Create your care team

It’s important to find providers you’re comfortable with and who understand your unique needs. Keep in mind that your mental well-being is also a key part of your transition. You will have access to a transgender care personal navigator who has specialized training to provide you with dedicated support. They can also help you find doctors and explain your costs and benefits. Log in to your member website at Aetna.com or call us.

Know what’s covered

Count on us every step of the way

Each benefits plan defines which services are covered, which are excluded and which are subject to dollar caps or other limits. Members and their providers will need to consult the member’s benefits plan to determine if there are any exclusions or other benefits limitations applicable. Some plans exclude coverage for services or supplies that Aetna® considers medically necessary. If there is a discrepancy between this policy and a member’s plan of benefits, the benefits plan will govern.
