrical and Computer Engineering; McCormick. *Neural Network Approaches for Video Transmission, Motion Estimation, and Error Concealment*; Aggelos Katsaggelos, adviser.
- Maureen Doyle Satyshur, Clinical Psychology; Feinberg. *Subtypes of Rumination Associated with White Matter Integrity in Women with Depression*; Jacqueline Gollan, adviser.
- Christopher Manuel Serrano, Materials Science and Engineering; McCormick. *DNA Aptamer-Peptide Amphiphiles for Enhanced Protein Binding, Tunable Delivery, and Dynamic Signaling*; Samuel Stupp, adviser.
- Sahil Divyang Shah, Engineering Sciences and Applied Mathematics; McCormick. *Statistical Methods for the Network-Based Analysis of Genomic Data*; William Kath, adviser.
- Ruxue Shao, Psychology; Weinberg. *The Effects of Perceptual Alignment and Linguistic Contrast on Preschoolers' Indirect Property-Word Learning*; Dedre Gentner, adviser.
- Cassandra Michelle Winand Shepard, African American Studies; Weinberg. *The Colonial Continuum: A Critique of Disaster in Post-Katrina New Orleans*; John D. Márquez, adviser.
- Hanyu Shi, Chemical and Biological Engineering; McCormick. *A Principled Approach to the Evaluation of Topic-Modeling Algorithms*; Luis A. N. Amaral, adviser.
- Sayyedah Nastaran Shojaei, Industrial Engineering and Management Sciences; McCormick. *On the Disconnect between the Modeling and Evaluation in Radiation Therapy*; Omid Nohadani, adviser.
- Natalia Smirnov, Learning Sciences; Education and Social Policy. *Reassembling the Civic: A Socio-material Account of Two Innovative Technology-Mediated Civic Learning Infrastructures*; Wan Lam, adviser.
- Jessica Carol Stark, Chemical and Biological Engineering; McCormick. *Cell-Free Technologies for On-Demand Glycoprotein Biomanufacturing and Hands-On Biology Education*; Michael Jewett, adviser.
- Jimmy Su, Biomedical Engineering; McCormick. *Hydrogel Platforms for Investigating Micro-environmental Signaling Cues Influencing Human Glomerular Endothelial Cell and Podocyte Behavior*; Jason Wertheim and Ramille Shah, advisers.
- Lindsey Catherine Szymczak, Chemistry; Weinberg. *Applications of SAMDI-MS for High-Throughput Reaction Monitoring on Peptide Arrays*; Milan Mrksich, adviser.
- Wei Tang, Electrical Engineering; McCormick. *Unified Compositional Models for Visual Recognition*; Ying Wu, adviser.
- Anna Bettina Tóth, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Store-Operated Calcium Channels in the Brain: Functions in Astrocytes and a Role in Learning and Memory*; Murali Prakriya, adviser.
- Marlon DeMarcie Twyman, Technology and Social Behavior; Communication and McCormick. *Relational Mechanisms in Team Self-Assembly: A Network and Computational Approach*; Noshir Contractor, adviser.
- Irem Unlu, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Regulation of XBP1 Splicing in Mammalian Cells*; Xiaozhong Wang, adviser.
- Emma Rose Vander Ende, Chemistry; Weinberg. *Strategies for Enabling Surface-Enhanced Raman Spectroscopy of Small Human Performance Biomarkers*; Richard P. Van Duyn, adviser.
- Nicholas Adam Wagner, Materials Science and Engineering; McCormick. *Data Science for Design of Functional Materials*; James Rondinelli, adviser.
- Xu Wang, Electrical Engineering; McCormick. *Wireless Spectrum: Policy, Economics, and Applications*; Randall Berry, adviser.
- Yanran Wang, Computer Science; McCormick. *Neural Network Design and Modulation for Medical Image and Video Segmentation*; Aggelos Katsaggelos, adviser.
- Yearnchee Curtis Wang, Computer Engineering; McCormick. *Real-Time Control in Embedded Systems Using Deep Neural Network-Based Estimation of Partial Differential Equation Solutions Applied to the Joule Heating Problem*; Alan V. Sahakian, adviser.
- Yixing Wang, Mechanical Engineering; McCormick. *Combining Finite-Element with Data-Analytical Approaches for Structure-Property Modeling in Polymer Nanocomposites*; L. Catherine Brinson, adviser.
- Lacharles Travell Ward, Communication Studies; Communication. *They Left Us Dead: Anti-Black Violence, Black Evidence, and the Insistence of Black Life*; Jasmine Cobb, adviser.
- Marc Anthony Warrior, Computer Science; McCormick. *Understanding and Improving Content Distribution through Expansive Network Measurements*; Aleksandar Kuzmanovic, adviser.
- Lindsey Elizabeth Grace Weil, Clinical Psychology; Feinberg. *Prevention of Unintentional, Sleep-Related Infant Deaths: Current Sleep Practices, Caregiver Beliefs, and Promotion of Safe Sleep Practices through Effective Preventive Interventions*; Neil Jordan, adviser.
- Kevin Bryant Wilkins, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Neural Mechanisms Underlying Hand/Arm Impairment and Intervention-Induced Improvements Poststroke*; Jun Yao, adviser.
- Xin Xu, Applied Physics; McCormick and Weinberg. *Charge Transport across Single Grain Boundaries in Oxide Electrolytes*; Sossina Haile, adviser.
