UNIVERSITY SEAL AND MOTTO

Soon after Northwestern University was founded, its Board of Trustees adopted an official corporate seal. This seal, approved on June 26, 1856, consisted of an open book surrounded by rays of light and circled by the words *Northwestern University, Evanston, Illinois*.

Northwestern
University

Thirty years later Daniel Bonbright, professor of Latin and a member of Northwestern's original faculty, redesigned the seal, retaining the book and light rays and adding two quotations. On the pages of the open book he placed a Greek quotation from the Gospel of John, chapter 1, verse 14, translating to *The Word . . . full of grace and truth*. Circling the book are the first three words, in Latin, of the University motto: *Quaecumque sunt vera* (Whatsoever things are true). The outer border of the seal carries the name of the University and the date of its founding. This seal, which remains Northwestern's official signature, was approved by the Board of Trustees on December 5, 1890.

The full text of the University motto, adopted on June 17, 1890, is from the Epistle of Paul the Apostle to the Philippians, chapter 4, verse 8 (King James Version).

*Whatsoever things are true,
whosoever things are honest,
whosoever things are just,
whosoever things are pure,
whosoever things are lovely,
whosoever things are of good report;
if there be any virtue,
and if there be any praise,
think on these things.*

MICHAEL H. SCHILL

President

Michael H. Schill took office as Northwestern's 17th president on September 12, 2022. He also serves as a professor in the Northwestern Pritzker School of Law.

He previously spent seven years as president of the University of Oregon, where he raised the university's profile in teaching, research, innovation, student access, and diversity. Under Schill's leadership, UO built the Phil and Penny Knight Campus for Accelerating Scientific Impact, increased its four-year graduation rates by 10 percentage points, and launched the Ballmer Institute for Children's Behavioral Health at a new campus in northeast Portland. Schill also led the extension and historic close of the university's fundraising campaign in 2021, which exceeded its goal with \$3.2 billion total raised.

Schill is a nationally recognized expert in property, real estate, and housing law and policy. He is the author or coauthor of 3 books and more than 40 scholarly articles. His work includes studies of the determinants of value in condominium and cooperative housing, the impacts of housing programs on property values, the enforcement of Fair Housing laws, mortgage securitization, and the effects of housing market regulation. *Property*, which he coauthored with James Krier and Greg Alexander, is one of the most widely adopted casebooks in American law schools.

He served as dean and professor at the law schools of the University of Chicago and UCLA, and he has held tenured faculty positions at New York University and the University of Pennsylvania. In 2004 Schill founded NYU's Furman Center for Real Estate and Urban Policy, which has become one of the nation's leading research centers on housing and the built environment.

He has served on several nonprofit boards and civic bodies, including Argonne National Laboratory, ITHAKA, the Chicago Innovation Exchange, and the Housing Preservation Compact of Chicago.

Before beginning his career as a professor, Schill served as law clerk to the Honorable Marvin Katz of the Eastern District of Pennsylvania and was a real estate attorney at the New York City law firm of Fried, Frank, Harris, Shriver and Jacobson.

Schill graduated with an AB in public policy from Princeton University in 1980 and a JD from Yale Law School in 1984.

PETER J. BARRIS

Chair, Board of Trustees

Peter J. Barris joined New Enterprise Associates (NEA) in 1992 and was the firm's managing general partner from 1999 to 2017. Having retired in 2019, Barris now serves as chairman. During his 18 years at the helm, NEA's assets under management grew from \$1 billion to more than \$20 billion and the organization scaled its operations to become one of the world's largest venture capital firms. Under Barris's leadership, NEA invested in industry-transforming technology companies like CareerBuilder, Tableau, Groupon, Jet.com, Juniper Networks, Salesforce.com, TiVo, WebMD, and Workday. He has been named to the Washington Tech Council's Hall of Fame, to the Washington Business Hall of Fame, and several times to the Forbes Midas List of top technology investors. Barris has personally led investments in over three dozen technology companies that have successfully completed public offerings or mergers. He currently serves on the board of directors for public companies Berkshire Grey, Sprout Social, and ZeroFox. Barris also serves on the boards of the Brookings Institution, In-Q-Tel, and several private companies.

Although he is a longtime resident of Virginia, Barris has been a very active participant in the Chicago tech scene. He serves on the board of P33 and has been named to Crain's Chicago Tech 50 list. In 2015 the Illinois Venture Capital Association honored him with the Golder Award for his "profound and lasting contributions to the private equity industry in Illinois."

Prior to joining NEA, Barris was president of Legent Corporation and senior vice president of the Systems Software Division of Uccel Corporation. Both companies were ultimately acquired at valuations that were record-breaking for their time. Earlier, he spent almost a decade at General Electric Company in a variety of management positions, including vice president and general manager at GE Information Services. In addition to chairing the Northwestern University Board of Trustees, Barris has served on the executive committee of the board of the National Venture Capital Association and the Tuck School board of overseers and was a founding member of Venture Philanthropy Partners, a philanthropic organization in the Washington, DC, area.

Barris received his BSEE from Northwestern University and his MBA from the Tuck School of Business at Dartmouth.

LAND ACKNOWLEDGMENT

To recognize the land is an expression of gratitude and appreciation to those whose territory we reside on—and a way of honoring the Indigenous people who have been living and working on the land from time immemorial. It is important to understand the long-standing history that has brought us to reside on the land and to seek to understand our place within that history.*

The Northwestern campus sits on the traditional homelands of the people of the Council of Three Fires—the Ojibwe, Potawatomi, and Odawa—as well as the Menominee, Ho-Chunk, and Miami tribes. It was also a site of trade, travel, gathering, and healing for more than a dozen other Native tribes; the state of Illinois is still home to over 100,000 tribal members.

Consistent with the University’s commitment to diversity and inclusion, Northwestern works toward building relationships with Native American communities through academic pursuits, partnerships, historical recognitions, community service, and enrollment efforts.

HISTORY OF NORTHWESTERN

The founding of Northwestern University by nine Methodists embodied a mixture of religious conviction and secular optimism that is uniquely American. Meeting above a hardware store in the burgeoning frontier town of Chicago, these nine resolved on May 31, 1850, to establish an institution of “the highest order of excellence.” The 1851 Act of Incorporation creating Northwestern University contained a provision reflecting the strong religious beliefs of its founders but requiring no particular religious faith of students or members of the faculty.

In 1853 the University bought and began to develop 379 acres of lakeshore farmland. The town that grew up around Northwestern was named for John Evans, one of the University’s founders. By 1855 Northwestern had completed its first building and opened a College of Liberal Arts. By 1900 the University encompassed six additional schools, including the medical and law schools in Chicago. Since the establishment of the Graduate School in 1910, Northwestern has provided graduate as well as undergraduate instruction, emphasizing research along with teaching.

