## What is Open Enrollment?

Open Enrollment is an annual period of time where you are able to make changes to your coverage that you are not permitted to make throughout the rest of the year, unless you experience a qualifying event such as marriage, birth of a child, etc. **The Open Enrollment period for this year will be 10/11/2021—10/22/2021. Changes made during Open Enrollment will take effect 1/1/2022.**

## Changes For Plan Year 2022 (1/1/2022—12/31/2022)

Medical—The only change is a small increase in medical premiums.

Pet Insurance—A new plan available to all postdocs.

## WEBSITE RESOURCES

### Provider Directories

---

You can find a list of providers on the GBS website via the **Find a Provider** tool. If you enroll in the HMO plan, you are required to select a Primary Care Physician (PCP) or else one will be assigned to you. You do not need to choose a PCP if you are enrolled in the PPO plan. To find an HMO PCP, or a PPO provider when you wish to access service, follow the instructions under **Find a Provider**.

### Benefit Summaries

---

This booklet contains benefit “snapshots” of the plans offered with information about core benefits. More detailed plan documents, including full benefit summaries and summaries of benefits and coverage (SBCs), are available on the GBS website.

SBCs summarize important information about medical insurance to help you learn about your benefits and compare options. On the website, click on **Plan Documents Library** to access detailed plan documents for all plans offered.

### 2022 Monthly Rates & Contributions

---

This information is available online under **Insurance Benefits and Rates**, as well as pages 22-24 of this booklet.

# MEDICAL PLAN INFORMATION

## HMO vs. PPO Medical Plan

### HMO (Health Maintenance Organization)

- This plan offers a broad spectrum of benefit coverage with a higher degree of managed care. Managed care is a method of healthcare delivery designed to lower costs by limiting your ability to choose providers outside of your primary care physician's medical group (a group of physicians who have contractually agreed to share and coordinate patient care).
- Under the Health Maintenance Organization (HMO) model, you must choose a Primary Care Physician (PCP) within the network. You can change your PCP up to once a month. **Note:** If you do not choose a PCP, one will be assigned to you.
- Your Primary Care Physician (PCP) will be your first point of contact when accessing care, acting as your "healthcare gatekeeper."
- If you need to see a specialist, you will need a referral from your PCP first.
- The network is smaller than that of the PPO plan and limited to Illinois. The HMO does not offer an out-of-network benefit.
- In the event of a life/limb-threatening emergency, the member should dial 911 and all medical care will be covered as per the plan contract. Once the patient is stabilized, the HMO may require that the patient be transferred to an in-network facility.
- HMO out-of-pocket costs (i.e. deductible, co-payments, etc.) tend to be lower than the PPO plan option.

### PPO (Preferred Provider Organization)

- The PPO plan offers more flexibility and choice than the HMO plan because it offers both "in-network" and "out-of-network" options.
- The in-network benefits (coinsurance, out-of-pocket maximum, etc.) will result in lower out-of-pocket costs than the out-of-network benefits.
- The PPO Plan and the Provider agree to a "discounted fee for service" model. This means that the participating provider has agreed to provide their services at a discounted rate. Providers outside the network have not agreed to that discounted rate and typically charge a "Reasonable and Customary" fee, resulting in higher out-of-pocket costs.

Due to HIPAA (Health Insurance Portability and Accountability Act) protection laws, Northwestern and Gallagher **do not** have access to your medical claims information.

# GLOSSARY OF TERMS

## Deductible

---

A specific dollar amount that your health insurance company requires you to pay out-of-pocket each year before your health insurance plan begins to make payments for claims. Not all health insurance plans require a deductible.

## Out-of-Pocket Maximum

---

Out-of-pocket maximums apply to all medical plans. This is the maximum amount you will pay for health care costs in a calendar year. Once you have reached the out-of-pocket maximum, the plan will fully cover eligible medical expenses for the rest of the plan year. If you see an out-of-network provider, you will still be responsible for out-of-pocket costs that are above the “reasonable and customary” fees.

## Copayment

---

A specific charge that you pay for a specific medical service or supply, also referred to as a "copay." For example, your health insurance plan may require a \$20 copayment for an office visit or brand-name prescription drug, after which the insurance company pays the rest.

## Coinsurance

---

The amount that you are required to pay for covered medical services after you've satisfied any co-payment or deductible required by your health insurance plan. Coinsurance is typically a percentage of the charge for a service. For example, if your insurance company covers 80% of the allowable charge for a specific service, you are responsible for the remaining 20% as coinsurance.

