Help us reach our goal of
500 monthly contributors!

NU Cares Recipient Testimonial

"I was struck by a car while I was crossing the street. It was a huge blow, not only physically and emotionally, but also financially. While health insurance did cover the bulk of my medical expenses, there have been countless other smaller costs that weren't covered by insurance as I was going through the recovery and legal process. The NU Cares grant was able to help offset some of the expenses that I incurred as a result of that accident. I'm so incredibly grateful that this fund exists so that I could keep my head above water during an already stressful time."