The University’s development since then has paralleled the growth of metropolitan Chicago. Today Northwestern is a private research university of distinction, with 11 academic divisions located on two lakefront campuses in Evanston and Chicago as well as Northwestern University in Qatar, which opened in Doha in 2008. Northwestern’s vision of excellence—although faithful to its founding—invigorates a territory far beyond the old Northwest Territory through the accomplishments of its alumni and by virtue of a distinguished faculty and high-achieving student body drawn from across the nation and around the world.

SCHOOLS OF THE UNIVERSITY

The **Judd A. and Marjorie Weinberg College of Arts and Sciences**, established in 1851 as the College of Liberal Arts, offers the degree of bachelor of arts. Through the School of Professional Studies, Weinberg College also offers the degrees of bachelor of philosophy and bachelor of science in general studies.

The **School of Communication**, established in 1878 as the School of Oratory and later renamed the School of Speech, offers the degrees of bachelor of arts, bachelor of science, master of arts, master of science, doctor of audiology, and doctor of speech-language pathology. Through the School of Professional Studies, the School of Communication also offers the degree of bachelor of philosophy in communication.

The **School of Education and Social Policy**, established in 1926 as the School of Education, offers the degrees of bachelor of science and master of science.

The **Robert R. McCormick School of Engineering and Applied Science**, established in 1909 as the College of Engineering, offers the degrees of bachelor of science, master of engineering management, master of product design and development management, and master of science. McCormick offers the master of business administration/artificial intelligence in conjunction with the J. L. Kellogg School of Management.

The **Graduate School**, established in 1910, administers programs leading to the degrees of master of arts, master of fine arts, master of public health, master of science, and doctor of philosophy.

The **Medill School of Journalism, Media, Integrated Marketing Communications**, established in 1921 as the Medill School of Journalism, offers the degrees of bachelor of science and master of science.

The **Pritzker School of Law**, established in 1859 as the School of Law, offers the degrees of juris doctor, master of laws, master of science in law, master of studies in law, and doctor of juridical science. The school also offers the Master of Laws International Executive Master's Program in Israel, South Korea, and Spain.

The **J. L. Kellogg School of Management**, established in 1908 as the School of Commerce, offers the degrees of master of business administration and master of science in management studies. Kellogg offers the master of business administration/artificial intelligence in conjunction with the Robert R. McCormick School of Engineering and Applied Science. In addition to the Full-Time MBA program, Kellogg offers the Evening and Weekend MBA program on the Chicago campus, the Executive MBA program in Evanston and Miami, and joint Executive MBA programs with partners in Canada, China (Beijing and Hong Kong), Germany, and Israel.

The **Feinberg School of Medicine**, established in 1859 as the Medical School, offers the degrees of master of medical science, master of prosthetics and orthotics, doctor of medicine, and doctor of physical therapy.

The **Henry and Leigh Bienen School of Music**, established in 1895 as the School of Music, offers the degrees of bachelor of music, bachelor of arts, and bachelor of science. In its graduate division, the school offers the degrees of master of music and doctor of musical arts.

The **School of Professional Studies**, established in 1933 as University College and later renamed the School of Continuing Studies, offers the degrees of master of arts, master of fine arts, and master of science. The school also offers courses leading to the degrees of bachelor of philosophy and bachelor of science in general studies, conferred by the Weinberg College of Arts and Sciences, and the degree of bachelor of philosophy in communication, conferred by the School of Communication.

Northwestern University in Qatar, established in 2008 as part of Education City in the Qatari capital of Doha, offers the degree of bachelor of science in journalism through the Medill School of Journalism, Media, Integrated Marketing Communications and the degree of bachelor of science in media industries and technologies through the School of Communication.

ACADEMIC DRESS

Modern academic attire originated in the medieval universities of Europe, where gowns were worn daily to provide warmth in poorly heated buildings and to differentiate scholars from fellow citizens. Two English universities, Oxford and Cambridge, are particularly noted for developing the authentic academic costume, which has changed only slightly through the centuries.

In the United States most academic dress follows the general provisions of the Intercollegiate Code of 1895, which was revised in 1932 and again in 1959. Under this code the gowns' trim and sleeve design indicates the level of the degree. The bachelor's gown has pointed sleeves and is worn closed; the master's gown has oblong sleeves with an arc at the bottom and may be worn open or closed; and the doctor's gown, which may also be worn open or closed, has velvet facings down the front and three velvet bars on the bell-shaped sleeves. This velvet trim may be black or the prescribed color of the academic area. Though the recommended color for gowns is black, Northwestern University (like many institutions) has adopted a colored gown to reflect the school's color. All participating candidates wear a custom purple gown featuring the University crest.

The style of hood identifies the level of the degree, the school that granted it, and the academic area. Hood length and border width show the level of the degree. The bachelor's hood, which is optional and not worn at Northwestern University, is three feet in length; the master's, three and one-half feet; the doctor's, four feet. The velvet border of the hood is two, three, and five inches wide for the bachelor's, master's, and doctor's degrees, respectively. The hood is lined with silk in the official color of the school. At Northwestern the hood is lined in purple (the school's color) and gold. The color of the hood's border—and at Northwestern the color of the cap's tassel as well—indicates the academic area. Tassels feature the Northwestern seal signet and are worn on the left side at all times. At Northwestern the colors for the Graduate School constitute an exception; tassels are black, but the border color of the hood indicates the specific degree awarded. Bachelor's degree regalia include a souvenir stole.

The square black mortarboard is the recommended cap, although some schools have adopted other styles. Caps are worn throughout the Commencement ceremony, except that men remove them for the national anthem.

At Northwestern University members of honor societies may be recognized by the honor cords, medallions, and stoles worn.

The tassels and borders of the hoods are the following colors:

Judd A. and Marjorie Weinberg College of Arts and Sciences	White
School of Communication	Silver gray
School of Education and Social Policy	Light blue
Robert R. McCormick School of Engineering and Applied Science	Orange
Graduate School (tassel)	Black
<i>Border colors:</i>	
Master of Arts	White
Master of Fine Arts	Brown
Master of Public Health	Salmon
Master of Science	Yellow gold
Doctor of Philosophy	Dark blue
Medill School of Journalism, Media, Integrated Marketing Communications	Crimson
Pritzker School of Law	Purple
J. L. Kellogg School of Management	Acorn
Feinberg School of Medicine	Green
Henry and Leigh Bienen School of Music	Pink
School of Professional Studies	
Master of Arts	White
Master of Science	Yellow gold

HONORARY DEGREES

AGNES BINAGWAHO

Doctor of Science

Agnes Binagwaho is a cofounder and the retired vice chancellor of the University of Global Health Equity, a Rwanda-based initiative of Partners in Health that trains global health professionals to deliver more equitable, quality health services for all. A Rwandan pediatrician, Binagwaho returned to her native country in 1996, two years after the genocide against the Tutsi. She subsequently provided clinical care in the public sector and served from 1996 to 2016 in high-level government positions, first as the executive secretary of Rwanda's National AIDS Control Commission, then as permanent secretary of the Ministry of Health, and lastly for five years as minister of health. Binagwaho is a professor of pediatrics at UGHE, a senior lecturer in the global health and social medicine department at Harvard Medical School, and an adjunct clinical professor of pediatrics at Dartmouth's Geisel School of Medicine. A fellow of the African Academy of Sciences, she is a member of the US National Academy of Medicine and the World Academy of Sciences.