## In-Network Provider

---

A healthcare professional, hospital, or pharmacy that has a contractual relationship with your health insurance company. This contract establishes allowable charges for specific services. In return, healthcare providers gain patients; primary care physicians may receive a fee for each patient assigned to their care. An **out-of-network** provider is a healthcare professional, hospital, or pharmacy that **is not** part of your health plan's network of preferred (in-network) providers. You will pay more for services received from out-of-network providers because you will be responsible for costs considered above the “reasonable and customary” fees.

## Out-of-Pocket Maximum

---

Out-of-pocket maximums apply to all medical plans. This is the maximum amount you will pay for health care costs in a calendar year. Once you have reached the out-of-pocket maximum, the plan will cover most eligible medical expenses for the rest of the year.

## Claim

---

A request by a plan member, or a plan member's health care provider, for the insurance company to pay for medical services.

## Qualifying Life Event

---

A life event that allows you to make changes to your insurance coverage that otherwise are only allowed during the annual Open Enrollment period.

Examples of a qualifying life event include, but are not limited to, marriage, divorce, birth or adoption of a child, loss of prior coverage, relocation, and the arrival of a dependent from another country.

A cancer diagnosis can change your life forever. BCBSIL is here to help. Their oncology team will work with you to get the treatment, care and support that you and your family need.

## Pharmaceutical Care Management

---

Your medical insurance plan has a program called Pharmaceutical Care Management (PCM). PCM can help answer questions you may have about your prescription drugs. It may also help you find ways to save on your out-of-pocket costs.

## Preauthorization

---

Preauthorization (also known as 'prior authorization') means that approval is needed from your health plan before you have certain health tests or services. To help make sure your care is appropriate and avoid unexpected costs, it's important that approval is received before you get these services. Usually, your network provider will take care of preauthorization before the service is performed. But it is always a good idea to check if your doctor has gotten the needed approval.

## Well OnTarget Fitness

---

The program gives you access to a nationwide network of fitness locations. Choose one location close to home and one near work, or visit locations while traveling.

 Please Note: PDFs with additional information on these programs can be found under **Wellness Programs** on the benefit program homepage.

## EMPLOYEE ASSISTANCE PROGRAM (EAP)

The EAP also offers a free, confidential, unlimited phone-based Life Coach program that can help you with career exploration, parenting, communication, relationships, wellness goals and more.

## Accessing Out-of-Network Care Under a PPO Plan

When you seek services in-network, meaning, from providers listed in the PPO network, you pay less for care. When you pay 50% for major services from an in-network PPO dentist, you are paying 50% of a contracted, discounted rate. This is not the case with out-of-network providers.

**Out-of-Network Example:** The out-of-network dentist charges \$1,000 for a porcelain crown on a molar. This dentist can charge whatever they want for this service. Your percentage of the cost for out-of-network care is 50% after the \$50 deductible. For this service (a crown), the Usual, Customary and Reasonable (UCR) cost is \$800, so you pay \$425.

**IN ADDITION,** you owe the difference between the UCR amount and the dentist's charge (\$1,000 - \$800), which is an additional \$200.

**Total estimated cost out-of-network for the porcelain crown on a molar: \$625**

## What is a Usual, Customary and Reasonable (UCR) Charge?

Usual, customary and reasonable charges are set by the insurance company, based on the prevailing cost of a service in your geographic area. The insurance company then determines how much it will pay for a given service in your area.

# LIFE | AD&D PLAN

Basic Life	\$50,000
Accidental Death & Dismemberment	\$50,000

\*Automatic enrollment, paid for by the University

## What is Life and AD&D Insurance?

Basic Life insurance helps provide financial protection in the event of an eligible member's covered death. Basic Accidental Death and Dismemberment (AD&D) insurance may provide an additional amount in the event of a covered death or dismemberment as a result of an accident.

## Additional Features

**AD&D Seat Belt Benefit:** Up to \$10,000 is payable for death as a result of a car accident while wearing a seat belt.

**AD&D Airbag Benefit:** Provides further protection in the event of a covered automobile accident for which an AD&D Seat Belt Benefit is payable. The amount of the Air Bag Benefit is the lesser of (1) \$5,000; or (2) the amount of AD&D Insurance Benefit payable for loss of your life.

**AD&D Family Benefits:** Includes benefits for career adjustment, childcare, and higher education for eligible surviving family members. Review the Life/AD&D Summary Plan Description in the Plan Documents Library for additional details.

## Designating Your Beneficiary(ies)

A beneficiary is the person or people who will receive your life insurance benefit in the event of your passing. A contingent beneficiary is the person or people who will receive the benefit if the primary beneficiaries have predeceased the insured. Your beneficiary(ies) should be designated on your enrollment form.

