No longer supported

No longer supported

If a different connector/format is needed, all users must provide their own adaptors to one of the supported types listed above

Basic Description of System Components

Barco Clickshare

A wireless streaming presentation system.

Compatible with Mac or Windows PC

Norris Event Production provides a dongle that plugs into laptop via USB

Mobile Devices and Tablets can stream using Clickshare App (iOS and Android, AirPlay and Mirrorcast)

No cables are necessary

Conference Phones

Can be used in any room with a telephone jack

Allow multiple users to participate in a conversation

only 1 user can call in at a time

If a conference line (multiple callers) is needed, contact Norris Event Production directly for a quote

Microphones

Microphones are available and included, as listed

Microphones come in many types

- Wired and Wireless

- Handheld and Lavalier (also known as lapel, they clip on shirt)

- Vocal and instrument specific types

If additional microphones are needed, charges will apply both in and out of house

Contact Norris Event Production directly for availability and a quote

External Vendors

If a group is bringing in outside sound or video equipment, it must act as a stand alone system. Vendors are not to touch Norris equipment, and Norris Event Production will not operate vendor equipment, unless the equipment is rented by Norris directly.

The one exception is DJs. Norris will provide a connection to our speakers, but will retain final control over volume