Presented by Lisa Hirschhorn, Director, Robert J. Havey MD Institute for Global Health, and Professor, Medical Social Sciences, Feinberg School of Medicine

You are widely recognized as a visionary leader in global health whose expertise is greatly in demand on the international stage. Your many prestigious awards have honored your inspiring work in rebuilding Rwanda's post-genocide health system and in reducing healthcare disparities worldwide. We treasure your relationship with our Havey Institute for Global Health, and we thank you for all you have done to make our world a better place.

SHARON Y. BOWEN

Doctor of Laws

Sharon Y. Bowen chairs the New York Stock Exchange as the first woman and first person of color to hold that position. Bowen enjoyed a distinguished three-decade career in corporate and transactional law as an associate at Davis, Polk & Wardwell and later as an associate and partner at Latham & Watkins. In 2010 President Obama appointed her vice chair of the Securities Investor Protection Corporation, where she also served as acting chair. In 2014 she became the first African American commissioner of the Commodity Futures Trading Commission after being appointed by Obama and confirmed by the US Senate. Bowen has served as an executive committee member and chair of Northwestern's Law Board and delivered the Pritzker School of Law's convocation address for the class of 2018. In 2019 Bowen joined a group of fellow African American alumni to establish the school's African American History and Culture Endowed Scholarship. She earned a JD and MBA from Northwestern's Law School and Kellogg School of Management in 1982.

Presented by Hari Osofsky, Dean and Myra and James Bradwell Professor of Law, Pritzker School of Law

You are a trailblazer for diversity and inclusion in the legal, business, and financial professions. Your tireless advocacy, mentorship, and leadership development efforts have opened new paths to success for communities of color. Throughout your ever more impressive career, your active involvement in the Law School and the University as a whole has demonstrated your passionate dedication to your graduate alma mater. We are pleased to salute your remarkable accomplishments.

GOVERNOR JB PRITZKER

Doctor of Laws

JB Pritzker has served as governor of Illinois since 2019 and began his second term on January 9, 2023. As governor he won bipartisan passage of Rebuild Illinois, the largest investment in state history to upgrade roads, bridges, rail, broadband, and schools. He has proposed and passed a balanced budget every year in office—eliminating the state's multi-billion-dollar balance-due backlog, reducing the state's pension liability, and achieving eight credit upgrades from rating agencies. His administration has created jobs, overseen efforts to raise the minimum wage, worked to make higher education more affordable, and advanced equal pay for women. Most recently, Governor Pritzker signed an assault-weapons ban into law, moved to protect and expand access to reproductive healthcare for both patients and providers, and supported a plan to provide paid leave for every worker in the state. A 1993 Law School graduate, Pritzker is a life member of the Northwestern Law Board. In 2015 he and his wife, MK, made a historic gift to the school, which was renamed the Pritzker School of Law.

Presented by Adam Hoeflich, Professor of Practice, Pritzker School of Law

You have led the state of Illinois with integrity and conviction, making advances in public safety, economic equity, job creation, clean energy, and fiscal responsibility. Your first term's legislative agenda ranks among the most ambitious and consequential in state history, and your decisive reelection cemented your position as a national leader. Your generosity to your law school alma mater has been transformative. We are proud to call you one of our own.

MORTON SCHAPIRO

Doctor of Humane Letters

Morton Schapiro, professor of economics and president emeritus, served as Northwestern's 16th president from 2009 to 2022. During his tenure, Northwestern rose dramatically in stature. The student body increased in quality and diversity as undergraduate applications nearly doubled; faculty memberships in national academies increased by more than 70 percent; annual sponsored research nearly doubled to just under \$1 billion; the University endowment more than doubled; crucial academic facilities were built; and the University strengthened its partnerships with local communities. Prior to arriving at Northwestern, Schapiro served as president of Williams College from 2000 to 2009, having previously served as a dean and vice president at the University of Southern California. He is among the nation's leading authorities on the economics of higher education and is the author or coauthor of 10 books and hundreds of journal articles, commentaries, and op-eds. In 2010 Schapiro was elected a fellow of the American Academy of Arts and Sciences, and in 2017 he was elected to the National Academy of Education.

Presented by Peter J. Barris, Chair, Northwestern University Board of Trustees

You led Northwestern for 13 years with distinction and devotion, greatly enhancing its worldwide reputation as you steered the University to new heights in innovation, research, diversity, and community. Concurrent with your tenure as president, you have continued to expand your work as a leading expert on the economics of higher education. Your passion for Wildcat athletics is legendary. We are deeply grateful for your distinguished service to Northwestern.

LUIS VALDEZ

Doctor of Arts

Luis Valdez is regarded as one of today's most important and influential American playwrights. He founded the internationally renowned and Obie Award-winning theater company El Teatro Campesino (The Farm Workers' Theater) in 1965 amid his involvement with Cesar Chavez, the United Farm Workers, and the early Chicano Movement. That experience left an indelible mark that has continued to be embodied in all his work, from his short plays *Las Dos Caras del Patroncito* and *Quinta Temporada* to his examinations of Chicano urban life in *I Don't Have to Show You No Stinkin' Badges*. In 1979 his *Zoot Suit*, considered a masterpiece of the American theater, became the first Chicano play to run on Broadway. His numerous feature film and television credits include *La Bamba* and *Cisco Kid*. Valdez's many honors and awards include LA Drama Critics Circle Awards, the George Peabody Award for excellence in television, the National Medal of the Arts from President Obama, the Presidential Medal of the Arts from President Reagan, and Mexico's prestigious Aguila Azteca Award.

Presented by Henry Godinez, Carlos Montezuma Professor and Chair, Theatre, School of Communication

You are widely considered the godfather of Latino theater in the United States. As a key cultural figure in recognizing the power of art as activism, you have given us unforgettable stories while exploring universal themes of human rights and social justice. Your work has broken barriers from rural California to Broadway and Hollywood, inspiring farm workers and theater audiences alike. We are honored and delighted to celebrate your enduring achievements.

MORTON SCHAPIRO DISTINGUISHED SECONDARY SCHOOL TEACHER AWARDS

Deepshikha Ahlawat has taught for 15 years at Nathaniel Narbonne High School in Harbor City, California. Chair of the school's social science department since 2016, she teaches Advanced Placement, honors, and at-level social science and history courses and has sponsored the UNICEF, Chess, Ping-Pong, and South Asian Clubs. In addition, she is a teacher facilitator for the Solanki Teacher Scholar Program in the Yadunandan Center for India Studies at California State University, Long Beach, and a guiding teacher at CSULB and the University of Southern California. For more than a decade she has served as an Advanced Placement reader and exam leader for the College Board. Ahlawat began her teaching career in Delhi, India, and then taught for four years at Alain LeRoy Locke High School in Los Angeles. "When I first learned about this award, Ms. Ahlawat was the first person who came to mind," says student nominator Almaya Wiley-Yancy of the Weinberg College of Arts and Sciences. "Her classroom was a safe space for me and the first place where history piqued my interest. Today that is the major I will be graduating in." Ahlawat earned BAs in geography and education from the University of Delhi and an MA in geography from Jawaharlal Nehru University.

