Hello!

The UCSF Accelerated Digital Clinical Ecosystem (ADviCE) is searching for dedicated, ambitious individuals interested in the intersections of health care, technology, and innovation to join our Fall Fellowship Program! The fellowship will support the launch of ADviCE in becoming a leading digital health collaborative workspace for digital health software tools — linking patients, providers, payors, innovators, health systems, policymakers, and other stakeholders.

Apply to the UCSF ADviCE Fall Fellowship Today!

Application Deadline: 8/6/22
3 Reasons Why You Should Apply Today:

- Learn from a passionate, recognized team of leaders in medicine and digital health
- Develop valuable skills for personal and professional development
- Take part in an initiative inspiring innovation in health care

ADviCE supports the real-world adoption of Digital Health Software Tools (DHSTs) upon entry into the marketplace and includes DHSTs that are the focus of the FDA’s Software Precertification Program. ADviCE fellows will have the chance to play a key role in developing UCSF’s novel Digital Health Common Application (DHCA) for health systems. In short, we are excited to have our fellows on board.

We hope you consider joining us.

Sincerely,

Pamela Lagera, MD
ADviCE Fellowship Program Director

Andrew Auerbach, MD, MPH
ADviCE co-founder, UCSF Division of Hospital Medicine

Steven Chan, MD, MBA
ADviCE, co-founder, Stanford University & UCSF
