Musical Bridges to Memory:
An interactive music research program for family members and individuals experiencing cognitive decline as a result of aging.

Description: January 13 - April 6, 2019 (Saturdays 2:00pm - 4:30 pm)

- Act as a “stand-in” for family members not present and engage with resident.
- Attend training workshop (January 13th or as scheduled) on working with individuals with dementia and music engagement strategies
- Interact with residents during the musical performance
- Help set up/restore the space for the performance or breakout groups

Principal Investigator: Dr. Borna Bonakdarpour