Colette Beausoliel has taught life and physical sciences since 1993 at John F. Kennedy High School in Tamuning, Guam, where she chairs the science department and also serves as profile committee data analyst. She has chaired the school's accreditation resources committee and has coached engineering and design teams, including Real World Design Challenge teams that won the US national championship for three consecutive years and the international championship twice. Previously she taught for four years at Guam's Inarajan High School. Recipient of the University of Guam's 2000–01 AECI outstanding teacher award, she was also voted Kennedy High School's 2012–13 teacher of the year. Student nominator Yvan Chu of the McCormick School of Engineering and Applied Science praises Beausoliel as "a pioneer of STEM education in Guam who brought world-class engineering education and extracurricular activities to an underfunded school district. She is the most impactful teacher I have ever had." Beausoliel received a BS in biology and postbaccalaureate secondary science teaching certification from the University of Arizona and an MS in environmental science from the University of Guam. She has also earned Guam secondary science and master educator secondary science certifications as well as five specialty certifications from the Professional Association of Diving Instructors.

Joseph Graciosa has taught since 2017 at Chicago's Eric Solorio Academy High School, where he created and chaired the school's inaugural computer science department. He also helped start the robotics team and served as its adviser, in addition to advising the school's DREAM team for undocumented students and allies. He began his professional life as a research assistant at the Rehabilitation Institute of Chicago's Center for Pain Studies but left after seven years to pursue a teaching career, subsequently holding a yearlong Chicago teacher residency with the Academy for Urban School Leadership and then teaching for two years at Chicago Tech Academy High School. Student nominator Lorenzo Rivera of the Weinberg College of Arts and Sciences says that Graciosa "embodies what a giving human being is. As a Wildcat himself, he exemplifies Northwestern's striving for excellence and inclusion without expecting anything in return." Graciosa studied computer science at Northeastern Illinois University, earned an MA in secondary education teaching at National Louis University, and holds a BA in chemistry from Northwestern, where he founded and led the Kaibigan Filipino Students' Association.

Jason Stanford has taught social studies since 2012 at Niles West High School in Skokie, Illinois, where he has also taught reading for below-grade-level students, served on the literature team, and led the development of the AVID program to prepare minority, low-income, and first-generation students for college. In addition, he founded the school's mock trial team and sponsored it for 10 years, leading the squad to five years of consistent top-10 finishes in local, national, and international high school competitions. Beyond Niles West, Stanford organized and led the annual Mock Trial Invitational at the Skokie Courthouse, an event that grew from 20 participants to over 300 in its first seven years. Student nominator Irena Petryk of the Weinberg College of Arts and Sciences says that Stanford "helped me become a more effective leader and taught me the value of generosity. As I leave Northwestern for new experiences, it is his kindness, selflessness, and dedication that I hope to embody." Stanford received a BS in political science from Illinois State University, a BA in history and secondary education from Northeastern Illinois University, an MA in political and justice studies from Governors State University, and an endorsement in teaching reading from Olivet Nazarene University.

Michael Van Krey has taught Japanese since 1997 at Evanston Township High School in Evanston, where for 10 years he was also professional development cochair. He has sponsored multiple after-school clubs, including a Japanese Calligraphy and a Tea Ceremony Club. As the school's Japan exchange coordinator, he has led 12 two-week student tours of Japan, hosted annual visits by students from ETHS's Japanese sister school, and overseen all necessary fundraising. Previously Van Krey was an assistant language teacher through the Japan Exchange and Teaching Programme at Japan's Kanonji Daichi High School. Recipient of a Fulbright-Hays scholarship, an Aurora Foundation scholarship, and US-Japan Foundation grants, he has given presentations at multiple conferences and was a member of a winning teacher team for the Goldman Sachs Foundation for Excellence in International Education's High School Prize. Student nominator Liam O'Carroll of the McCormick School of Engineering and Applied Science says, "When I think of Mr. Van Krey, I think of excellence—excellence in teaching, creating community, and giving once-in-a-lifetime opportunities to so many students." Van Krey earned a BA in biology and BM in bassoon performance from Lawrence University and a master's in arts education and certificate of advanced study in educational leadership at National Louis University.

FIFTIETH REUNION CLASS

The Tremors of Our Times: A Letter from a Member of the Class of 1973

Dear graduates of the Northwestern University Class of 2023,

We share more than a love of the 'Cats.

A half century apart, your class and mine have the shared experience of living in tumultuous times that have tested our democracy and defined our values. There was surely no better place to experience these days, to explore their context, and to weigh their repercussions than in the classrooms and residence halls and libraries (and nearby beer joints) at Northwestern University.

Consider our parallels: The Class of 1973 arrived on campus for our first year in the wake of the chaotic 1968 Democratic National Convention in Chicago and as the trial of the Chicago Seven was about to begin. During the four years that followed, we saw escalating protests against the Vietnam War, on our campus and others, and a widening breach between generations. When we graduated, the Senate Watergate Committee had just finished hearings that would help lead to a presidential impeachment investigation.

The Class of 2023 arrived on campus as the nation's fierce political polarization was becoming sharper than it had been since the Civil War. You lived through, and studied through, the worst pandemic in a century. By your graduation, you had seen two presidential impeachments and unprecedented efforts to overturn a US presidential election.

In our day, we sometimes wondered whether the republic could survive. Some of you may have had similar thoughts.

What we understand more clearly now is that its survival is not guaranteed. It is the result of people of every partisan stripe and demographic group who choose democracy, civility, and the rule of law over division, demagoguery, and the mob. It's a choice, not a given. It's your choice, and mine.

Life is a clarifying enterprise. The continuing debate over the direction of our country, its role in the world, and our obligations to one another commands our attention wherever we stand on the political spectrum and whatever degree you're being awarded this week. We have disagreements about the proper path forward, some of them profound, but we share common ground in our belief in the importance of freedom, tolerance, accountability, compassion, integrity. Truth.

Education is a clarifying enterprise, too.

When I moved into Shepard Hall as a first-year student, it was the first time I had spent a night outside my home state of Kansas. My roommate, Janet Wanderman '73 ('12 P), hailed from New York. We might as well have come from different planets. But we became friends, one piece of the process at Northwestern that challenged my assumptions and expanded my horizons. Fifty years later, I've reported from nearly every state, dozens of foreign countries, and six continents. I've covered 11 presidential campaigns and interviewed 10 presidents. After fulfilling my Northwestern science requirement with a course called The History of Science, which didn't include doing any actual science, I sat down to ask questions of Stephen Hawking and Edward Teller.

