

All Gender Housing Guide

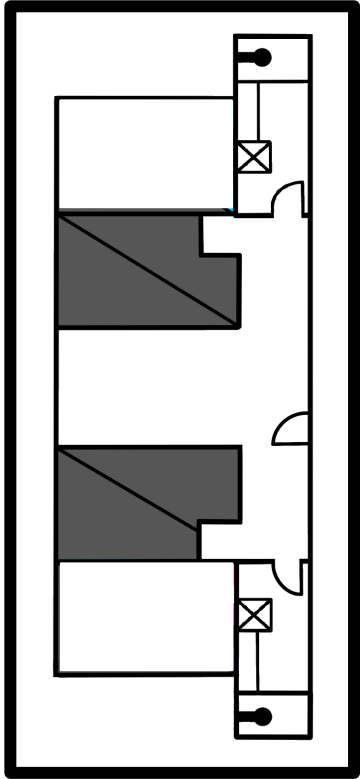

Northwestern | STUDENT AFFAIRS
Residential Services

All Gender Housing refers to an arrangement whereby students, regardless of sex or gender, are permitted to share a room or suite in select areas of Northwestern's campus residences. The primary reason for such a policy is to provide housing options that take into consideration all preferences, and to ensure a safe and comfortable environment for all students. ***All Gender Housing is not intended for romantic couples.***

All undergraduate students have the opportunity to indicate a need for All Gender Housing or be open to All Gender Housing on their housing contract.

In Graduate Housing, residents can elect for their own apartment to be considered all gender, though there are not designated floors for All Gender Housing.
