Remote Work Tools

- **Phone** - You can set your office phone to ring another number (i.e. a home phone or cell phone)
- **DUO/Multifactor** - If you only have your office number registered for Multi Factor Authentication (MFA), please add your mobile or another number.
- **VPN** - There is a new VPN client that will be required after 4/1/2020 called Global Connect. VPN is required to access some off campus resources.
- **Box** - Store any data and documents that you may need to work on in Box. This will allow remote access to all your files and folders.
- **Zoom** - Zoom can be used for audio or video conferencing.
- **Teams** - Microsoft Teams is available for virtual chat or meetings. Various files can be uploaded, that be worked on and accessed by various individuals simultaneously.