All that wouldn't have happened without the launchpad Northwestern turned out to be.

What I've learned since my own graduation day is the reality that earthquakes will reshape our landscape in ways we can't predict, making old solutions inadequate. We have started a reckoning on race in America, not yet completed. We've only begun to grapple with how to respond to the warming of our planet. We're seeing the advent of artificial intelligence that is poised to upend how things work in ways we can't yet fathom.

I've also seen the breathtaking power of individuals who have purpose. Things that once seemed impossible—in medicine and music, in technology and commerce, in communications and the arts—have become routine parts of our daily lives.

Here are two apparently conflicting lessons to take to heart. One is that life is short—so accept a dare, pursue a dream, leap into a terrifying challenge, not because you're sure you can succeed but because you aren't at all confident that you will. The other is that life is long—so nurture friendships, give a hand to a stranger, preserve the Earth. Take a breath.

Both things can be true. Both things are.

Now it's your turn to celebrate your graduation, to thank your parents and professors, to boldly go into a new world of possibility. Congratulations and best wishes to each of you on the remarkable journey you are about to begin.

Together, let's send our best wishes to the Northwestern Class of 2073, not yet born, for the world they will see and the challenges they will face. Just think of the amazing letter you'll be able to write them 50 years down the road.

GRADUATE DEGREES

GRADUATE SCHOOL

Kelly E. Mayo, PhD, Dean

Doctor of Philosophy

Degree awarded September 2, 2022

Andrea Yaa Pinamang Adomako, African American Studies; Weinberg. *“Because We Failed Her”: Black Fictive and Formative Friendships in the 1960s and 1970s*; Jennifer Christine Nash, adviser.

Emiliano Aguilar, History; Weinberg. *Building a Latino Machine: Corruption, Integration, and Machine Politics in East Chicago, Indiana, 1945–2010*; Geraldo L. Cadava, adviser.

Rawan Alharbi, Computer Science; McCormick. *Reimagining Wearable Visual Systems for Context-Aware Computing*; Nabil Alshurafa, adviser.

Safa Hamood Mohammed Al-Saeedi, Political Science; Weinberg. *The Quest for Influence: Media Changes and Reform Politics in Saudi Arabia*; Wendy R. Pearlman, adviser.

Mari Ruth Altshuler, Learning Sciences; Education and Social Policy. *“I Think It’s Fun, and Sort of Challenging, but This Is Just Me—I Like Challenges”: Exploring Early Elementary School Students’ Emerging Mathematics Identities*; Miriam G. Sherin, adviser.

Luis Fernando Amaya Muñoz, Music; Bienen. *Music Composition as a Means to Connect with the More-Than-Human: A Dialogue between the Works of Walter Kitundu, Liza Lim, and Luis Fernando Amaya*; Jay Alan Yim, adviser.

Tomas Sergio Andreani, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *The Impact of Circadian Output and Light on the Sleep Homeostat in Drosophila melanogaster*; Ravi Allada, adviser.

Allison Marie Arinaga, Chemistry; Weinberg. *Sulfur as an Alternative, “Soft” Oxidant for Oxidative Dehydrogenation of Propane into Propylene*; Tobin Jay Marks, adviser.

Emanuel Aquiles Azcona Castillo, Electrical Engineering; McCormick. *Geometric Deep Learning in Neuroimaging and Human Reward Behavior*; Aggelos K. Katsaggelos, adviser.

Aparna Balakrishnan, Health Sciences Integrated PhD Program; Feinberg. *Medication Adherence among Adult Kidney Transplant Recipients: A Mixed-Methods Examination*; Michael Wolf, adviser.

Laura Bancroft, Chemistry; Weinberg. *Fundamental Electron Transfer and Spin Dynamics in Organic Donor-Acceptor Systems for Quantum Information Science Applications*; Michael R. Wasielewski, adviser.

Srutarshi Banerjee, Electrical Engineering; McCormick. *Learning-Based Intelligent Imaging*; Aggelos K. Katsaggelos, adviser.

David Bar-El, Learning Sciences; Education and Social Policy. *Teaching with a Digital Sandbox Game: Teachers’ Experiences with Minecraft Education Edition*; Marcelo Aaron Bonilla Worsley, adviser.

Semih Barutcu, Electrical Engineering; McCormick. *Analytical Methods and Deep Priors on X-Ray Ptychography, Computed Tomography, and Computed Laminography*; Aggelos K. Katsaggelos, adviser.

Anna Victoria Bay, Chemistry; Weinberg. *Light-Driven Carbene Catalysis for the Synthesis of Carbonyl Compounds*; Karl A. Scheidt, adviser.

Jamie Sarah Gorson Benario, Computer Science and Learning Sciences; Education and Social Policy, McCormick. *Investigating Student Self-Perceptions during the Programming Process*; Eleanor O’Rourke, adviser.

Alexandra Lauran Berr, Biomedical Engineering; McCormick. *The Role of the Vimentin Cytoskeleton in Lung Cancer, Platelet Mechanics, and Acute Lung Injury*; Karen M. Ridge and Evan Alexander Scott, advisers.

Naomi Lee Blaushild, Human Development and Social Policy; Education and Social Policy. *Investigating the Dynamics of Teacher Commitment in US Public Schools*; James P. Spillane, adviser.

Katya Ivelisse Burgos Rodriguez, Technology and Social Behavior; Communication and McCormick. *Shifting Narratives: Understanding and Amplifying Creative Labor among People with Disabilities*; Ann Marie Piper, adviser.

Malia Martha Bowers, Political Science; Weinberg. *The Spaces Between: Rethinking Success and Failure in Contemporary Feminist Politics*; Mary Golden Dietz, adviser.

Mary Ann Bucklin, Biomedical Engineering; McCormick. *Motor Planning of Walking in Novel Environments*; Keith Edward Gordon, adviser.

David Weston Burke, Chemistry; Weinberg. *Covalent Organic Frameworks as Next-Generation Membranes and Electronics*; William Dichtel, adviser.

Antawan I. Byrd, Art History; Weinberg. *Interferences: Sound, Technology, and the Politics of Listening in Afro-Atlantic Art*; Krista Angeliqe Thompson, adviser.

Qi Cai, Industrial Engineering and Management Sciences; McCormick. *Provably Efficient Reinforcement Learning*; Zhaoran Wang, adviser.

Alec Mitchell Callisto, Chemical and Biological Engineering; McCormick. *Engineering Posttranslational Polymerase-Based Molecular Recording Systems*; Keith Edward Jaggard Tyo, adviser.

Gabriel Joseph Cavin, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Acentrosomal Pole Stability and Maintenance in Caenorhabditis elegans Oocyte Meiotic Spindles*; Sadie Wignall, adviser.

Yu-Chin Chan, Mechanical Engineering; McCormick. *Data-Driven and Diversity-Enhanced Design of Heterogeneous Multiscale Structures*; Wei Chen, adviser.