Please Note: International postdoctoral trainees holding a J-1 visa (and their J-2 dependents) DO NOT need to purchase supplemental medical evacuation and repatriation coverage to meet J-1 and J-2 visa requirements. The Life/ AD&D plan satisfies these requirements, even if the postdoctoral trainee waives the medical, dental and vision coverage.

# HEALTHCARE FLEXIBLE SPENDING ACCOUNT (FSA)

## Healthcare FSA

You can save money when you use tax-free dollars from a Health Care Flexible Spending Account (Health Care FSA) to pay eligible health care expenses incurred by you, your spouse or your dependent child(ren). Note: You do not need to be enrolled in a Northwestern-sponsored medical plan to participate in a Health Care FSA.

You can contribute up to \$2,700 a year to your account. The minimum annual contribution is \$240.

If you choose to contribute to a Health Care FSA:

- Once your enrollment takes effect, you will not be able to change your pre-tax contributions to the account until the next Open Enrollment period unless you experience a qualifying life event.
- You can be reimbursed for eligible health care expenses up to the full value of the pre-tax contributions you've agreed to make for the year from the first day of the benefit year – even before all scheduled contributions for the year have been made.
- You can use the money you contribute to a Health Care FSA each year to pay eligible expenses incurred in the calendar year (January 1-December 31) in which they are made, as well as eligible expenses incurred January 1-March 15 of the following calendar year (the grace period).
- The deadline for submitting claims is March 31 of the year following the calendar year in which the contributions are made.
- You will forfeit any unused contributions in a Health Care FSA not used by the claim filing deadline.
- Funds in your Health Care FSA are not “portable” if you retire or leave Northwestern.

**Please Note:** You must renew your election to make pre-tax contributions to a Health Care FSA each year during Open Enrollment. If you don't, your Health Care FSA pre-tax contribution amount for the next year will default to \$0.

## Benefit Eligibility

---

If you are a non-NRSA postdoctoral trainee on the University payroll, you are eligible for a dependent care FSA via PayFlex with a University match up to \$4,000.

If you are an NRSA or other direct pay postdoctoral trainee, tax restrictions prevent the University from offering you pre-tax deductions. Instead, you are eligible for a dependent care grant from the University (up to \$4,000) subject to the same parameters laid out in the Dependent Care FSA description.

## Dependent Care FSA

---

If you are on the University payroll, you can save money when you use tax-free dollars from a Dependent Care Flexible Spending Account (Dependent Care FSA) to pay eligible dependent care expenses. Your qualified dependents may include your children through age 12, or spouse, parents, in-laws, siblings, or child(ren) over the age of 13 incapable of self-care. Those covered must be declared as a dependent on your tax return.

If you are single or married filing taxes jointly, you may contribute up to \$5,000 per household per year to a Dependent Care FSA. The minimum annual contribution is \$240.

If you choose to contribute to a Dependent Care FSA:

- Once your enrollment takes effect, you will not be able to change your contribution to that account until the next enrollment period unless you experience a qualifying life event.
- You can be reimbursed for eligible dependent care expenses up to your current account balance ONLY. Any expenses in excess of your current account balance will be reimbursed as additional contributions are added to your account throughout the year.
- You can use the money you contribute to a Dependent Care FSA each year to pay eligible expenses incurred in the calendar year (January 1-December 31) in which they are made.
- The deadline for submitting claims is March 31 of the year following the calendar year in which the contributions were made. To submit a request for reimbursement, you must complete a PayFlex claim form and submit it to PayFlex.
- You will forfeit any unused contributions in a Dependent Care FSA at year end.
- Funds in your Dependent Care FSA are not “portable” if you retire or leave Northwestern.

Eligible dependent care expenses you can reimburse using pre-tax dollars from a Dependent Care FSA include:

- Day camp and camp activities
- Day care for your child(ren)
- Day care for an elderly or disabled dependent
- Nanny salary and taxes, and
- Summer sports day camp (overnight camp is NOT an eligible expense).

# DEPENDENT CARE

## Dependent Care University Grant

Postdoctoral trainees eligible for the FSA are also eligible for matching funds from the University for their Dependent Care FSA. Based on the postdoctoral trainee's household earnings, the University will provide a contribution to the dependent care FSA plan based on the chart below.

**Please note:** You must apply annually in order to receive University funds. Late enrollments will be prorated.

Use the link below to apply.

\$75,001—\$100,000	40%	\$2,000 per year
\$100,001—\$130,000	20%	\$1,000 per year

**! Please Note:** Postdoctoral trainees funded by an NRSA grant are not eligible for pre-tax deductions and matching. Instead, the University offers these postdocs an equivalent dependent care grant of up to \$4000 to be used on eligible expenses as described under the FSA.
