What is Summer Salary?

Additional payment to faculty members for work performed during their non-academic months:

- **Evanston 9-month Faculty**
  Dates Available: June 16 – September 15

- **Kellogg and Medill 9-month Faculty**
  Dates Available: June 1 – August 31

Summer Salary Eligibility

Faculty with one or more 9-month appointment(s) may be eligible to receive Summer Salary:

- Only 2.5 months of pay may be charged to sponsored accounts
  - An additional 0.5 month may be paid from non-sponsored accounts, or
  - A Pre-Certification Form must be completed and approved
    - See Summer Quarter Salary Policy.pdf
- No faculty member may receive more than 3 months of Summer Salary in one academic year

Northwestern
Determining Maximum Summer Salary

A “monthly salary” available for summer salary request is based on the Monthly Contract Rate:

• Consider 9-month appointments only
• Calculation: Annual Salary / 9 = Maximum Monthly Contract Rate
• *Not* the Comp Rate

<table>
<thead>
<tr>
<th>Maximum Summer Salary – Faculty Member #1</th>
</tr>
</thead>
<tbody>
<tr>
<td>Rcd #</td>
</tr>
<tr>
<td>-------</td>
</tr>
<tr>
<td>0</td>
</tr>
</tbody>
</table>

• This employee is eligible to receive up to **$10,000/month** for the summer salary period.
  • Maximum of **$25,000** *(2.5 months)* from sponsored accounts
  • Additional **$5,000** *(0.5 month)* from non-sponsored or with a [Pre-Cert Form](#)
Determining Maximum Summer Salary

The myHR NW Current Salary page contains the information needed for this calculation:

- Displays Annual Rate, Contract Period, Monthly Contract Rate, and Academic Base Salary for all appointments
Determining Maximum Summer Salary

The myHR NW Current Salary page:

- This employee’s maximum monthly rate for Summer Salary Request would be: $10,722.23 + $5,361.11 + $5,361.11 = $21,444.45
- The total Monthly Contract Rate remains $23,231.48 (100% effort for that month) but only $21,444.45 is available for summer salary request.
- $21,444.45 does not represent 100% effort for that summer month due to the 12-month appointment.
Compliance and Considerations
Careful attention must be given to faculty earning more than the **NIH salary cap**

- NIH Cap is **$16,441.67/month** (effective February 5, 2020)
- Summer Salary can only charge up to the salary cap rate from NIH awards and other agencies following the NIH salary cap limitation (e.g., Michael J. Fox Foundation)
- Any difference in salary above the cap (“cap gap”) **must** be paid from **unrestricted funds**

$197,300/12 months = $16,441.67

[Northwestern OSR guidelines](#)
**Example:** Faculty member with a 9-month appointment and $168,469 annual salary, funded by at least one NIH grant

<table>
<thead>

<td>NU Fund: $4,552.66</td>

</tbody>
</table>

Only $16,441.67/month can come from NIH awards for Summer 2020
NSF Grants

National Science Foundation

• A maximum of **2 months’** salary may be charged to an NSF grant for the entire fiscal year
  • If you have already charged 2 months’ salary to an NSF grant, it cannot be used for Summer Salary

• Review salary funding for the entire year for the employee to determine how much summer salary, if any, may be charged to an NSF grant.

• **If more than 2 months will be charged, it must be specifically approved by NSF in the award.**
Summer salary payments are charged to account code 60020 on the chartstring; full fringe benefits rate is charged (26.8%)

- Account code 60062 is used for Kellogg
- Appropriate account code must be open and valid on all chartstrings before form is submitted
- Check the myHR View Valid Chartstrings page to confirm:

  Organizational Development > Position Management > Review Funding Info > View Valid Chartstrings
Summer Salary may inflate the employee’s salary and bump the employee into a higher tax bracket during summer months

- Faculty may submit a new W-4 to withhold less taxes during the summer months
- W-4s are due in the Payroll Office by the same monthly deadline as the Summer Salary Request

Payments for September 1-15 may be submitted separately if you wish to consider the employee’s FY21 Salary
Summer Effort

Summer Effort differs from Effort during the academic year

- During the Summer period, certify only the salary received instead of the percent effort
  - Total Salary Received = 100% Effort for 4th quarter
  - Summer Salary is included with any 12-month appointments when certifying Effort for 4Q2019

1. **Example**: You pay a faculty member 2.5 months summer salary
   - Faculty certifies effort for those 2.5 months* plus the regular salary for any 12-month appointments (total 100% Effort)

2. **Example**: You pay a faculty member 1 month summer salary
   - Faculty certifies effort for that 1 month* plus the regular salary for any 12-month appointments (also total 100% Effort)