Woo Je Chang, Materials Science and Engineering; McCormick. *Doping Semiconductor Nanocrystals to Modify Their Electronic Properties*; Emily Allyn Weiss, adviser.

Yusu Chen, Chemical and Biological Engineering; McCormick. *Directed Evolution of Protein-Based Biomaterials Enabled by Advances in High-Throughput Mechanical Testing and Protein Purification*; Danielle Tullman-Ercek, adviser.

Margaret Sarah Coats-Thomas, Biomedical Engineering; McCormick. *Assessing Contributions of Muscular Imbalance to Shoulder Osteoarthritis*; Eric Perreault, adviser.

Sarah Elizabeth Collier, Human Development and Social Policy; Education and Social Policy. *The Role of “Stress Shocks” in Young People’s Educational and Health Outcomes: How Structural Forces, Policy, and Intervention Can Matter for Individual Functioning*; Emma K. Adam, adviser.

Jayne Elizabeth Collins, English; Weinberg. *Composing in the Field*; Harris Feinsod, adviser.

Christopher Cummings, Civil and Environmental Engineering; McCormick. *Air Traffic Flow and the Congestion of the Skies: Models, Insights, and Management Strategies for the Air Mobility Context*; Hani S. Mahmassani, adviser.

Nicolas Duane Daffern, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Mechanistic Insights into Coactivator Recruitment by Nuclear Receptors*; Ishwar Radhakrishnan, adviser.

Jay Carroll Daniels, Driskill Graduate Training Program in Life Sciences; Feinberg. *Genomic and Cellular Analyses Unravel Disease Heterogeneity in T Cell Cancers*; Jaehyuk Choi, adviser.

Meiver Grace De La Cruz Valdéz, Performance Studies; Communication. *The Political Economy of Arab Dance in the United States*; Melissa Blanco, adviser.

Yu Deng, Driskill Graduate Training Program in Life Sciences; Feinberg. *Advancing Computational Methods to Derive Insights from Real-World Health Data*; Abel N. Kho, adviser.

Ashley Dominique Dennis, African American Studies; Weinberg. *“The Intellectual Emancipation of the Negro”: Black Women Educators in the Mid-20th Century*; Martha Biondi, adviser.

Carmen De Schryver, Philosophy; Weinberg. *Decolonizing Phenomenology: Dialogical Universality in Césaire, Fanon, and Hountondji*; Penelope Lisa Deutscher, adviser.

Grace Doreen Deveney, Art History; Weinberg. *News, Weather, and Sports: Televisual Tactics and Black Art, 1970–1995*; Krista Angeliqe Thompson, adviser.

Sean Matthew Diament, Political Science; Weinberg. *Dividing the Poor: Congressional Representation during the New Deal Policymaking Process*; Daniel J. Galvin, adviser.

Christopher Paul Dinkel, Political Science; Weinberg. *The Law and Politics of Trade Secrecy*; Stephen C. Nelson, adviser.

Ariel Janiece Dotts, Driskill Graduate Training Program in Life Sciences; Feinberg. *Exploring the Roles of Progesterone and Estrogen Receptors in Human Labor*; Serdar E. Bulun, adviser.

Meghan Ward Dukes, Chemistry; Weinberg. *Development of Delivery Vehicles and Three-Dimensional Cancer Models to Investigate Gli Inhibition in Basal Cell Carcinoma*; Thomas J. Meade, adviser.

Amanda Sahar D’Urso, Political Science; Weinberg. *In the Shadow of Whiteness: Middle Eastern and North African Identity in the United States*; James N. Druckman, adviser.

Christopher Todd Eckdahl, Chemistry; Weinberg. *Controlling Photophysics and Photochemistry through Supramolecular Templating, Surface Functionalization, and Strong Light-Matter Coupling*; Julia Ann Kalow, adviser.

Gil Engelstein, History; Weinberg. *Queer Europe: Gay Liberation between Market and Movement*; Deborah Anne Cohen, adviser.

Laura Jeanne Ferdinand, Interdisciplinary Theatre and Drama; Communication. *Ladies Made: Racialized Performances of Femininity in the Segregated South*; Tracy C. Davis, adviser.

Zuyue Fu, Industrial Engineering and Management Sciences; McCormick. *On the Optimality and Complexity of Reinforcement Learning*; Zhaoran Wang, adviser.

Kevin Daniel Gallagher, Interdisciplinary Biological Sciences; McCormick and Weinberg. *The Morphogenetic Origin of Pattern Formation in the Drosophila Compound Eye*; Richard W. Carthew, adviser.

Michael Leamy Geis, Mathematics; Weinberg. *Concentration of Quantum Integrable Eigenfunctions on Convex Surfaces of Revolution*; Steven Morris Zelditch, adviser.

Hayley Jane Goldenthal, Clinical Psychology; Feinberg. *The Need for and Development and Evaluation of a Model for the Integration of Trauma-Informed Care in Early Childhood Settings*; Karen Gouze, adviser.

- Stefan Xavier Greenfield-Casas, Music; Bienen. *Re:Replay: On the Classical Arrangement and Concertization of Video Game Music*; Ryan Wayne Dohoney, adviser.
- Hexia Guo, Materials Science and Engineering; McCormick. *Implantable Bioelectronics for Monitoring and Stimulation: Toward Bioresorbable Electronics*; John A. Rogers, adviser.
- Aprajita Hajela, Astronomy; Weinberg. *Demystifying Rare Cosmic Transients with Multiwavelength Observations*; Raffaella Margutti, adviser.
- Emily Joanna Handsman, Sociology; Weinberg. *The DEI Doctrine: How Suburban Schools Interpret Inequality*; Mary E. Pattillo, adviser.
- James Howard Hill Jr., Religious Studies; Weinberg. *Religion, (Anti)Blackness, and Michael Jackson*; Robert A. Orsi, adviser.
- Patrick William Horton, Music; Bienen. *Creativity and Technology in Music Teaching and Learning*; Sarah J. Bartolome, adviser.
- Moein Hosseini, Civil and Environmental Engineering; McCormick. *Autonomous Vehicle-Managed Space Strategies: Characterization, Modeling, and Simulation*; Hani S. Mahmassani, adviser.
- Sumeng Hu, Chemical and Biological Engineering; McCormick. *Sustainable Polyurethane and Polyurethane-Like Network Materials with Excellent Reprocessability and Stress Relaxation and Stiffness in Acrylic Random Copolymer Films*; John M. Torkelson, adviser.
- Panpan Huang, Physics and Astronomy; Weinberg. *Toward Large-Scale X-Ray Microscopy for Ptychography and Fluorescence Tomography*; Chris Jacobsen, adviser.
- Samantha Eryn Huddleston, Biomedical Engineering; McCormick. *Body Heat-Activated Polymer-Mineral Composites for Vertebral Body Fractures*; Guillermo Antonio Amezcua, adviser.
- Andrew Tyler Hull, Philosophy; Weinberg. *The Machines of Daedalus: Aristotle on the Truth and Potential of Political Science*; Richard H. Kraut, adviser.
- Andrew Colin Hunt, Chemical and Biological Engineering; McCormick. *High-Throughput and Plate-Based Protein-Protein Interaction Screening Using Cell-Free Protein Synthesis*; Michael Christopher Jewett, adviser.
- Charikleia Iakovidou, Electrical Engineering; McCormick. *Distributed Optimization Methods in Large-Scale Systems with Realistic Constraints*; Ermin Wei, adviser.
- Kristen Leigh Jakubowski, Biomedical Engineering; McCormick. *Determining How the Tunable Mechanics of Muscle and Tendon Change with Age and Task*; Eric Perreault, adviser.
- Hannah Marie Janssen, Mechanical Engineering; McCormick. *Effects of Individual Whisker Geometry on Tactile Sensing*; Mitra J. Z. Hartmann, adviser.
- Taylor Jefferson, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Cortical Cholinergic Modulation in Neuropathic Pain*; Marco Martina, adviser.
- Boyeong Kang, Chemistry; Weinberg. *Molecularly Engineering the Mechanical Properties of Dynamic Polymer Networks*; Julia Ann Kalow, adviser.
- Carolyn Wells Keller, Marketing; Kellogg. *The Cute-Feminine Stereotype: A Social Role Theory Explanation of Sex Differences in Cute Consumption*; Neal Roesse, adviser.
- Pax Kivimae, Mathematics; Weinberg. *Random Matrices, Gaussian Multiplicative Chaos, and Complexity*; Antonio Auffinger, adviser.
- Ada Jade Kwong, Chemistry; Weinberg. *Studies of Chemical Probes for the MEK Family*; Karl A. Scheidt, adviser.
- David Lam, Materials Science and Engineering; McCormick. *Solution-Based Synthesis of Post-Transition Metal Dichalcogenide Layered Materials*; Mark Hersam, adviser.
- Marie Laperrière, Sociology; Weinberg. *Defining Struggles: Treatment Programs and the Limits of Domestic Violence Policy*; Ann Shola Orloff, adviser.
- Ilana Vine Larkin, English; Weinberg. *Hostile Love: Rage, Race, and Gender in American Children's Literature, 1850-1900*; Julia Ann Stern, adviser.
- Tina Law, Sociology; Weinberg. *Parsing the Language of Rebellion: Impacts of the 1960s Black-Led Urban Uprisings on American Public and Legal Discourse*; Andrew V. Papachristos, adviser.
- Samuel Alexander Leach, Chemical and Biological Engineering; McCormick. *Expanding the Toolbox for Engineering High Titer Protein Secretion in Bacteria*; Danielle Tullman-Ercek, adviser.
- Aubrey Elizabeth Leaman, Music; Bienen. *The Role of Empathic Identification in Virtual Musical Agency*; Richard D. Ashley, adviser.
- Dohyun Leem, Mechanical Engineering; McCormick. *Forming Strategy Design and Mechanics Analysis in Flexible Sheet Metal Forming Systems*; Jian Cao, adviser.
- Chamille Joanne Lescott, Materials Science and Engineering; McCormick. *Synthesis and Characterization of Self-Assembled Polymer Nanocomposites*; Vinayak P. Dravid, adviser.
- Xiang Li, Civil and Environmental Engineering; McCormick. *Modelling of Slow-Moving Landslide Dynamics Driven by Precipitation: From Stable Creep to Catastrophic Runaway Failure*; Giuseppe Buscarnera, adviser.
- Alyssa A. Lynne, Sociology; Weinberg. *Transnationalizing Gender, Medicine, and Standardization: Gender-Affirming Healthcare in Thailand and the United States*; Steven G. Epstein, adviser.
- Jiachen Ma, Economics; Weinberg. *Information Design and Asymmetric Auction*; Jeffrey Ely, adviser.
- Ethan Reuven Manilow, Technology and Social Behavior; Communication and McCormick. *Score-Informed and Hierarchical Methods for Computational Musical Scene Analysis*; Bryan A. Pardo, adviser.
- Melissa Barbara Manus, Anthropology; Weinberg. *Early-Life Determinants of the Infant Microbiome: Social Environments Get "Under and On the Skin"*; Katherine Ryan Amato, adviser.
- Lily Mao, Chemistry; Weinberg. *Modulating the Nanomechanical Properties of Graphene Oxide via Chemical Structure and Interfacial Interactions*; SonBinh Nguyen, adviser.
- Raul E. Marrero Rosa, Civil and Environmental Engineering; McCormick. *Studying Carbon Nanoreinforced Cementitious Composite Fundamentals Properties through Contact Mechanics*; David J. Corr, adviser.
- Katya Ann Maslakowski, History; Weinberg. *Men of Violence: The Rise of British Counterinsurgency Expertise at the End of Empire, 1919-1998*; Deborah Anne Cohen, adviser.
- John Philip McGee, Chemical and Biological Engineering; McCormick. *Expanding the Capabilities of Native Top-Down Mass Spectrometry*; Neil L. Kelleher, adviser.
- Kavya Mendu, Civil and Environmental Engineering; McCormick. *Multiscale Characterization of Nanomodified Cementitious Composites*; David J. Corr, adviser.
- Ziyi Miao, Materials Science and Engineering; McCormick. *Controlling Nanoparticle Structure and Behavior Using Substrate-Templated Assembly with DNA*; Chad A. Mirkin, adviser.
- Anna Victoria Michelson, Sociology; Weinberg. *Redefining the Romance: Classification and Community in a Popular Fiction Genre*; Wendy Griswold, adviser.
- Joshua-Paul Maxwell Miles, Media, Technology, and Society; Communication. *Care Systems in Community-Based Contexts: The Role of Navigation and Technology in Promoting Access to Human Services in a Referral Network*; Michelle Dawn Shumate, adviser.
- Caitlin Cooke Monroe, History; Weinberg. *Making History: Women's Knowledge and the Creation of a Historical Discipline in Western Uganda*; Jonathon P. Glassman, adviser.
- Bradley Keck Moreno, Materials Science and Engineering; McCormick. *Dynamics of Biomineralization in Sea Urchin Primary Mesenchyme Cells*; Derk Joester, adviser.
- Zachary Alan Nissen, Anthropology; Weinberg. *Urban Commoners, Inequality, and the Longevity of an Ancient Maya City, Aventura, Belize*; Cynthia Robin, adviser.
- Shaul Notkin, Political Science; Weinberg. *Political Theory for the Age of Social Movement*; Mary Golden Dietz, adviser.
- Dwayne Keith Overton-Mann, Interdisciplinary Theatre and Drama; Communication. *His Grotesque Swagger; or, Morgan Benson, the Black Joke, and the 19th-Century Target Parade*; Susan A. Manning, adviser.
- Patrick Mbullo Owuor, Anthropology; Weinberg. *Dams and Displacements: Biosocial Impacts of the Thwake Multipurpose Dam in Makueni County, Kenya*; Sera Lewis Young, adviser.
- Kelly Ann Parker, Materials Science and Engineering; McCormick. *Soft Microscopy: Enhancing Imaging for the High-Throughput Characterization of Soft Materials*; Vinayak P. Dravid, adviser.
- Jacqueline Rose Patterson, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Building Functional Maps of the Intact and Transected Lumbar Spinal Cord in the Decerebrate Cat Using Subdural Electrical Stimulation*; C. J. Heckman, adviser.
- Robin Kathryn Pokorski, History; Weinberg. *Reform Networks and Community among Dominican Nuns in Late Medieval Germany*; Dyan H. Elliott, adviser.
- Alexandra Portnova-Fahreva, Mechanical Engineering; McCormick. *Dimensionality Reduction for Prosthetic Hand Control*; Ferdinando Mussa-Ivaldi, adviser.
- Darcie Marilyn Price-Wallace, Religious Studies; Weinberg. *Telling Stories Differently: Changing Landscapes of Ordination for Buddhist Monastic Women in the Tibetan Tradition*; Sarah Heatt Jacoby, adviser.
- Carolyn Eneida Ramirez, Chemical and Biological Engineering; McCormick. *Understanding Photophysics of Rylene Diimides and Tetrapyrroles in the Solid State for Enhancement of Organic Photovoltaic Performance*; Michael R. Wasielewski, adviser.
- Miguel Angel Ramirez, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *An Investigation of the Molecular Mechanisms Underlying Hearing Sensitivity and Noise-Induced Hearing Loss*; Jeffrey Nicholas Savas, adviser.
- Ritaja Ray, Civil and Environmental Engineering; McCormick. *Modeling the Behavior of Dry and Saturated Crushable Granular Media Subjected to Varying Loading Rates*; Giuseppe Buscarnera, adviser.
- Lea Kathryn Richardson, Plant Biology and Conservation; Weinberg. *Investigating Impacts of Prescribed Fire on Flowering Phenology and Reproduction in Grassland Perennials*; Stuart Wagenius, adviser.
- Adovich S. Rivera, Health Sciences Integrated PhD Program; Feinberg. *Role of Social Determinants of Health in the Cardiovascular Health of People with HIV: An Analysis of Electronic Health Records from Two Health Systems in Chicago*; Matthew J. Feinstein, adviser.
- Makeda Austin Roberson-Vickery, Psychology; Weinberg. *A Mixed-Methods Approach to Understanding the Role of Social Support as a Source of Resilience for Physical Health and Well-Being among Individuals with Low SES and First-Generation College Students*; Edith Chen, adviser.
- Sebastian Rodriguez, Statistics; Weinberg. *Spatial and Temporal Methods to Analyze the Malaria Burden Using Routine Health Facility Case Data in Burkina Faso*; Noelle I. Samia, adviser.
- Andrea Daniel Rosengarten, History; Weinberg. *Remapping Namaqualand: Negotiating Ethnicity and Territoriality in a Southern African Borderland*; Jonathon P. Glassman, adviser.

- Ian Sam Rubinoff, Biomedical Engineering; McCormick. *Development of Clinical Visible-Light Optical Coherence Tomography*; Hao F. Zhang, adviser.
- Chelsea Lynne Rugel, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Mechanical Properties, Shear Wave Velocity, and Structure of Unimpaired and Diabetic Nerves*; C. J. Heckman, adviser.
- Nikita Antonia Salovich, Psychology; Weinberg. *Evaluative Mindsets and the Influence of False Information*; David Neil Rapp, adviser.
- Michael Robert Schamber, Interdisciplinary Biological Sciences; McCormick and Weinberg. *The Mechanism of Activation and Sensitivity-Tuning of the Calcium-Sensing Receptor*; Reza Vafabakhsh, adviser.
- Jonathan David Schultz, Chemistry; Weinberg. *Revealing Vibronic Coupling and Coherence in Molecular Aggregates with Multidimensional Spectroscopy: Experiment and Theory*; Michael R. Wasielewski, adviser.
- Michael Schwarz, Philosophy; Weinberg. *All Meanings Necessary: A Hermeneutics of Ideology and Its Critique*; Cristina Lafont, adviser.
- Dawa Seo, Civil and Environmental Engineering; McCormick. *Multiscale Assessment of the Role of the Particle Shape on the Crushability of Sand*; Giuseppe Buscarnera, adviser.
- Boyang Shang, Industrial Engineering and Management Sciences; McCormick. *Space-Filling Designed Sampling from Databases*; Daniel Apley and Sanjay Mehrotra, advisers.
- Qing Shao, Electrical Engineering; McCormick. *Characterizing Transport from Macro- to Microscale in Anisotropic Bulk Functional Materials*; Matthew A. Grayson, adviser.
- Addie Shrodes, Learning Sciences; Education and Social Policy. *Learning Practices of Livability toward Elsewheres: Critical Digital Literacies in the Everyday Activities of Trans and Queer Youth*; Wan Shun Eva Lam, adviser.
- Simrita Singh, Operations Management; Kellogg. *Data-Driven Optimization of Patient Pathways for Healthcare Delivery*; Jan A. Van Mieghem, adviser.
- Joseph Tebben Sombeck, Biomedical Engineering; McCormick. *Providing Proprioceptive Information through Biomimetic Multielectrode Stimulation Patterns*; Lee E. Miller, adviser.
- Jacquelyn Stephens, Human Development and Social Policy; Education and Social Policy. *All Mixed Up: Correlates of Emotional Complexity across the Lifespan*; Claudia Minder Haase, adviser.
- Lily Clara Stewart, Religious Studies; Weinberg. *The Holy Malady: Leprosy, Identity, and the Anatomy of a Medieval Stereotype*; Barbara Newman, adviser.
- Jonathan Robert Strutz, Chemical and Biological Engineering; McCormick. *Computational Approaches for Enhanced Metabolomics Annotation and DNA-Based Biorecording and Data Storage*; Keith Edward Jaggard Tyo, adviser.
- Brian Thomas Suchy, Computer Science; McCormick. *Revisiting Software-Based Memory Management*; Peter A. Dinda, adviser.
- Bethany Lyn Sump, Interdisciplinary Biological Sciences; McCormick and Weinberg. *Molecular Mechanisms of Establishment and Inheritance of Epigenetic Transcriptional Memory in Saccharomyces cerevisiae*; Jason H. Brickner, adviser.
- Petras Juozas Swisler, Mechanical Engineering; McCormick. *Large-Scale Robotic Self-Assembly Using Alignment-Agnostic Docking*; Michael Rubenstein, adviser.
- Walter Math Thavarajah, Chemical and Biological Engineering; McCormick. *Strategies for the Design and Field Deployment of Cell-Free Biosensors*; Julius Beau Lucks, adviser.
- Seth David Thompson, Interdepartmental Neuroscience; Communication, Feinberg, McCormick, and Weinberg. *Systemic Transplantation of Adult Multipotent Stem Cells Rejuvenates Multiple Aging Musculoskeletal Tissues*; Mitra Lavasani, adviser.
